OPPOSES ABOLITION OF COUNTY COUNCILS
The following resolution was passed
by the Kigin County Council and sent
to other County Councils, requesting
their cooperation.
"That this Council disapprove of the
movement on foot in some parts of the
provinces favoring the abolition of
County Councils for the following
reasons:
"1. The County Council, as it is
now constituted, is a time honored in-
stitution of the Province and no at-
tempt should be made to stampede the
people into agreeing to its abolition
without their knowledge and consent.
"2. Much of the work now being
done by the County Councils, which
legislation abolishing the County
Councils should come into force.
"3. The roads now controlled by the
County would have to revert either to
the local municipalities or to a central
body, a step backward, as these munici-
palities could not as effectively keep a
proper system of roads as is done
under the present system.
"4. The abolition of County Councils
would mean a loss of the existing
means for training of the young men
as it is conceded that the experience
of a County Council and the training
that it receives as an important
committee, fits them for the
work of the Province.
"That a copy of this resolution be
sent to each County in the Province,
the Prime Minister, and the local rep-
resentatives."

"The weekly newspaper structure in

stands firmly on its own feet, and
public confidence in it is not misplac-
ed. Its background is set in an ex-
perience that tested and tried the
"home town paper" throughout Cana-
da in the past quarter-century has
been with the times. The weekly
newspaper establishment today is
generally supplied with much of the
modern mechanical and office equip-
ment that has taken jussurework out
of the business and placed it upon a
level that recommends its service to
the goodwill of both readers and ad-
vertisers."
