ORANGEVILLE. Five Year Concentration On Fruit

and Vegetables

he the result of ten years' educational work by the Canadian Horticultural Council and the Canada Jobbers' Association, a five-year National Fruit, and Vegetable advertising cam-paign got under way officially for the Toronto and district area recently. Snot announcements on strawberries were count out three or four times daily from three Toronto radio stations and these no doubt were beneficial in helping to move into consumption the enormous quantity of berries shipped to this market. Radio and press announcements were also released in the Maritimes. Montreal and in Western Canada. The campaign is to be forwarded vigorously throughout the year and every channel of broadcast includeing newsympers, radio, leaflets and posters will be used. National advertising will be carried on to stress the health-giving proporties and the structive natural flavour of fresh fruits and vogetables. Lical and beatonal approuncements will be employed to attrice the housewife of the arrival of the various new geneous crops on the local market, and he plans are develo-ped croking and preserving demon-strations will be arranged.

# Yes—they're fine young chickens!"

It was Joe Kingsmill's wife who spotted the advertisement - 2 firm in town offering to buy 60 young chickens. She showed it to Joe.

on Station-to-Sta-

tion Calls begin

7.00 p.m. Still

lower night rates

at 8.30 p.m.

"Every poultry farmer in the province will be writing," Joe said. "I'll telephone right now and beat the crowd."

So he did. And got the business too for his alertness. The Long Distance telephone call cost him 35 cents.

# To Keep Slender You Must Be Clean Inwardly

Let ENO keep you well regulated and you will have the normal, slender body nature intended for you. ENO'S "Fruit Salt" will keep the body normal by ridding the intestinal tract of poisonous waste matter. Be ENO conscious. ENO is the safe, sure way to normal health and slenderness.
