Have you ever thought how insecure are the hopes and plans of the poor, who, dependent upon their daily earnings, and life's outlook so greatly changed when sickness comes? They bear a double cross, for in addition to physical suffering, poverty stares them in the face.

There is one disease most dreaded by this class, it is consumption, which, fostered by their mode of life, preys upon them. Nourishing food, fresh sir, rest, the only known cure, is beyond their means. What then is to be done? There is no alternative. They must be helped.

The Toronto and Muskoka Hospitals for Consumptives with their new buildings, can give better agrice now than ever before, their only handicap being lack of sumptions who can pay anything towards their keep. There is NOT ONE for whom the whole cost of muintenance is received. For the difference, amounting to many thousands of dollars in the year, thousands of dollars in the year.
