le thousands of communities with is the biggest single source of income for formers. Yeads operates in these communities largely on milk money. The total wilk maney going to dairy formers in Canada annually is movely \$200,000,000. Hilly seads many cuttate. Salling will in bottles pravides a mortel for only to of the milk produced des cream, butter, chases, dry and evaporated milk and many by-products must be manufactured and sold doily so that wilk manny may flow back to the dairy communities week after week without interruption. Since Gail Bordon's invention of condensing milk in a vacuum 10 years aga, Bordon has pioneered in research work that has meant new uses for milk and new markets for milk producers. Research and efficient merchandising of milk in all its forme are Kret-hand reasons why Canada is becoming one of the world's preadest producers (or well as commers) of deiry products.

Christ prayed that such love as he had for others might be in his disciples. Christ did not hold anything back. We marvel at his love for his fellow-men, yet he calls us to show this same love towards our contemporaries. He promised to be with his followers until the end of the age, "I in them." The Christian religion has the highest possible doctrine of man. It teaches that the Spirit of God may dwell in our spirits, and that our bodies may temples for the presence of the living Christ.
