FRIENDS OF MINK
Good-morning, Brother Sunshine,
Good-morning, Sister Song,
I beg your humble pardon
if you've noticed very long,
I thought I heard you saying
I thought you were an
My heart is standing up
I want you walk right in!

Halton County Council
Grants to Parks Increased—Old Age Pensions Handled by Municipal Clerk.

The May meeting of the Halton county council was held in the court house, Milton, on Tuesday, May 12th. Warden George Currie in the chair and all members present. At the morning session the clerk read the minutes and correspondence.

The council adjourned and the afternoon session opened at 2:30 p.m. Mr. A. J. McNabb explained to the council how much the grant was increased. This year the fair boards received a grant of \$25,000 from the county. Mr. A. J. McNabb explained to the council how much the grant was increased. This year the fair boards received a grant of \$25,000 from the county.

How to Improve Home Grounds
Practically every homeowner in the county of an urban order has a desire to have attractive surroundings and nothing will do so much in this way as a little attention to the improvement of trees, shrubs, plants and vines. Within the next few weeks is the best time for planting, but such work should be done on some definite plan in order to get the most pleasing results.

Then there is the question of just what to plant. This is a wide range of other questions in answer to the handbook "Beautiful Home Grounds of Canada" issued by the Horticultural Council of Canada, 114 Victoria Street, Ottawa.

Overworked Boss: "So you want to leave the work? Are you getting impatient?"
Pat: "The wages are all right, but I'm afraid I'm doing a horse out of a job."

PROPYLENE FOR AIRPLANES
Propellers for a number of the airplanes ordered by the British government within the last few months will be made of propylene which is derived from this part of Ontario. The other day a shipment of 50 tons, 40 to 60 feet in length and 12 to 18 inches square left Orangeville consigned to Crofton, England. Propylene is a gas which is made only comparatively few of which are now to be found in the district. Last year a number of rock salt mines were shipped from Orangeville and other Ontario plants to Ontario to be used for this purpose.

Interesting News Items
From Near and Far
Harry will not operate on daylight saving time this year.

The contract for the interior fittings of the new post office building has been awarded to the Office Specialty Co., of Newmarket. The Ontario Telephone school pupils were operated on either for removal of adsorbent of dissolved metals in a clinic conducted by the Ontario Women's Institute.

WEEDS AND PLANTS
FIGHT FOR LIFE
Plant competition is a natural phenomenon in which plants of the same or unrelated species grow in the same soil. It is the struggle for existence of the weaker. This competition is of general occurrence in the plant kingdom both among native species and among the alien species introduced by man. It is the struggle for life, for the plants of the same species are often so crowded that they cannot get enough of the soil and water and sunlight to grow and live. This is the struggle for life.

A NOTED CANADIAN
Jack Miner, the famous Canadian naturalist and friend of the birds, celebrated his 71st birthday the other day. His many friends and acquaintances in Ontario join with thousands in Canada and the United States in extending congratulations to him for his long and successful life. He is one of the few Canadian naturalists who have lived beyond the allotted span of three-score-and-ten.

REV. A. H. FERRY SUGGESTS
UNITED CHURCH SEPARATE SCHOOLS
Dr. F. W. Spanow, of the Ontario church, asked for change of procedure at the meeting of the District Synod of the United Church of Canada, held at Toronto, on Tuesday last. Rev. A. H. Ferry, of Ontario, requested that he be allowed to propose the separation of the church into separate schools for the purpose of opposing in a social studies. Some time was consumed in discussing the matter. Those chosen were—Rev. F. J. Dunlop, Laurier, and Mr. W. Pennington, of the General Conference of the United Church of Canada. Rev. A. H. Ferry, of Ontario, introduced a resolution which was adopted.

DOG AND GARDENS
In a peevish age when there were no banks, men buried in the earth certain of their accumulations that had value in those days. Possibly, that's where dogs developed the idea of burying bones. It is said, however, that unless a dog is very hungry he buries that bone for safekeeping purposes. He is supposed to bury the bone in a hole that he has dug in the earth. It is said, however, that unless a dog is very hungry he buries that bone for safekeeping purposes. He is supposed to bury the bone in a hole that he has dug in the earth.

THE OLD MILL
Time showed the miller's pace—look him away.
And thirty years have spread his grave with green.
Change has wrought havoc here, so little that, once I knew was to be seen.
The time has passed, the stream trickled through the sluice,
Last night the same moon rode the sky; but Spring
brought freshets from the hills to serve no use.
No field and forest here no tribute bring,
Where they were best of grain and piles of lumber
Where hopped crows, and men—all is laid low.
No kin smokers, no wheels turn, all now is slumber.
The miller's lantern burned out long ago;
His powdered clothes, his pipe, his Highland ways,
Have gone the dim road of our yesterday.

LOWE BROTHERS
"High Standard" House Paint costs little more per gallon than "cheap" paint, BUT when you paint with "High Standard," you are assured of the utmost in durability and general service.
There is lots of "cheap" paint sold but seldom twice to the same man. One such purchase teaches an expensive lesson.

A LITTLE MORE PER GALLON
WILL MEAN 2 OR 3 YEARS MORE WEAR

Using LOWE BROTHERS High Standard House Paint is the true measure of economy. It not only wears for many years, but being easily applied, it cuts down labor cost; covering more surface, it means fewer gallons for the job.
Remember—"One gallon of Lowe Brothers Paint will go twice as far, look and wear better than two gallons of cheap paint."

Filling in Time until 7 o'clock

With the supper dishes cleared away, Mr. and Mrs. Elmer Hanks sit down each Wednesday evening to a rollicking game of checkers. Really they are just filling in time until their son John makes his weekly long distance call from a far-away city—a few minutes after 7 when Night Rates are in effect.
That weekly chat with John is the big event in their placid week. He never fails them, and his cheery chatter means more to them than they would care to say.
