They had tried to solve the problem "Ottawa Spotlight" By Wilfrid Egginton

Ottawa, Nov. 28th-The poor conumer gets it in the neck both coming and going during these fluctuations of foreign exchange. When the listtish pound was down below four dollars, most of the advantage of buying strittely goods was nullified by the currency dump duty against British goods. Now the pound has gone up to 530 or so, making it even more expensive. Meantime the falling American dollar brought some relief to the importer by giving him a chance to buy un American dollar for 66 cents. instead of \$1.20, as it was a year or so ago, but just then the customs decourse, foots the bill. Those who can extract sunshine out of the most gloomy circumstances will probably ly that in any event the Canadian f deral treasury nets the extra duty. That is true, except for what took into & the porkers of domestic manufacturers, many of which are corned in other countries.

Eren U.S. Didn't Do It I suppose the reason the customs department applied that currency dump on U.S. goods was to give the littlah experter a break against his U.B. competitor. Under the Ottava agreements Canada promises not to liger the preference given to Empire souds. Hut fust the same it is a drasic pesture against the U.S. Even & conection with dispensing relict and in American currency the United a flates priver applied a duty on our goods. Now, with a depreciation of five cents or les, Canada has taken the Council he said have luth power adverse, action against the United tiates. What's the hope of a favoroble trude agricment between the two
countries so long as we maintain that teren \$6000 and \$7000 under the control of Council. The School Boards kind of attitude? DU M. B. Mean

If employment could be given to a few hundred thousand propie, directly or indirectly A would be the best election propaganda the Concarvative party could hope to Let out. Of course there were a few airings tied to the promise. Three public works will be begun if, as and when the time seems to be time. How will these public works be paid for? Aha, that's an interesting thems. The auguestion is that they be financed by printing crisp crackly Dominion notes. Now if that isn't inflation. I ask now, what to? Not Entirely New

looking after the needy in the town. He commended specially the work of Chairman Maclaren, Mrs. D. Living-That, mind you, is not the first ing to the financial statement he said time such a suggestion has been it would not have been possible to solumnly suggested. Late last session there was a scheme to build an office tion of every apending body in town, school boards, etc. The Council were building here at Ottaws-the Willingdon, or the licasborough-at a cost of endeavoring to pay off Habilities and the millions, the money to be printed. and gradually colled in and destroyed But the Conservative members would-One are fit to elect me, I shall encouldn't possibly go home and face their constituents if Ottaws was to be favored with a five million dollar building scheme while Antigonish and received more criticism than secondary New Westminster got none-or words to that effect. Bo the scheme had to be reluctantly shandoned.

Well, evidently next apring the Ottaxa building acheme will be revived. but so will lots of others. All the deserving constituencies-and what con-Miturney is not? will get a post office, a wharf, or a customs post, pre-Is it inflation? Well, it's the issuing of new paper bills without any new easets benind them. But it's perfectly legal and proper and it has the bicasing of the financial pundits. We

used to think that our notes had to be backed by 40 per cent. gold. but the modern notion is that 25% quite enough. We have enough gold in the vaults at Ottawn to justify a further printing of 100 millions of notes. That's the picture. Personally I have never been able to see a great difference between issuing promises to pay in the form of bonds. which bear interest, and promises to pay in the form of notes, which don't

pay interest, except that there is a natural check on the former and none on the latter. It all depends on how they handle things.

BOY SCOUT TOY SHOP FOR 1933

The lat Georgetown Troop, under the leadership of R. Firestine, ABM. will conduct its Christmas activities from the Toy Shop located on Mill Bt. After four o'clock and in the evenings, the scouts will canvas the town for used or broken toys which will be mended and distribtued to the needy children of Georgetown on Christmas Eve. Last year the Troop was able to assist over twenty deserving families and the co-operation which the officers received, sasures them that the number this Christmas will be even greater. Those having notify one of the Scouts or leave their names at Saunder's Groceteris, phone 337, and the gifts will be gladly call-

I know that, as in previous years, the citizens of the town will join us in making this occasion a big success and in giving joy and happiness to so many homes. Also, through this work, our Knights of the Bare Knees are learning the great lesson of charity and brotherly-love; therefore your assistance means not only the certain success of our endeavors but also the moulding of young character into future men of whom the world may be justly proud—Com be justly proud.-Com,
