"Osford Moremante" The Oxford movement in the Church England originated at Oxford salrevelty to this to an endeavor to tiring the Anglican church back to the principles of the early Christianlly of the Pathers" Its foundational principles were laid down in a series of IN pamphists known as "Tracts for the Times" and to which Newman. Puscy. Fouds and others contributed. One of them, written by Newman, daclared the articles of the church might be so interpreted as to be consistent with the doctrines of the Council of Trent. This was condemned by the Anglican bishops in 1841 and Newman, with other leading tractarians, thereupon Joined the Cutholic church.

Electricity From Jordan There is no river so universally familiar as the Jordan. It is a petty river, harris 100 miles to leasth, but t has always been of the deepest significance in the history of both Juda-

iam and Christianity. Scientiste say that the course of the River Jordan times during the ages. Today man has set bimself to change the river bed once again and to harness the waters of the Jordan for his utilitarian purtume. The waters of the sacred river are now used to provide electricity for the people of Palestine and Transfertania .- Pulestine Letter in the Manchester Quardian.

Amateur Gold Panalag The geological survey says that there is little opportunity at present for an inexperienced person to make s living by panning gold. Placer operutions are now conducted on a larger scale and require a considerable amount of capital. Although it might be possible for an experienced prospector to discover paying piscer ground, provided he has ample capital to austain him for considerable time. It is extremely unlikely that anyone without experience could hope for succoss, tiold piscers of greater or less extent have been developed in nearly all regions in which veins corrying

free gold have been infined.

Jawelry in History Jewelry has been worn for at least (0),000 years, according to discoverte of the archeologists. The paleolithic man, atthough he knew nothing of metals, or even of tilling the soit, actually mined decorative stones and prosented them to the female of the specles. The Jewelry of a mere 74,000 years ago included fourteen varieties of semi-precious and decorative stones, some of which have persisted in the fashions to our own day,

Contentment Measure your effort, not your in ome. Contentment is not so much the result of getting as of giving. True happiness is not in having, but in do ing. This is the reason why the pathway of life to always contest for those who work furdest and serve bestson, who died fairly recently, was a clorgymun whose passion was music.

#### Special Protection for

Flock of Rare Good Only one known flock of greater try and these birds are being given the most careful protection both by officials of the United States and Canada through the action of the migretory tird treaty. This loss flock spende its winters in North Carolina and Virginia, where twel game were deas give it protection

With the rouley of with weather in April the birds feel the urge to go saith and usually fly directly northward until they reach the Mt. Lawriors river. Here they term morthsent and follow the riger to a group of small telands, where every year and feed. While taking their "treath they are under the care of the Qualer securited patter, who send t

patrol to the talanda. Hosters to the gast bare taken an unfair edventers of the tirds through resert to remoutage. The streets at this traine is bought full of Souther tre and the hunters, dressed to white sad ridiaz to white metortosta approurb close to the fictie before the Unds realise that an enemy to at band. Haracia of the rarity of the greater saow goras, partiralar salas ere beles taken to perpetuate the fork and perkapa brias about an increase which will later permit hunting of the blade Other birds found on the islands with the greater man green are the more of a sideshow than it would a Casada goosa, brest, black duck, pinregular rourt trial."-Concord Moniter.

Pleturasque Old Stile

talle, maliante and teals.

Lives Only in Memory daye? A traveling man who motore over most of the highways and byways of New England says he dose not know where there is a single one Generally they were built into a fenceline to debar vagrant cattle and per mit the passage of humans. No two esactly alike, they were picture-que composents of close walls and rail feares. Generally there was a step stile base a foot or two above the

To be sure, there are pleaty of commercialised turnstiles at the entrances of fair grounds and amusament parks to facilitate the collection of tickets and keep out gate-creahers. These however, have but slight relationship to the rustic stiles of word, immortalised to song and story as trysting

Law by Sail Ereilia The plant food removed from the fields and pastures of America every rear by erosion is at least twenty-one times more than that removed by the crops harvested, says the United

States Department of Agriculture, The plant food taken by crops can be restored to the form of fertiling but that taken by escalen cannot be restored, because this rulnous process takes the whole body of the soil, plant food and all. Land impoveriahed strictly by plant food depistion, as sometimes results from continuous growing of the clean-tilled crops, is not worn out land; the only worn out land is that which has been so badly washed by erosion that it would be entirely futile to undertake its recis-

Liviagetezo Segrath

There is an exhibition at the Livingstone memorial, Blantyre, a very dilapidated copy of a Sechuana Bible that has on it two of Doctor Livingstone's signatures. One of these is dated "Tete, 1858," that is, just before he left on his first furlough. The back has been badly damaged by white ants. The chief interest, however, in not so much the book as a little alin of paper that it contains, on which, well printed in blue isk, is a picture of Hamilton palace (now demolished). It seems clear that it must have been long past as a book-marker.

Munkery's lders When Munkacay, great Hungarian nainter, was a lad, he was dissette fled with representations of the Christ which he saw. They seemed "effeminate personifications of too much humility." He wished to paint "mich a man as could be severe to the wrongdoer, even while he was forgiving and tender to the repentant." To counteract the effect of the paintings of which Munkacey disapproved. be himself painted pictures which have Christ's life for thema.

Total in Medicines

The Chinese have used the tood for medicinal purposes for conturies, but they use him empirically without exact knowledge. Drug stores in China sell a hard toad cake which, when ground, is used externally as a local speathetic. The measure is not without sansa, as the substance does deaden the sensory perves. The formnia for the toad cake is a secret which all the king's horses and all the king's man could not drag from its makers.

Wesley Family The Wesleys afforded a pretty agample of two qualities linked through several generations-music and religous fervor. Two of the Wesley grandfathers were expelled from their bone Sces us nonfurors. Churles and the great John showed both qualities in a high degree. Then comes Sebastian a great composer of church music. His

Point Long in Dispute Salved by Old Trees

Purther proof that North America erew to beging erap erew alah bas parts of the same continent has been ound in northern Alberta, Canada liematus of trees said to be from afters to twenty million years old, yet perfectly preserved were found stirky ter sand sear Port McMarray Coarted branches and trunks of trees that could be whittled with a jack mile, and even the laves and the nearts that fed upon the leaves, were in a good state of preservation, thanks to the sirtight embrace of the tar sand. Not only are these ancient trees far older than any previously discovbles one redt tod salaten con there to be the only known deposit of Juransic period regetation in its original state. The remains were discovered by the eaglores of the Canadian fed eral department of mines, who is an

authority on bitumen deposits. But Light for Working The American Hiandard Code of I fustrial Lighting recommends as illamination of from 10 to 15 foot candles on the work plane for close work in

offices. To sveld eyestrain the illomination should not be less than 6 foot-randles, but higher illumination increases the rapidity and accuracy of office work. Indirect lighting not necessarily the best form of lighting for an office. Two things are cosential for good lighting-vis., softcient intensity and absence of glare. Under proper conditions semi-indirect lighting, or even direct lighting, may be entirfactory. Indirect lighting to leaving the twine in the hall. When more costly to tastall and maintain we came back there was a pile of han semi indirect or direct lighting. Valls should not be white or dark color. A light buff is a good color for walls Collings should be white Walls and ceilings should have matt sur-

How Caribaldi Escaped The story of Garibaldi's parrow sacape from capture during his stay at the little capanna in the Ravenna marshes, may interest some of your readers. I have not seen it in print. It was told me some years ago by an back to the skadows grianing its parold woman to whom I was introduced | ple sria, at Ravenna. White Garibaldi was to hiding news came that soldiers were on their way to search every corner of the march. What was to be done? dug for rubbish not far from the cot- so much about my wearing my skirts tage. Houghs were laid over it, and shorter, not having 'em trail so, and children were instructed to play a sort | the other night I saw him looking at of "Here we go round the mulberry the fashion page of a magazine, and I bush," jumping over the hole, singing feel in my bones he's going to give me and dancing. The ruse succeeded .-

London Times. Tonnyous Prophecy Amies

Of Alfred Tennyson, the story to told that when a boy his grandfather asked him to write an elegy on his grandmother, who had recently died, and he nut a small sum of money into the future poet's hand on the completion of the "Job," saying: "There is the first money you have ever carned by your poetry, and, take my word for it. it will be the last!" A singularly false prophecy, for probably no poet who ever lived made more money by his postry than Alfred Tennyson.

Spidere Not Insects Spiders are not classified as insects because their structure is entirely different. Spiders have eight legs whereas insects have only six. Furthernore, in the class Arachnida, which includes in addition to the spider, the scornions and mites, the head and thorax are grown together but in the fescupeda, which includes all the inects, the head, thorax and alslomen re distinct. There are other differences but those mentioned are the

Why?

Two friends were having an indignation meeting of their own. had suffered domestic strife and now hey were comparing notes. "Aren't women the limit?" growled he first. "We husbands don't know anything at all and our wives know eversthing."

"Well," wild his companion in ery, reluctantly, "there's one thing my wife admits she doesn't know." "What on earth is that?" "Why she married ma."

FOR CANADIANS

An unusual shipment brought . 6 Canada by Canadian National Bleamships was made up of thousands of swizzle sticks from Tvinidad, Hritish West Indies. Used throughout Cari-Department of the Canadian National Railways. He, however, stated that he found fewer "modern" buildings than was puzzled by his inability to get the natives to sing the hymn, "Lord, dismiss us with Thy blessing." He unders the name manner as an egg batter. To is hoped by West Indian interest that the ewissle stick will become as translater had rendered it: "Lord, bad-as telling a fool story.

West Indies Used throughout Carime he was a liver and kidney special-blean countries for making "rum swinkles," they are made from orange tree twips, one end being forticed. Rubbed between the hands, they sot in the same manner as an egg batter. You may make a hig mistake if you that the ewissle stick will become as trunslater had rendered it: "Lord, bad-as telling a fool story.

**`&&&&&&&&&&&&&** 

By CHRISTINE HAVES.

Mrs. Kilceles, ambled up the best door ariedier's path, want panting into the green socker, and appropristed a pales had fan from the table at her elbow. Most people to Landered were wrking relief from the August keet on their own visa-covered porchas or in the sectuaton of their coolent rouge with the blinds closed. Not Mrd. Kilculas. No weather so estreme that the effort involved to reaching a place where it much to had No see too corrbian or drift too does.

"My! That's a profity welst you're seating!" who deriated with her first fully recovered treath. "John rave it to use for my birth

day." united the next door selether. "Land wheel I wish Lother was more like him. I've toon married to Lather 50 years, and every can of We have given the committee for the birthday that I had about so much and wer albeited bis tail as we has for an ereage sweater like Ladia Bas-

"The first year it was a walte lave kindoso to sat broakfast in Lather liked kearty breakfasts thee just as well as he does new, and when I thought of the figure I'd not frying chops to a white tare bimone-but Lather's to sessitive I have to protest to like 'em, and he's so absent minded to sever thinks of 'em again.

"Yes, of rours I bint about what I'd like, but land! It's no use. The year I Mated the hardest for a pield will wrist be brought home a plaid paressi that I wouldn't be seen on the street with.

"What say? Ob. I'd orchange them to a minute, but Lather's quer that way. He just won't tell where he got them. You'd almost think he stale 'and

he hates to tell so bad. "One year he brought home a big purple chine dog. It wasa't so easy to get rid of that because he liked it himself and picked out a place for it to set, and spoke of it often. Yes, I know lets o' folks have 'em, but you never me one like this one-ugly, my stare! I used to have nightmare about the thing. And I couldn't think of any mannable counding way of its getting broken, till one day Mis' Harkett came to cell with the twins-regular little Impa, they were. And right away che

thought of a scheme. "The dor was in the hall, so we set away everything else that was breakable, lorked the doors that led tate the other rooms, left one of the big smooth stones I use for doorstess within reach, and went out into the garden purple chips where the china dog had been before, and most of the glass was out of the window. We had made a miscalculation and stayed too long. But I put up with the broken window

chearfully, and basides it bore up my story when Lether reme ta. "He was most as broken up as the dos and the window, so my conscione troubled me guile a let, and I cooked his favorite dishes for a long time. I didn't go guite scot-free either, for the peaky purple creature had a shoot, and I need often to see it sitting

"Thanks; there's nothing like or anguede in bot weather. . . "And this year-my birthday's s week from today-I know just as well eas of those disgrareful kneshigh, waist-low evening dresses, and like as not he'll remember to notice whether I wear it, the same as he did the pasple dog. If I had it filled to and lengthened it would hart his feelings and I'm

that upset about IL" Two days later the next-deer neighber returned the call. "I'm so mad!" enapped Mrs. Ellcalne in greeting. "Luther never give

me a thing!"

How Faces Impress Sidney Smith used to say of a cortain quarrelsome man, "His very face is a breach of the peace." Until you happen to light upon a face of this character, one often fulls

to realize what a very noticeable thing a face may be, observes Paul Haydes in the New York Commercial. Personally, we never get ever the shork of the lineup before us to a subway car on those rare occasions when we traval in that latest invention of our boasted civilisation a few haure after midnight. On the other hand, we maintain that a leak into the face, either asissp or awake, of a certain godchild of ours is as thorough a joy as an Oscar Wilde poem er a half-hour at a symphony concert. Look to your face-not so much

what it is but what you can do with A Dangarous Doctor. In a certain New England village there lives a doctor noted for his reckless automobile driving. One day when he was summoned to the talephone a women's voice inquired whether the doctor intended to drive

that afternoon. "I hardly think so," replied the physician. "But why do you mak?" "Well," resumed the voice, "I want to send my little daughter downtern on an errand if you are not"

A bank is a place where they lend you an umbrelle in fair weather, and eak for it back the moment it begins

Sallie-Why did you break your en-gagement to Randalph? Edithe-He deceived me. He told
