DEPARTMENT OF HIGHWAYS

AN OPEN LETTER

to the 13,060 motorists who killed or injured 8,733 men, women and children on the highways of Ontario last year

If you are one of those who know the rules of sale driving and obey them, thank you; this message is not for you. If you are a driver who has helped to swell the total of deaths and

injuries to the disgraceful figure shown above, take full note! Because of your selfishness, your wilful neglect or thoughtlessness, or perhaps because you think you know better than anyone else how to drive a car and insist upon making your own rules, the lives of 502 citizens of Ontario were snuffed out in twelve months time. During the same period 8,231 were injured, scarred; some of these will never walk again. Among your victims were 853 children playing in the street?

Do you think this kind of driving is worth while? Do you think you are entitled to a license to drive? If one of these victims had been your child, your brother, sister, father, mother, or even a friend, would you accept the excuse that the offender's brakes failed, that the pavement was slippery, that he failed to give a proper signal, or just took some kind of a chance or another? Could you find any excuse for him?

Driving a car brings more pleasure and convenience to more people than perhaps any other modern utility. The highways department knows this. No Province has been more thoughtful and generous in seeking to add to this pleasure and convenience. But you, the unsafe driver, are nullifying the effect of all that has been done. You are making every street and highway unsafe for both pedestrians and other drivers. You are a menace to the aged, the infirm and to

little children. To educate you in the rules, to appeal to your sense of fair play, to show you how your recklessness imperils your own life and property. as well as that of others, this department has gone to great lengths. The press, the schools, the radio-all have been utilized in an effort to curb unsafe driving-and the campaign is being continued this year.

What are you going to do about it? Remember you are responsible only for your own acts. If the other fellow takes chances, let him. But if you, now that the heavy driving season is at hand, will do some common sense thinking, if you will let your sense of fair play govern your driving this season, if you never forget that by driving safely. you can help to protect the life and property of every citizen of Ontario, then this department will have a different, happier story to
