THAT comfort in ocean travel is fast giving place to luxury is established by the fact that the world renowned "Empresses" and "Duchesses" of the Pacific and Atlantic Oceans, already known by world travellers for their unparatialed service, have now been soulpped for the entertainment of their passengers with the latest Sound and Talking Moving Picture attractions.

As each of these floating palaces drew into their home ports this month, Northern Electric installing engineers swarmed aboard with tools and equipment, and when they pot to see again, the Empresses of "Canada", "Asia", "Australia", "Japan" and "Russia"; and the Duchesses of "Redford", "York" and "litchmond", carried with them as unlisted passengers the shadowy impersonations of the leading orbs in the stella firmament of the ficreen, and their many satellites who, through the medium of a folding screen and up-to-date projection equipment concealed in the lounge, will, in their own inimitable manner, entertain globe-trotters as they pleasurably gilds to and from the romantic ports of the flown fleas. The "Empress of liritain" was litted for flound Pictures, when she was put into commission two years ago, and the "Duchess of Atholi" will be similarly treated upon her first trip to Montreal this Spring.
