As an economy measure, the department has decreased the pay for presiding officers as follows: H. E. Jones, \$12; Assistant Officers from \$12 to \$10; assistant, from \$8 to \$7.50. Entrance exams—Presiding Officer, \$7.50; assistant, \$7 to \$6.50 per day.

Two High
A joint meeting of the Halton County Educational Committee and the Trustees of the County High School Boards, held in the Burlington High School, dealt with the vexed question of the high cost of education. County Warden R. M. Headhead presided. Representatives from Georgetown, Milton, Oakville and Burlington attended. The following resolutions were passed: That salary reductions or increases is a matter between School Boards and members of their staff; that the fees of the presiding examiners were too high. As the teacher or examiner is hired on a year-to-year basis, it was suggested that the work be divided among them and that all travelling expenses only be allowed, and that the raising of examination fees from \$1 to \$1.50 be discontinued. It was decided to send copies of resolutions to the Minister of Education for consideration. The Government recently ruled that the maximum fees last year would also be effective this year. Lower School \$5; Middle School \$10; Upper School \$15.

Mr. and Mrs. R. B. Galbraith, and Mrs. Frank Pearce, son, recently attended the funeral of the late Miss Annie Bessy at Georgetown, on Thursday afternoon.

The one hundredth anniversary of the starting of Christian worship of Epworth Church in Neessaweya Township will be held in June. Plans are now being worked out for the celebration of the event. Mr. John Marshall has been named as the church almost ready to be printed.
Word has been received here of the death of Mrs. John P. Burch, who passed away at her home in North End, Pa., on Thursday, April 27th, in her 86th year. She was a daughter of the late Mr. and Mrs. Joseph Burch, and was born in Nelson township, on the mountain, south of Milton. She was married to John P. Burch in 1868. She is survived by her husband, one sister, Mrs. Annie Beamish, of North East, Pa., and two brothers, Elwood and Charles Hartley, of North East, Pa.—Champion.

Exports of Canadian wheat flour, which was performed at the Burlington church presented a very clever play entitled "Waiting for the Doctor." They showed what medical care means to a child in the Christian land and what it means to the children of darkened lands.

Canada's butter exports to the British Isles and other countries totalled 10,680,000 pounds in 1931, as compared with only 1,180,400 pounds in 1920.

Canada's bread and bakery products industry produced last year to a value of \$73,594,834 during 1930, through 2,648 establishments of which 1,071 are located in Ontario and 563 in Quebec.

March was the year's best month, to date, for pig iron production in Canada, with a total of 17,989 tons at a value of \$1,000,000 per day, as compared with 163 tons per day in February and 832 in January.

W. G. Chester, dean of Canadian railroad veterans, has just received the honor of being named in the service of the Canadian Pacific Railway and another 25 with the Brotherhood of Railway Conductors.

Excursions run by the Canadian Pacific Railway between various points in Eastern Canada have been carried on visits and holidays, by different week-ends, by this means.

The 1931 census shows 72,844 occupied farms in Canada, or 17,154 more than were shown in the census taken in 1921. Quebec, Manitoba, Saskatchewan, Alberta and British Columbia are responsible for the increase, with the last-named in the lead.

Navigation opened in Montreal on the 27th inst. The first trans-Atlantic ship in port. The ship was the "P. J. Bouchard," receiving the red-headed cat, presented annually by the Harbor Commissioners, for this exploit.

Passenger-honors in the trans-Atlantic service are the Canadian Pacific, when the liner Montclair docked on the afternoon of Tuesday, April 19, as the first passenger ship to arrive in Montreal. Thus the C. P. R. claims double honor for the 1932 season.

Liverpool witnessed an unique event on April 19, when 750 British boys and girls disembarked from the Canadian Pacific liner Montclair, after a special cruise in the Mediterranean. A great London daily newspaper has offered prizes for the best essays written on the trip.

Some weird stories have been told lately, but the open record would appear to be held by a Blenheim cat, which was sent on the Canadian Pacific liner Empress of Britain, when she left England to go to New York in the latter part of last winter. Fussy little puss seemed to show herself when the ship was in the North Sea, and long trip. The Empress got a rousing welcome in New York City, and the cat was delivered to its owner, in the Southern States.

Notice to Dog Owners
Any person who owns a dog must secure a dog tag on or before the first day of May. Dogs without tags shown may be destroyed in accordance with the by-law. Tags may be secured from the Clerk R. K. Marshall, of the City of Toronto.

News and Information For the Busy Farmer

Clipping the pores that has a heavy coat makes work easier for both horse and attendant. Grooming is not always as thorough as it might be even with clipped horse to say nothing about the one with a long heavy covering of hair.
The big rush the first day of seeding may break the heart of the young farmer that is unaccustomed to work. Even the mature horse that has been idle all winter feels the strain of the first few days on the soft ground. Bring them to a full day's work gradually.

School Fairs
School Fairs are being continued throughout Ontario by the Ontario Department of Agriculture. This spring however the pupils of the various schools will not receive seeds as they have formerly and special judges will not be provided, but the Department expects School Fairs to be carried on much the same as in the past. The Agricultural representatives, therefore will require the co-operation of various people to assist in planning any necessary changes and to assist with the judging at School Fairs.

Plant Raspberries Early
When starting a raspberry patch or planting the planting should be done place very early in the spring, before the canes have budded out. This ensures the canes forward and they will get much shock. It is important that the soil be carefully prepared and well fertilized if one is to secure abundant crops.

Two general systems of planting are equally popular. With the hill system long Cultivator later on will level up each way, while if the hedge row system is used the distance between the rows should be broad six feet in order to provide plenty of room for cultivation. If the plantation is considerable size, the best method to adopt is to cut a narrow and set the plants in this. For a small plantation the hills may be opened with a spade with equal success.

Farm Harvest Come Back
The present low price of oats and other feeds in contrast with the higher cost of gas and oil required in tractor operation, is causing many farmers to reduce their oat crop. The best feed for horses is rapidly regaining favour as a medium of farm power. The best feed for horses is rapidly regaining favour as a medium of farm power. The best feed for horses is rapidly regaining favour as a medium of farm power.

Current Crop Report
Perth County shipped a carload of 100 bushels of potatoes to U. S. recently, selling around the \$100 mark. A Grain Club in Oats has been organized and has a membership of 75. Preparations in Kent and Norfolk Counties indicate that the tobacco acreage this year will be about on a par with that of 1931.

Allison branch of the Central Ontario Cattle Breeders' Association has a quantity of Canada Fancy pointers recently. These are being put up in 15-pound bags and are retailing in Toronto at 18 cents per bushel which is about 45c per 90 pounds.

There appears to be more general interest in the sowing of registered seed this year than ever before. Down in Hesse County they had the largest number of registered seed sowers on record and the number will likely be increased in 1932. Most of the seed-sowing plans have been running steadily for some time and one or two of the plants running nights to keep up with the demand for clearing.

Improving the Appearance and Value of Farms by Planting
A farmer can improve the appearance and increase the value of his farm in 10 to 20 years by spending a few days in the spring planting trees and shrubs around the farm buildings. A cash outlay is not necessary, as he may procure native trees and shrubs in neighboring woods and along the fence-rows.

The trees should be placed to give a setting for the buildings, rather than to hide them. Their ultimate size should be kept in mind in order that they may be spaced properly, and will not be too close to the buildings.
As the root balls that take up food from the soil are at the end of the roots, care should be taken to preserve as much of the soil as possible. When moving trees in dry weather, the roots should be protected by wet burlap and should be kept in shade.

In planting, the hole should be sufficiently large to take the roots without crowding. Rich loam should be well worked in around the roots. Some of the branches should be removed to offset the loss of roots, and in pruning the final desired shape of the tree should be kept in mind, such as the distance the lowest branch should be from the ground.
The white elm, sugar maple, red maple, red oak, white ash, and white oak are fine trees for planting in all parts of Southern Ontario. The soft or silver maple should not be planted extensively as it has very brittle wood and breaks easily when exposed to heavy winds and ice storms.
The native sumach and dogwood make attractive shrubs for planting around the grounds.
Early spring is the best time to plant trees in Ontario. Chances of success with any substance which may endanger the public health, and to have same completed by the 15th day of May next on which day the sanitary inspector will commence a general inspection.
All residents are earnestly requested to keep their premises constantly clean and in thoroughly sanitary condition.
