Annual Meeting of Knox Church, Georgetown

A good company of members and adherents of Knox congregation met Monday evening for their annual business meeting. All the organized branches of the Church's work showed splendid work done. And, what was very gratifying, the financial alike had the balances on the "blue line." Collections were remarkable. revealing that the congregation was well-set in the good work of the Master's Kingdom. Harmony was a keyword in all the speeches of the evening. Discord is tuboo for all. One gentleman remarked that "se are altting on the top of the world." which is a good alogan for the people during the year. Buccess characteris-

FACTS ABOUT HYDRO-No. 1 of a series of official announcements by the Onterio Municipal Electric Association (O.M.E.A.), representing the Municipalities who own the Hydro-Electric System of Outario.

Who Owns Hydro?

The great public service enterprise known as the Hydro-Electric System, or simply as "Hydro", while operated and administered by the Hydro-Electric Power Commission of Ontario acting in the capacity of trustee, with the Government of Ontario acting as banker, is the property of the people of the associated

Hydro municipalities. Hydro-Electric power is distributed, through the agency of the Hydro municipalities, to the citizens who use this low cost electric service.

The Ontario Municipal Electric Association (O.M.E.A.) is an organization constituted to represent its member municipalities—the owners of Hydro—and to make representations to the Hydro-Electric Power Commission.

At a meeting of the Executive Committee of the O.M.E.A., held in the City of Toronto on October 31, 1933, a Publicity Committee was appointed "to collect and disseminate information in respect to Hydro facts". At a subsequent meeting, held on November 30, 1933, the Executive Committee individually endorsed and unanimously passed the following

Resolution regarding Publicity.

WHEREAS, from time to time, statements have been made and published with respect to the Hydro System of Ontario that are not in accordance with the facts, and which, if allowed to go unanswered, tend to create doubts in the minds of the public, and more particularly that section of the public which is not sufficiently interested, or will not take the time, to look into matters carefully

enough to secure the information for themselves; AND WHEREAS the Municipalities of Ontario are the owners of the Hydro System, in which they have an investment of some three bundred millions of dollars; and anything which would create distrust in the minds of the people as to the proper and efficient conduct of this great Public Utility would tend to impair the value of the investment of the

THEREFORE BE .IT RESOLVED: - THAT The Executive Committee of the Ontario Municipal Electric Association endorses the report of the Publicity Committee;

THAT we believe, with them, that the time is now opportune to carry out the repeated requests and suggestions which have been made from time to time by our Association;

THAT a campaign of publicity be carried on to that the people of Ontario, who have been responsible for the outstanding success of this great Public Utility during its twenty-five years of existence, shall be given from time to time all necessary information as to the administration and operation of the Hydro System and its branches in all parts of Ontario

Municipalities in the Hydro System: In pursuance of this Resolution, the Publicity Committee of the O.M.E.A. will publish informative statements which will set forth, clearly and simply, what Hydro ownership has done for the people of this Province. The facts about Hydro speak for themselves.
