Dad had left for Northampton an hour or so before with quite a list of the family's requirements.

When Peg, suddenly recalling the knitting party at the Brown's that evening, realized she was short six balls of wool. Quickly she reached for the telephone.

The One Thing You Can Afford

THE great national pastime this weather is squeezing the expenditure column so that it will remain in proportion to the revenue. The first step in this, of course, is making a decision as to what items are absolutely necessary to the well-being of our minds and bodies and consigning the balance to the limbo of "things we will have when times improve."

YOU cannot do without your local newspaper for several reasons, the first of which is that as an intelligent citizen of the community it is necessary that you keep informed about what is taking place in that community: Whether your interests are being cared for in the governing of municipal affairs; what is transpiring at the schools, the churches; if grants are being made from public funds, or cut off, and why; what your community proposes doing about relief measures; where foodstuffs, meat, wearing apparel, wood, coal may be bought to best advantage; where you may sell or trade some used article, or buy such an article to advantage. All the intimate personal news! the deaths, births, and marriages, and the thousand and one other occurrences that go to make up the life of a community.

THAT is the function of the weekly newspaper. Its news columns each week carry the story of the activities of the community and in addition the effective news of the world at large. Its advertising columns bring into your home the best offerings of the stores and shops with prices and description. The classified advertising column is a meeting place for buyers and sellers in every conceivable line.

"THE HERALD" costs you but three cents a week. If you will read it thoroughly, intelligently, you will receive many, many times over a return in value. And The Herald is a good paper for the family to read. There are many things children may learn from its columns, but nothing they should shun. Its columns are clean, carefully edited and contains all the NEWS.

IF your are not already a subscriber to The Herald, take it on trial for six months. Do it to-day-NOWwhile you think of it.

THE HERALD, Georgetown, Ontario.

Enclosed please find 75 cents in payment for The Herald for six months. At the end of that time I will notify you if I wish to discontinue.

To That Friend Far Away

A Most Acceptable Gift

To those who have made their home far from their "ain folk" nothing-is quite as acceptable perhaps as news of the "old home town"—the doings of the boys and girls they used to know. their comings and goings, their joys and sorrows as reflected every week in the columns of the local newspaper.

Your boy or girl, sister, brother or bosom friend will appreciate The Herald more than anything else. It will be a constant reminder of you 52 weeks in the year.
