Your Eyes

Headaches, tired, blurry vision are symptoms of eye strain. You are liable to a thorough eye examination - 15 years ago. Our eyes have been on the same old glasses for years. It is time to get new ones. O. T. WALKER, R.O. OPTOMETRIST, 1155 BROADWAY, GEORGETOWN, ONTARIO.

REAL ROOFING VALUES

TITE-LAP ROOFING

The permanent and low cost of this roofing is one of the most important factors in the selection of a roofing material. Tite-Lap Roofing gives a long life and is almost fireproof. It is also resistant to weathering, and is easy to install. Ask your lumber dealer for details about Tite-Lap Roofing.

RIB-ROLL ROOFING

This durable roofing has extra rigidity that makes it particularly well suited for a light frame work. The secret of its strength is the ribs which are spaced at regular intervals. This makes it easy to install and it is almost fireproof. Ask your lumber dealer for details about Rib-Roll Roofing.

POOLING THE PUBLIC

Most of our readers have at some time or another seen advertisements in which some well-known stars recommend this, that or the other product. No doubt, their recommendation has a lot to do with the sale of that particular product, as the public generally wants to know what the stars think. Reading some of the statements attributed to well-known people, we have frequently wondered how much of it is true, and how much of it is nothing more than a cleverly worded advertisement. A recent issue of the *Georgetown Herald*, carried an advertisement for a certain brand of cigarettes. The advertiser, a certain Mr. Smith, said that he had never smoked a cigarette in his life. This statement was so absurd that it was almost laughable. It is a pity that so many people are so easily misled by such advertisements.

WE BUILT FOR SELF

We built for self - on plains that were unpopulated. By petty hills, we tried to hold the sun. With a more bright, as they April morning. We did not fight, we thought the battle done. We had been told often that all highways went into heaven - but we forgot to climb. Small wonder that we watched our vision fading. Across a world that might have been sublime. When men forget to dream, three comes Golgotha; A wounded hill shall purge their lusts and their grief must precede the resurrection day. Oh, when it comes - when battle drums are dying - Alone, alone, alone, I tell the spring. As we accept the far trails may we never forget, dear God, we've had our chastening!

ICE CREAM - A HEALTH FOOD

No longer should ice cream be regarded as a special treat for holidays and hot days, but rather as a part of the regular diet, as it is as healthy as a dessert at all seasons of the year. Like all dairy products ice cream is nutritious, food, easily digested, palatable and containing all the elements essential to body building and good health: fat, protein, carbohydrates and vitamins.

ICE CREAM - A HEALTH FOOD

1 cup milk
1 cup sugar
Pinch of salt
1 egg
1 pint cream (16-18 per cent fat)
1 tablespoon vanilla
Mix sugar, flour and salt with remaining 1/2 cup milk and add to hot milk. Cook over hot water about 10 minutes. Pour over beaten egg. Return to heat and cook 3 minutes. Add vanilla and cream. Strain and cool. Add cream. Freeze. This makes one quart of ice cream.

Former Athlete Almost a Cripple

Now "Right as Rain" After Talking Kruschen

"Read this letter from an athlete, telling how he obtained relief from rheumatoid arthritis."

"My knees were so stiff with a kind of rheumatoid trouble that I could only rise from a chair with pain and difficulty. This had been growing worse and worse for about two years. I was all the more galling because in my young days I had played for two counties at football and held my college record for the 100 and 200 yards. Naturally I tried all kinds of embrocation, but with absolutely no perceptible effect. Then I decided to try Kruschen (Salt) and to cut a long story short, I am now as right as rain."

SPEED!

SPREADS what you need in June chicks. Speedy growth, speedy maturity - size and sex to meet right along from the start, size and sex to speed into full development and egg production while prices are still high, next Fall. Yes, speed's the thing. And BIRCH Chicks have it. Strong, vigorous, HIG growth, productive capacity.

60% Production at 5 Months
Walter J. Kellway bought 250 Birch Chicks last year. He writes that he is "thankful" they did. "At 4 months and 10 days, my pullets were laying 50% at 5 months, 40% at 6 months, 50%." He had lost just ONE. And at that age, he writes me, "I would list just as I caught them. The lightest weighed 1 lb. 6 oz.; the heaviest 1 lb. 8 oz. I have found your chicks healthy, strong, and fast growing. Healthy, strong, fast growing. Early consistent layers. That's what Birch Chicks have proved with others, and will prove with you, if you give them the chance. And now, at prices which I don't expect to be able to repeat the next 10 years. In fact, if eggs advance I cannot guarantee they will hold even to the end of the present season. Better book your order right now."

(The Promoted Company)

Authorized Capital 2,000,000 shares (par value \$1.00)
Issued (including underwriting) 1,750,000
In Treasury 1,750,000

MANAGEMENT - In this respect NORWOOD KIRKLAND is notably strong. The directors composed principally of Kitchener business men, who have themselves provided some \$50,000 for the acquisition and development of the company's property. This should assure investors and aggressive direction by a board which backs its opinions with its own money.

PROFIT - Most frequently toward the investors that have put their money into providing enterprises during the early developmental period. RIGHT NOW is the opportune time to buy NORWOOD KIRKLAND SHARES.

JOSEPH'S READINESS FOR SERVICE

International Business School
London, June 2nd, 1937

GOLDEN TEXT: "Be not like a man who stands before kings." Proverbs 22:28

LESSON PASSAGE: Genesis 41:33-35

Dismiss me not Thy service, Lord. But train me for Thy will; For even I, in bonds so broad, Can never be fully free. I will be glad to serve Thee, Lord. Except to serve Thee still.

JOSEPH'S READINESS FOR SERVICE

It is usually difficult to find the right man for a responsible position. The president of an oil company said that it required six weeks to investigate the qualifications for a salesman at a service station. When a president of a university was asked how he could make so many speeches at banquets he replied that speeches were not his problem; speaking appointments to the staff was his chief problem. One efficiency man says that he has never had a man who was not his problem; making appointments to the staff was his chief problem. Food supply has always been a human problem. The North American continent has a long winter rather than a long summer, and as a result thousands of these died from starvation, or sickness brought on by lack of food. The Bible says, "Backward, turn backward, O Fear, in your flight!"

THIS is a relative to camera-obscura parents to reveal those of a few facts relative to the essential value of photography and the passage of time. Self-evident though they may be, these facts are too often forgotten.

The first is that in the case of parents the most treasured of all photographs are those of their children. When the children grow up, photographs are records of how they looked as children become with the years more and more precious. Any doubt about that?
