"Yes—we're both feeling fine"

Joe Thompson and his wife were glad when Gwen finished Business College and got a good position in the city. But Gwen was the last of the family and the house was pretty lonely.

Then they found they could call her on Long Distance telephone for as little as 30 cents. So now, every Friday evening, Gwen waits for their call and the weekly talks make them all feel better.

Long Distance is easy to use, dependable, and surprisingly inexpensive.

WISTFULNESS

If in these days of storm and stress we might... The source of rest and peace and comfort see... Runny the guidance of an inward light.

As joyous brooks to their own melody... If simple joys around the evening fire... Sweet childhood's prattle and a breath-taking scene of the old, old glow inspire.

Once more the heart of heaviness... Then we should ask no meretricious aid... From outward things, for in the soul we have... At beings centre were the smartest... And, like a surfeit of pain, all unaware... Wraithlike would vanish quite this present sorrow... And leave sweet joy to-day, sweet rest to-morrow.

—A. E. Cooper.

The Man Who Would be Kind
By Frank Braden

HERE is a little town in Michigan—Bad Axe—where they still state the happenings of one son in this fashion: "Yes, that took place the year the circus tiger got loose."

It was the coming of the big show to Bad Axe in itself a momentous event, but the escape from its cage of a Royal Bengal tiger—now a son in this fashion: "Yes, that took place the year the circus tiger got loose."

It was the coming of the big show to Bad Axe in itself a momentous event, but the escape from its cage of a Royal Bengal tiger—now a son in this fashion: "Yes, that took place the year the circus tiger got loose."

Fire Prevention Week, October 9th to 15th, 1932.

By Royal Proclamation, the people of Canada are urged to observe the week commencing October 9th as Fire Prevention Week. In the most emphatic manner they are asked to direct their minds and hearts to the prevention of fire.

Records covering the past ten years illustrate in striking fashion the extent of our colossal fire losses. During that period, 407,000 fires in Canada have destroyed property valued at over \$415,000,000. In addition, 3,514 lives were lost, and 1,611,111 persons were injured.

SCHOOL COST PROBLEM UP TO PROVINCES

The chief reason why school costs have risen at such a rapid rate in Canada is that provincial departments of education have been raising educational standards every year without regard to the possible limits of the taxpayers' purse.

In the series of articles on costs of government in Canada that The Financial Post has published, there was a comprehensive summary of rising educational costs and examples of educationalists who knew a theoretical maximum about teaching the youth of the land, but a practical maximum about the taxpayers' purse.

PROMISES

God hath not promised skies always blue,
Flower-strewn pathways all our lives through;
God hath not promised sun without rain,
But God hath promised strength for the day.

Rest from the labor, light for the way,
Grace for the trials, help from above,
Unfading sympathy, undying love.

SONNET

It is enough that in this burdened time,
The soul sees all its purposes aright.
The rest—what does it matter? Soon will the night come when we, then the morning chime.

What does it matter, if but in the way
One hand clasps another, one heart believes as true?
One understands the work we try to do,
And draws through love to reach us what we say.

Between me and the chilly outer air
Which blows in from the world, there stands one
Who draws Love's curtains closely everywhere,
As God did through the banners of the sun.

Warm in my place about me, and above,
Where was the raven, I behold the dove.

—Gilbert Parker.

NOTES AND COMMENTS

MISS Agnes Macphail is reported as advising the farmers not to pay their taxes. Separation of tax paying would mean the closing of schools, stopping all work on roads and the withdrawal of all services now carried on by the municipalities. Difficult though the payment of taxes undoubtedly is, the farmers are not likely to follow Miss Macphail's advice and sacrifice their schools and other valuable services.

G.N.R. EARNINGS

Montreal, September 27th—Gross revenues of \$11,328,017 for the month of August as compared with \$10,720,000 for the same month of 1931 are shown in the monthly statement of revenues and operating expenses issued by the Canadian National Railway today.

The reduction in gross earnings during the month was largely due to a reduction in operating expenses, economies practiced by the management, bringing these expenses down to \$11,118,991 as compared with \$11,118,991 in the corresponding month of last year. Net revenues for August this year were \$609,026 as compared with \$609,026 for the same month of 1931.

COST OF EXAM GRAZE IS \$400,000 A YEAR

Certificates of standing to be granted to students who do not pass the regular Normal entrance and matriculation examinations is the suggestion of the Ontario Education Department by the Urban Trusts' Association.

Their idea is that principals of colleges or vocational schools might give such certificates to pupils completing courses of study, showing that they had a certificate of proficiency in study on various subjects and their general education. It is thought that such a certificate might be issued to students who want to enter schools in the United States where Ontario matriculation certificates are not fully recognized.

COST OF OLD WAR FOREVER GOING ON

In the Finance of Government by Mr. Hon. John W. Halls, M.P., and E. A. Fehouche, there is one unclosed ledger page in the account of war. The great war has cost Canada about 6,000 millions of which 5,000 was borrowed at home and 1,000 from the United States.

All are lost, as absolutely as if blown off by firestorms. The 5,000 millions raised by war loans is now in the pocket of the nation. The nation is poorer by this net amount.

WHERE THE SHOE PINCHES

Toronto printers are now complaining that the printing and book business is going outside the city and they have solicited the aid of the Government to keep the work in the city. Yet these same printers have salmon on the road every week into a shifting business in the small cities and towns of Ontario, talking away printing that is badly needed by the home-town concerns and which should rightfully be done at home.

Modern Wife—Is my hat on straight? Husband—Yes, of course let's Modern Wife—Well, it shouldn't be.

Did you have a good time at the Sunday-school picnic, Johnny? "Betcher life I did. I fell into the sugar beer can and after that nobody wanted to drink any more."
