Now-Thanks to Kruschen -Not a Trace of Pain

ery by the pains of backache. Then her father, who had proved the value of Kruschen himself, advised her to try it. Bhe did, and here t her grateful letter -with pains in the back. At times I had to stay in bed for days. I could not walk, or even stand. -My father was using Kruschen Halls for the same thing. He. too. used suffer bedly, and Kruschen relieved himpy He advised me to try it. I did so, and did not get a pain for three years. I then neglected my daily dose for about alx months, and two mostthe ago the pain returned. I tried another remedy-it failed, to I again started Kruschen. Now I have not a trace of pain, thanks to Kruschen. Pains in the back are usually due to impurities in the blood - waste products which the internal s organis are failing to expel from the system. The numerous salts in Kruschen assist in atimulating these organs to healthy, normal activity, and so help them to keep the system free from harmful waxte matter.

#### ARITHMETIC TO GET LESS

Mithmetic will not be stressed as much in the public schools starting with the fall term, while more that-phasis will be placed on the hearth of school children under a revised curriculum, which has been adopted by the Department on the recommendation of a committee especially appointed to study Ontario public schools, Inspector J. H. Smith, of Bouth Perth stated last week on his return from the Ontario Educational Association convention in Toronto.
Public school grades will no longer
be known as Junior First and Senior First and so on, but will be known as Grade 1, Grade 2, Grade 3, and so on. Thus the senior fourth grade or entrance class, will be known as Grade & A manual, outlining the changes for each grade, will be in the hands of every teacher before next

The character of Noah and the story of the flood have recently been popularized in the Negro play. "Green Pastures," which has now been filmed. Why has this incident had such dramatic appeal? It is of course, a life and death flory giving a vivid picture of primitive conditions but the real reason lies deep-er. It is in the social tessons inherent in the story. The failure to be warned in time, the dependence of many animals upon man, the thought of the human race having the opportunity to make a fresh start no ionger handicapped by injurious herediy, man's recourcefulness in danger yet final dependence upon the will of Notice is hereby given that all resi- God, are all woven together in the
