YES!

Cars do need attention in the hot weather

Road dust and grime get into all parts of your motor more quickly than in cooler weather. Blazing sun blisters the paint and checks the top.

WHAT TO DO TO OVERCOME THIS DESTRUCTION

1. Change your Oil at least every 500 miles. 2. If you are driving very much have your car greased at least every 2 weeks during August. Let us dress the top of your car with high-grade Top Dressing. The cost is only \$1.00 and it will save the top on your car.

We also do Simonizing at reasonable prices. It will save the finish of your car. Install a new Fan Belt and we make no extra charge for flushing out radiator at the same time." For 'Safety's Sake' let us keep in order your BRAKES, STEERING, HEADLIGHTS, ETC.
