ON KEPING THE FACE CLEAN?

9 Of course you wash it-but is it clean? We're willing to wager that it is. Then you don't simply go through the motions of washing your face as a habit, but because it makes you feel "right" to know that it is clean and because it is pleasing to the people you meet in the course of the day.

Well then, when you buy stationery for your business, is it not worth while to see that it is printed properly and not to accept printed matter of any kind simply because it is cheap? You wouldn't use jute as a face towel, would you? But it's much cheaper, than linen. Business stationery is your "paper face"your personal representative—why not make sure it represents you properly. We will be glad to show you paper and ink samples, specimens of type faces, layouts and estimates.: PHONE 8. Ask us to call. Mail orders promptly filled.
