

AT NUMBER TWENTY-EIGHT

As such as Miss Kilkame has finished lessons for the day...

We went along a twisting street that wasn't very wide...

Who said, "Well, well—come in, my dear. I'm glad to see you all."

And every little garden had a little wooden gate.

We went inside and saw a lady, very old and small.

Who said, "Well, well—come in, my dear. I'm glad to see you all."

And while we stood to wipe our shoes on the front-door mat...

And she looked at proud old people.

She called Miss Kilkame "my dear child."

And she said, "Well, well—come in, my dear. I'm glad to see you all."

Oh, Auntie, I can't believe that she is anyone's dear child!

Neighbor—has your husband any hobbies?

Woman—No. He has neuritis, sciatica and rheumatism now and then...

Goodness Gracious, Agnes! Customer—This parrot wears in a mild sort of way.

TO PROLONG LIFE OF CUT FLOWERS

in keeping the home beautiful, no information is more appreciative than that which tells how to keep cut flowers fresh and in bloom.

It is the responsibility of the housewife to see that the flowers which are cut for the home are kept in the best possible condition.

The first step in the care of cut flowers is to select the best material available.

The second step is to cut the flowers at the proper angle.

The third step is to place the flowers in the proper water.

The fourth step is to change the water frequently.

The fifth step is to keep the flowers in a cool place.

The sixth step is to trim the flowers regularly.

The seventh step is to use the proper preservative.

Christianity Spread by Persecution

International Mission Monday Night Lesson, July 20th, 1936

THESE THINGS SHALL COME UPON THEM THAT SHALL REJECT THE GOSPEL OF THE KINGDOM OF HEAVEN...

And he said unto them, I have sent you forth as laborers in the harvest, for the harvest is plenteous, but the laborers are few.

And he said unto them, I have sent you forth as laborers in the harvest, for the harvest is plenteous, but the laborers are few.

And he said unto them, I have sent you forth as laborers in the harvest, for the harvest is plenteous, but the laborers are few.

And he said unto them, I have sent you forth as laborers in the harvest, for the harvest is plenteous, but the laborers are few.

And he said unto them, I have sent you forth as laborers in the harvest, for the harvest is plenteous, but the laborers are few.

And he said unto them, I have sent you forth as laborers in the harvest, for the harvest is plenteous, but the laborers are few.

RIKICHMOND

By Elizabeth M. Thomas

"Richmond" was a handsome horse back in the days when my father...

He was a fine specimen of a horse, and he was very kind to me.

ONLY A DOG

You may talk of friendship, you've had and known.

Of your pals and your lovers, too, of men and women who've often shown.

What friendship does love will do, but we show the truer track of life.

When a dog will give you his life, my friend, he'll give you more than you can count.

And he'll give you more than you can count.

And he'll give you more than you can count.

And he'll give you more than you can count.

And he'll give you more than you can count.

And he'll give you more than you can count.

For nearby subjects when the light is not very bright as in the picture above, use a wide lens opening.

But for distant scenes, like this to the left, use a small lens opening.

BECAUSE modern cameras and modern film make it possible for us to achieve happy results with very little knowledge of how our cameras function.

which have a meaning in terms of the ratio between the diameter of the lens opening and the distance from the lens to the film.

TRUCK DRIVERS' MANNERS OFFER EXAMPLE FOR ALL To say that a motorist has the manners of a truck driver is no longer an expression of contempt.

He declared that the Ontario Minister of Highway Traffic, Mr. McQueen, had put his finger on the crux of the whole problem of highway safety.

Only motorists who had been stranded on some lonely stretch of highway, and had been passed by dozens of unconcerned "fellow motorists, finally to be rescued by an overland truck driver, realized the spirit of helpfulness that transport drivers generally manifested on the road.

THESE SHOULD SAVE THEM One of our town merchants came through with a suggestion recently which could help to improve conditions in the shopping rush on Saturday evenings.

Canada has been the only market for tomatoes from the Hawaiian Islands, West Indies, since the closing of the U. S. market through the imposition of a three cents per pound duty.

Our own experience is that it is no use to tell anybody our own case unless because they will not be satisfied until they get their own.

TESTED RECIPES Each fruit as it appears on the market has some peculiar appeal, and each fruit has its own special appeal.
