For Homes Beyond the Gas Mains!

**The NEW Coleman Instant-Gas**

Just strike a match, turn a valve... and presto!... there's your clear-blue gas blaze... ready for cooking! No preheater... no waiting. The new Coleman Instant-Gas brings instant gas-cooking service to homes beyond the gas mains. Makes and burns its own gas from regular motor fuel.

See your dealer. Let him show you all the fine features of this stove... no other stove like it. Many models to select from.

THE COLEMAN LAMP & STOVE CO., Ltd.  
TORONTO, 6, ONTARIO

ASK YOUR DEALER

It Cuts Like Lumber

AND nails like lumber. Its light weight makes it easy to handle. It requires no expensive decoration, in fact none at all, when painted.

Use it for obtaining fire-safe walls, ceilings and partitions throughout your home.

It has structural strength, insulation value, is draught and vermin-proof, easy to install, saves time in new construction and is an excellent base for Gypfex or Akahstine.

Gypfex may be easily identified by the name on the board and the Green stripe along the edge.

**THE ROCK GARDEN**

I shall not plant those flowers upon your lawn. There, in undreaming sleep, you would not know if, softly, they had been laid. The multiplied buds of them should grow. Instead, I'll use their equal strength to stich our little garden's rocky heart.

Here I shall plant this scilla, Wedgewood blue. Pink saffrage, gold Stars of Bethlehem. Here I shall put frail chialied crocuses. And Jonquills to be harbingers of Here I shall plant those panies, Kittens-faced. And, after the slump flowers the neighbors bring. Then, early as some April eve, when when grey rocks the blossoms "bold" blue. Timidly sure and gaily delicate— You will return and place your hand in mine. You will return and be so pleased to note Great hyacinths—such perfect, stony things. That where they are one looks for fairy forms for the whirl of wet, thin wings. Then you will marvel that this rocky place Has, after barren years, begun to bloom. And you will say it is another good Of life arted from a stone-enclosed tomb!

I shall not put those flowers upon your lawn. There, where you lie asleep, you would not see; But here, in this small garden that you loved, You will be waking every day with me!

—Violet Allyn Gray.

**Recipes For Reducers**

Unless your reducing diet contains sufficient iron and roughage, nutritional anemia or a clogged system may result. Iron supplies bulk, aids in a natural manner in the removal of bodily wastes and is a rich source of the blood-building iron, as well as of Vitamin "B". The following recipes, therefore, are particularly important:

**All-Brain Muffins**  
1 cup flour  
1 cup all-brain  
4 teaspoons baking powder  
1/4 teaspoon salt  
1 tablespoon sugar  
1 cup milk  
2 tablespoons butter

Sift all dry ingredients together. Add milk and egg slightly beaten to dry ingredients slowly and mixing well and thoroughly. Add melted fat last. Fill well greased pans two-thirds full. Bake in hot oven at 225 degrees F. 20 to 25 minutes.

**All-Brain Quick Bread**  
3 cups flour  
2 cups all-brain  
1/4 teaspoon salt  
1/4 teaspoon soda  
2 teaspoons baking powder  
1 tablespoon sugar  
1/2 cup molasses  
2 cups milk  
2 eggs  
1/2 cup raisins melted butter  
1 cup chopped nuts

Sift dry ingredients. Add bran. Then add molasses, egg slightly beaten to milk. Stir into dry ingredients, mixing well. Add nuts and melted shortening. Pour into a well greased loaf pan. Let stand 10 minutes. Bake in a moderate oven, 325 degrees F. from one to one and one-half hours.

**LAMB CHOPS WITH ORANGES**  
(Serves 6)  
6 lamb, veal or pork chops  
Melted butter  
Sliced oranges  
Salt  
Pepper  
Paprika

Trim fat from thick chops and dip in melted butter. Oil broiler well and grill chops 1 minute. Turn and place a thick slice of peeled orange on each chop. Broil 8 to 10 minutes longer. Sprinkle generously with the seasonings. Serve hot.

**FUDDINGS FOR PARTIES**  
As all good cooks know, the final excellence of a dinner is measured by the dessert. A variety of inviting desserts which will appeal to every member of the family, is a necessity in the housewife's recipe book. Coffee, used as a flavoring, adds a satisfying, too-rich touch. Here are two easily-prepared puddings which will lend distinction to a meal:

**Arabian Pudding**  
Five tablespoons butter, 1 cup light brown sugar, 3 egg yolks, 1/4 cup cold strong coffee, 1/4 teaspoon vanilla, 1 dozen lady fingers. Cream the butter add sugar gradually and then the egg yolks. Add coffee and vanilla drop by drop (if coffee is added quickly the mixture will curdle). Place 2 or 3 lady fingers in paraffin or sherbert glass and cover with coffee mixture, then set in ice box for 3 hours.

**Coffee Bavarian Cream**  
One tablespoon gelatine, 1/4 cup cold water, 1 pt. whipping cream, 1-3 cup sugar, 1/4 cup strong coffee, 1 teaspoon vanilla, 1 tablespoon lemon juice, a pinch of salt. Soak gelatine in cold water 5 minutes. Dissolve in hot coffee then add sugar. Beat bowl containing mixture in pan of cold water and stir until it begins to thicken. Add cream, beaten until stiff, and flavoring. Turn into wet mold and chill.

**Here and There**

**Anticipations**—are that there will be an attendance of 500 Representatives in the district meeting to be held at the Cornwall Inn, Kenville, N.E. June 1 and 2. It is expected that Sir John B. East of St. John's, Newfoundland, will address the convention.

Hon. Gordon S. Harrington, premier of Nova Scotia, accompanied by Mrs. Harrington, left Halifax recently for Montreal where they boarded S.S. Duchess of Bedford for a short holiday in the Old Country. During his absence, Hon. Percy C. Black will be acting premier of the province.

"If it is not too much to say that any improvement in the revenues of the railways will immediately make itself felt in all channels of trade and that the maintenance of railways' prosperity will mean more than any other domestic factor to restore strength to the nation's institutions," says an editorial in the *Charleston, S. C. Post*.

The "cover open to merit" in railway affairs will illustrate in the case of Charles H. Ewing, a railroad for 43 consecutive years, recently promoted to president of the Reading Company, Pa. 1932, at the age of 77, Ewing is the only railway president in the Philadelphia & Reading Railway, now the Reading Company.

There were 417 moose and 2934 deer shot in Brunswick last year, according to figures contained in the annual report of Chief Game Warden H. H. Richards to the provincial Game, Lands and Forests. There was also a very successful partridge season with a bag of 4,000 birds.

Warmer weather and generally favorable conditions point to normal development of the western wheat crop, according to the report of the agricultural department of the Canadian Pacific Railway. Virtually all of Manitoba's seed is now planted and will be completed by the end of the third week of May.

Two famous globe-trotters, Dr. Roy Chapman Andrews, noted explorer of the prehistoric world, and Bob Taylor, New York Sun's world-traveling correspondent, came together at Victoria in a meeting with Mrs. Davis to Honolulu.

Success attending the inaugural cruise of the S.S. Princess Victoria, which left Vancouver, B.C., for Seattle, Wash., is announced by E. F. L. Sturdee, general passenger agent, Canadian Pacific Railway.

Capital, labor, the learned professions, diplomacy and business were all represented in the passenger list of the Canadian Pacific liner Empress of Australia on arrival at Quebec recently. The list included Sir Charles Gordon, president of the Bank of Montreal; Tom Moore, president of the Trades and Labor Congress of Canada; F. E. Meredith, K.C., Dr. Moser, consul-general for Casco Bay, and Colonel Herold Barra, Canadian Government Trade Commissioner in Paris.

Residents of Maritime Provinces will have a fine opportunity of visiting Montreal's great Naval and Military Tournament, May 27-29, through a special low rate Canadian Pacific coast excursion leaving St. John's, Fredericton, Woodstock, St. Stephen and St. Andrew's May 27. Similar excursions during the same week-end are being operated by the railway from Vermont, and the Sudbury, Ontario, areas. (248)

**News and Information**

**For the Busy Farmer**  
The Canadian wheat carry-over July 31, 1932, will be in the neighborhood of 103 million bushels, according to an estimate published by the Bureau of Statistics. This is the smallest carry-over since July 31st, 1928.

**Will Grow Lima Beans**  
A fairly large acreage of Lima beans will be grown in East Egin for canning factory use, according to reports received at the St. Thomas office of the Department. Production tests have been made in both East and West Egin during the last three years, and satisfactory yields of Lima beans reported. The average yield, 1,300 to 1,500 pounds to the acre. The acreage of soy beans in the county will be small.

**Plan Year Program**  
Now is the time to plan next winter's feeding program, not next winter. At this time, farmers can estimate whether they will be short of hay and silage before next spring comes around. There is still time to sow annual hay crops, such as soy beans, or a mixture of clover and alfalfa. A few extra loads of high yielding, and high feeding value. An extra acre of corn for silage might be valuable.

**Better Farm Practices**  
In spite of the depression and the shortage of ready cash farmers everywhere in Ontario are using this year more careful and thorough farm practices than ever before.

Both of these reports that they have never had such a demand for high class seeds. All available supplies of alfalfa, clover, red clover, wheat, barley, oats, buckwheat and peas have been purchased and sown on Ontario farms. Strange to say there has been an unprecedented demand for registered grain. Hardware merchants report a wonderful sale of seedling material for fanning mills. Druggists report greatly increased sales of Formalin for treating grain for smut. Feed cleaning plant operators report heavy increases in business.

These facts all indicate that the average farmer is not only taking advantage of low prices but is doing his part toward meeting depressed prices. He is doing everything possible to increase his yield per acre and thus lower the production costs which enables him to some degree at least to successfully meet the present low prices.

**Weekly Crop Report**  
Heavy rains have assured ample moisture in practically every part of Ontario. Crops are looking splendid. Fall wheat, clover and alfalfa are making excellent growth. The apple bloom is very heavy in most orchard districts, and a considerable increase in the number of orchards being sprayed. Farmers are coming to realize that they must either spray or cut down their orchards altogether.

**Many Poor Hatches**  
Reports received at the Experimental Farm, Ottawa, indicate that chicks are not hatching as plentifully as usual this spring. Hatches as low as 10 per cent. of the total eggs are reported, while 20 per cent. and 25 per cent. hatches are not uncommon. This condition seems to be fairly general throughout the whole of Canada. These poor hatches, along with the late season, may have a decided effect upon egg production next winter. Buyers should be advised to buy late chicks with caution because experiments have shown that chicks that cannot mature before winter are a poor investment.

**The Apple Maggot**  
According to a recent statement by Chas. W. Bauer, secretary Ontario Growers' Markets Council, Hamilton, about half the apple orchards in Ontario are infested with the apple maggot. The infestation in the main is slight, but there are some heavily-damaged orchards in some counties. Mr. Andrew Fulton, Ontario Fruit representative, has advised that Britain will place an embargo on all early supplies of apples if maggot is found in one shipment. This danger necessitates growers taking every practical measure to eliminate the insect from all commercial orchards at least. They are urged to spray thoroughly for control of these pests.

**New Advisory Board**  
Hon. Thomas L. Kennedy, Minister of Agriculture, has announced the appointment of a five-man, Advisory Board under the chairmanship of D. O. Bull of Brampton to assist the Department in matters pertaining to the live stock industry of the province. The other four members are: W. A. Dryden, Brooklin; J. E. Brothour, Burford; Walter Scott, Shelburne; and F. D. Erlen, Ridgeway. All members of the new board are widely known for their interest in the live stock industry of the province. Mr. Bull and Mr. Dryden are past presidents of the Royal Winter Fair. Mr. Bull is famous for his Jersey herd. Mr. Brothour has specialized in the breeding of bacon hogs. Mr. Scott is a prominent live stock breeder, and Mr. Erlen is chairman of the Live Stock Records, Branch, Ottawa.

**Battling the Weeds**  
Through a series of annual meetings, one in each County, more than 1000 Weed Inspectors in Ontario were brought together along with Reeves and Road Superintendents. The Weed Act was explained and suggestions and instructions were given by A. R. G. Smith, District Weed Inspector for Western Ontario and John D. McLeod, District Inspector for Eastern Ontario.

Weed Inspectors reported Sow Thistle to be the worst weed on cultivated lands in the province, and second, both these weeds are now found in every county. Some counties reported Sow Thistle to be widespread in the province.

Teacher—"Now, Robert, what is a niche in a church?"  
Bobby—"Why, just the same as an urch anywhere else, only you can't scratch it, as well."

"Look, papa, Able's cold is cured and we got left a half box of cough-candy."  
"Oo, vot extraganant! Tell Herman to go out and get his feet wet."

**A WEEK IN FAIRYLAND**

Nobody ever entirely loses that childhood illusion of a land which surpasses in loveliness and happiness anything that the mind is capable of envisaging. The land of make-believe, where every wish may someday become a reality. It is not too much to say that the glorious Rockies, Canada's great holiday territory, renowned throughout the world, are as close to this elusive dreamland as anything that mortal man is likely to discover. Special arrangements for the coming season now bring a week in this modern fairyland well within the reach of the average traveler, with Banff and Lake Louise, on the main line of the Canadian Pacific Railway, as base-points and a wide range of the great mountains near Field, B.C. Easily reached from all points by Canadian Pacific Railway, main line points are linked with the camps in the inner mountains by the Brewster Transport Company, past masters in comfort and conveyance for the traveler in the valleys and passes of the mighty Rockies. Automobile drives, trail rides and hikes combine with bright entertainment in the evenings to make the holiday something to be remembered for a lifetime.

Camp; Yoho Valley and Bungalow Camp; Takahawk Falls; the historic Kicking Horse; Mount Stephen; Emerald Lake and the wonders of the great mountains near Field, B.C. **WHY BOTHER WITH A SECOND-CHOICE TIRE WHEN GOODYEAR COSTS NO MORE?**

Before a blowout comes, you don't see, or hear, or feel the warfare that is going on inside your tire. Heat, caused by friction of separated parts, gives no warning. That is why you should tread the blowout more than any other tire trouble.

If you have ever been the victim of a blowout "somewhere on the road" you will welcome the protection offered by the balanced construction of Goodyear Tires.

In these truly balanced tires, carcass and tread are one. Goodyear Supertwist Cords, world famous for extra-mileage qualities, protected by Goodyear-processed rubber, are built up by hand and moulded layer by layer into the rugged Goodyear carcass. This and the sturdy, thick, All-Weather tread form a completely mated unit.

Goodyear Tires give you unusual wearing quality... thousands of extra trouble-free miles... extra resistance to skidding... and freedom from that most dangerous of driving hazards... the blowout.

For 17 years more people have ridden on Goodyear Tires than on any other kind.

**THE SHE LOST 18 lbs.**

Here is a lady who writes—"I am most thankful I saw your announcement 'Lose Ugly Fat.' The recipe she also prescribed such a simple one—just that almost magical morning dose of Kruschen Salts.

"I started taking Kruschen Salts 16 weeks ago to reduce weight. I then weighed 140 lbs., and now 122 lbs. I am anxious to get down to 115 lbs., and suppose I will in time. Kruschen Salts have done me good all round. Am most thankful I saw your announcement 'Lose Ugly Fat.'—Mrs. V. W. C.

Unlike most salts, Kruschen Salts is deeply laxative. When you take Kruschen Salts you not only stimulate your liver and kidneys to function naturally and properly, but you keep every internal organ, gland, nerve and fibre in the body with Nature's own revitalizing and rejuvenating elements. Get a bottle of Kruschen Salts today, and take one-half a teaspoon in a glass of hot water every morning before breakfast.

Before the bottle is empty you'll feel your youthful vigor with renewed energy. You'll sleep soundly, enjoy your meals, and after a hard day's work you'll be able to relax and rest peacefully. Kruschen Salts women should take all this.
