Fighting for the lives of men, women and children, is a never cassing struggle at the Muskoks, the Toronto and the Queen Mary illospitals, where nearly a thousand patients are now being treated for tuberculosis.

Perhaps you do not fully realise the predicament of the unfortunate victims of this dreaded disease, the majority of whom came from the families of the very poer.

Living in cramped quarters, where sunshine and fresh air are often as scanty as nourishing food, is it any wonder that consumption finds them out. them out.

A King's Decree

Long ago a wicked King decreed that all the children of a given age must die. Buch cruel times seem long past, and we are grateful for it—but is liared dead, or does he live again in the indifference of some, which permits consumption still to claim many innocent children for its own?

Children, especially those of tender years, are particularly susceptible to consumption. It is a disease from which, unaided, they solden can recover, but given help such as the Queen Mary Hospital affords, their chances are increased ninefold. their chances are increased ninefold.
