

WHY MOTHER IS PROUD

Look in his face, look in his eyes. Roguish and blue and terribly wise— Roguish and blue, but quickest to see When mother comes in as tired as can be. Quickest to find her the nicest old chair. Quickest to get to the top of the stair; Quickest to see that a kiss on her cheek Would help her far more than to chatter, to speak. Look in his face, and guess, if you can. Why mother is proud of her little man. The mother is proud—I will tell you this. You can see it for yourself in her tender kiss. But why? Well, of all her dears. There is scarcely one who ever hears The moment she speaks and jumps to me. What her want or her wish may be. Scarcely one. They all forget. Or are lost in the notion to go quite yet. But this she knows, if her boy is near There is somebody certain to want to hear. Mother is proud, and she holds him fast. And kisses him first and kisses him last. And he holds her hands and looks in her face. And hunts for her spot which is out of place. And proves that he loves her whenever he can— That is why she is proud of her little man.

GENERAL NEWS

A chimney fire on Wednesday at noon resulted in the destruction by fire of the Estate Mariani residence on his farm at the corner of the Dundas highway and the town line. Coming in for dinner Mr. Mariani observed the chimney on fire. This was extinguished and it was thought all was over. The son, Floyd, coming from the barn some little time after saw the roof in flames. A gale of wind was blowing. Mrs. Michael Walsh, aged 50... of Ingleswood, is in the Toronto Western Hospital as a result of being shot through the face on Thursday evening by a bullet from a rifle in the hands of Robert Nunn, aged 15, also of the village. The bullet penetrated the cheek. The victim is reported not in a dangerous condition. According to Dr. J. P. Thomas of Cobden, the shooting was purely accidental, he said. The girl was coming out of her home carrying the gun. It accidentally discharged, the bullet striking Mrs. Walsh, who was sitting in a chair outside. Capt. E. A. Morden and Mrs. Morden, of Ottawa, were enjoying a social evening in the form of a progressive euchre at their home on Lakeshore road, last Thursday evening. Guests were invited from Hamilton, Milton, Palermo, Streetsville and Oakville. Fire of unknown origin caused damage to the extent of \$200 or \$300 in the store of N. S. Marshall at Eden Mills on Tuesday last. Neighbors started in boxes of glassware. The interior of the store was not damaged to any extent, but the stock suffered considerably. As if they were not to be outdone by the presence of a large white swan among other waterfowl on the bay recently, a flock of black ones— species which very rarely visit this portion of the province—was also noted on the bay by observers at Oakville.

Coffee-Flavored Foods

By Betty Barclay Don't stick to one flavor in your cooking. A change will be appreciated even by a husband who swears by your ability. Coffee is sometimes almost entirely ignored as a flavoring agent. Yet the following recipes are but two samples of delicious dishes thus flavored. Coffee Frappe 1 egg white 1 cup cold water 1 cup ground coffee 1 quart boiling water 1 cup sugar Beat the white of the egg slightly and add the cold water and ground coffee. Place this in a coffee-pot and pour over it the boiling water. Boil two minutes, then stand where it will sugar. After ten minutes, strain, add sugar, cool and freeze. Serve in tall thin glasses with whipped cream. If a percolator is used, make a quart of clear black coffee. Let's make delight 1 ounce (2 tablespoons) granulated gelatin 1/2 cup cold water 1/2 cup boiling water 1 cup sugar 3 cups strong coffee Follow standard directions for making jelly. Particularly good served with whipped cream. THE MUD ALBUM To make a mud album for recording bird and animal tracks, requires no other tools than a pair of willing hands and no materials other than nice soft mud. Find a place near a stream where birds or animals feed. Clear weeds and sticks from a place a yard square. Smooth with hands and keep level. If mud is hard, mix with little water so that the tracks of small animals will register. Next morning you will probably find both birds and animal tracks in the album. Bend a strip of cardboard in a circle and thrust into the earth around a track. Mix a little plaster-of-paris with water until smooth, but not too thick. Pour into the cardboard mold. In about half an hour you may pull out the cardboard, lift up your plaster, wash off the under side and have a beautiful plaque of bird tracks, a deer track, a skunk track, or a track of whatever animal visited your mud album. This is but one of the many interesting things learned by boys and thousands of our towns and cities. This organization has probably done more to turn us into a nation of observers than any other organization in existence. SOME SANDWICH SUGGESTIONS When in search of an unusual filling for the lunch-box sandwich, try combining one part orange juice with two parts cream cheese. Beat to consistency of thick cream. Orange juice, by the way, combines especially well with dried fruits, such as chopped raisins, figs, dates and with chopped nuts to make flavorful fillings. Try spreading one slice of sandwich with orange marmalade, and the other slice with cream cheese, cottage cheese or peanut butter. Toast sandwich if desired. Orange bread with orange marmalade makes a delightful after-bridge sandwich. PREPARING ORANGES FOR SALADS For slices, peel, remove outer skin and membrane, cut in thin, even slices. Half or quarter for easier handling with fork. For segments, peel out on either side of each dividing membrane and remove pulp, segment by segment—without the membrane. For pieces or pulp. Cut segments in two or three pieces or cut fruit in thick slices and cut out each segment, free from membrane. Save any orange juice that escapes to make salad dressing; to moisten such ingredients as cheese, or to marinate other ingredients. Juice prevents discoloration of such foods as apples or bananas, when they are allowed to stand in it for a few minutes. GOOD PLACE TO START Premier Bennett threatens to auction off the luxurious limousines in which cabinet ministers, their wives and their cousins, and their aunts, all about the capital, and also hints of doing away with the ministers' private railway cars. Although it would require boldness to put his threat into action, the great mass of people would like to see it done. If the government must economize, which the drop of \$100,000,000 in the national revenue would show that it must, the cutting off of this extravagance would be a good place to start. Why should the country have to pay for the upkeep of limousines for cabinet ministers and all their relations—Tara Leader. SUSPENDS PUBLICATION These are trying times for the small town weekly and many of them are finding it difficult to keep going. The editor and publisher of the Detroit Post has just announced the sale of the plant and the suspension of the publication of the newspaper. Mr. Harlow, who bought the Post a year or a dozen years ago, is one of the best news and short story writers in Ontario and besides is a first-class reporter. Detroit is a town of nearly 2,000 population. The Post was the only printing and newspaper office there. News and Information For the Busy Farmer Judging by the crop of early lambs the past winter has suited the flock. In many flocks there is an average of two lambs to a ewe, or 200 per cent increase. The pleasing feature is that the lambs seem particularly strong. Pigs are rapid growers if well and properly fed. But they require plenty of nourishment to make vigorous growth. It is a good plan to have the young pigs eating before weaning so as to avoid a set-back. If growth is slowed up at any stage a loss is probable, especially at the low price of hogs. Grain alone will not give rapid development. When to Plant Garden Seed A timely remark with respect to the planting of the home vegetable garden is that the hardy seeds should be sown as early as weather and soil conditions will permit. Spinach, or dimpled peas, onion, radish, lettuce and spinach can be sown as soon as the soil has dried enough to permit working without injury to the texture. Beet, carrot, parsnip and wrinkled peas may follow, with beans and tender crops sown to be planted after the danger of freezing is past. Interesting Publications Among publications recently issued of interest to farmers are the following: Report of the Ontario Veterinary College, 1931. 32nd annual report of the Agricultural and Experimental Union, 1931, and a bulletin on the subject of Draft Horses, by J. C. Stone, Professor of Animal Husbandry, Oshawa.

WHY GAMBLE WITH A SECOND CHOICE TIRE WHEN GOODYEARS COST NO MORE?

Thousands of extra miles in these body-balanced Goodyear tires

You can get out of a tire only those miles that are built into it. Mileage is not a matter only of weight, size or tread design. It is a matter of construction—the fabrication of correct materials and their proper mating. Unbalanced tires will not stand the shock and speed of modern driving.

Goodyear tires are balanced. The same tire engineers and workmen who gave you the famous elastic-like Supertwist Cord and the All-Weather tread, build tires in which every part is moulded into one complete unit. In tires as Goodyear builds them, carcass and tread are one. Strong Supertwist Cords, protected by Goodyear-processed rubber, are built up layer by layer— evenly—uniformly—defying separation and friction.

The man who drives on Goodyears is free from the troubles he has had with unbalanced tires. All risks are lessened. Most risks are eliminated. Goodyear Tires are safe at higher speeds. They are non-skid. Their balanced construction defeats the attacks of modern brakes. The cause of the dreaded and dangerous blow-out—inner friction-heat—is conquered.

Goodyear Tires give thousands of miles of extra service because these miles are built into them—by Goodyear—the greatest name in rubber.

MORE PEOPLE RIDE ON GOODYEAR TIRES THAN ON ANY OTHER KIND

Advertisement for Goodyear tires featuring a contest. Text includes: 'HOW MANY SUPERTWIST CORDS IN THE AVERAGE GOODYEAR TIRE?', '\$3,000 CASH', and prize list: 1st Prize \$1,000.00 cash, 2nd Prize \$500.00 cash, 3rd Prize \$200.00 cash, 4th Prize \$100.00 cash, 5 Prizes each \$50.00 cash, 95 Prizes each \$10.00 cash. Also includes: 'Go to any Goodyear Tire Dealer's and see the display which will help you to win one of the cash prizes.', 'Ask for a booklet of simple contest rules and entry blank.', and 'Do it today! Get in on the \$3,000 prize money! Contest closes June 5th.' The Goodyear logo is also present.
