### NAVY CRIMINALS BEGIN TRIALS

Charging that 30,000 children now "sit" probably become criminals," John R. Quinn of St. Louis, retiring president of the League of Compulsory Education, stated his views at the twenty-ninth anniversary conference of officials, Mr. Quinn added that the subject discussed by the delegates to society in this trend of child being "raised for the police."

### FEDERAL COMMISSION IS URGED FOR GAME

That game and fisheries conservation throughout Canada be divorced from politics, placed under a non-partisan federal commission, and organized to maintain and increase Canada's tourist traffic revenue, is urged by J. A. Griffiths, former provincial warden of Halton and member of the Halton County Game Protective Association directors.

## MY CREED

(A good New Year's resolution)  
To live as gently as I can;  
To be the kinder where a man;  
To take what comes of good or ill  
And cling to faith and honor still;  
To do my best and let that stand,  
The record of my brain and hand,  
And then, should failure come to me,  
To bill and hope for victory.

## THE OLD-STYLE SPELLING BOOK

The Rotary Club of the town of Simcoe "staked something very hot" Norfolk tonight when a picked lot of champions from all parts of the county participated in a spelling match to determine the county champion.

## EARLY EVENING

By PAUL M. VEST  
BIRDS HELPED WIN WAR  
The great part that carrier pigeons have played in wartime continues to be the most inspiring chapter in history. In many cases these feathered messengers actually helped to win wars and thus were partly responsible in altering the destinies of nations.

## A PROPHETIC VISION

Golden Text—Mine eyes have seen thy salvation, which thou hast shewed before the face of all people.  
Lesson Passage: Luke 2: 25-35.  
The thought that came into my mind was this: "What a secret plan is hid in my hand; that my hand is big, because of this plan."  
That God, who dwells in my hand, knows this secret plan of things He will do for the world.  
Using my hand—Kagawa.

## HOW HISTORY IS MADE

Important decisions are made and drastic changes are made into effect, sometimes without being very much apparent, yet a system teetering with its feet on a precipice, such as the Government of China, to do away with the silver monetary standard which has been in existence in that country for centuries. What hardly makes a ripple on the surface today, may in a few years be a major factor in the record as a momentous change of the time, and the immediate result of a nation across the ocean, a side of the world, a mere infant compared with the years which the country counts up, arguing back into the dim distant past. When the United States adopted its silver monetary policy in June 1934, those in the United States who had been in the habit of making their money in silver, were numbered and their indications that the new monetary policy would be based on the amount of gold held by the country, and so on.

## WINTER CRUISES TO TROPIC ISLANDS AND SUBTROPIC SEAS

A cruise from Atlantic ports to the West Indies and the subtropical seas, is being organized by the Canadian National Steamship Co. for the winter of 1935-36. The cruise will be a most interesting and beautiful trip, and will be conducted at a very low cost. Why deep behind the curtain, dear,  
To watch your neighbors setting  
Because perhaps they're peeping too,  
To see the funny things you do,  
And rule on etiquette declare,  
(Though maybe wrong), don't peep or stare.

Uncle and niece stood watching the  
young people who were dancing.  
"I'll bet that you never saw any  
dancing like that back in the nine-  
ties, eh, Doc?"  
"Once-but the place was raised."
