ESQUEJING FALL FAIR

For eighty-seven years Esquejing Agricultural Society has held its annual Fall Fair and while it has not always been a financial success the Directors have carried on because they believed it to be a benefit to the community. The exhibits and special attractions have been up to the standard of all fairs and the day has been looked forward to by citizens of town and surrounding country as the event of the year. While competition has always been keen, the social side of the annual fall fair is a big factor. Old friends meet and friends are made in social intercourse while viewing and comparing the products exhibited by the various towns. The Esquejing Agricultural Society has taken in refusing the annual grant of \$1000 from the city, personally it looks to us like a bad business to turn down an organization whose members and patron contribute considerable to the support of our business places in town. A grant should be made to Esquejing Agricultural Society, and we hope many others, since they hope the members of Council will re-consider their action and grant a grant that the fair may be continued.

"THE OATHWYR KNIGHT"

By Writlock

Oathwyr, July 26—A thrilling game is being played by wheat exporters in Canada and wheat buyers in Europe. We know at the moment who is going to win. Canadian exporters think that, because of the higher price for wheat in Liverpool, they are not convinced. Recently the price of wheat soared at Chicago and Winnipeg and it was way above Liverpool prices, with the result that Canadian exports fell and European buyers tried to purchase Australian wheat on selling at ten cents a bushel below Winnipeg, and the Argentine wheat was selling at a price which would capture the bulk of the export business.
