Harrison, whose address is Georgetown, Ont.

Each sitting will commence at nine o'clock in the forenoon and will continue until the appeals have been disposed of. (At Milton and Glen Williams at three o'clock in the afternoon, or so soon thereafter as possible.) If necessary, sittings will be held at such other named places—between the hours of seven and nine o'clock p.m. Standard time to apply in all cases.

And further take notice that any voter who desires to complain that his or her name or the name of any person entitled to be entered on the said list has been omitted from the same, or that the names of any persons who are not entitled to be voters have been entered thereon, may on or before the dates respectively above set out, apply, complain or appeal to have his name or the name of any other person entered on, or removed from the list.

And further take notice that such appeals must be by notice in writing in the prescribed form, signed by the complainant in DUPLICATE, and filed with the Clerk of the Housing Office or left for him at his address as stated above.

And further take notice that the Voters' Lists to be revised are those of 1934 for Oakville and for all other municipalities those of 1933. An appeal should be made for anyone entitled to vote whose name does not appear in Part I or Part III of the said Voters' Lists.

W. N. MUNRO,
Chairman of the Election Board for the County of Halton.
DATED at Milton this 17th day of May, A.D. 1934.

A CHILD'S PRAYER

Lord, keep my tummy strong and well,
And daddy, too, but do not let
That it is the whom I love the most
(he who they say is the perfect host)
Because he plays and tells me things
While tummy just like diamonds
rings.

And daddy, pray and please pray,
From Summer on throughout the year,
When I grow up, I promise you
That I'll be good and strong and true
Keep me from pulling daddy's hair,
And sticking pins on teacher's chair,
Make me more willing to obey
When I am told I cannot play
With other children on the street,
Not even as a weekly treat.

And this is all I have to say:
Oh, yes, do make my daddy gay,
Another egg for daddy dear,
For he is sometimes a little queer,
And just won't let me sit at all,
Do make the moon come out and fall
Across my bed and stroke my face,
And make the moon like silver lace.

COUNTRY SCHOOL MEETS

All the little children came running over the hill,
And one had sticks of a row and one had
And one had picked up the broken green,
And one had found a stick of red.

The sun stood up and shook himself in a golden
The meadow-lark to heaven went and the
The bee flew to a trifling bee and the
The wind in rhythmic fingers pulled their hair
They brushed the silk of the little bloom with their
And all the sweet of the world them and took
The laughing breath of the little children

BY MISS JOAN YOUNG OF GEORGETOWN

My reasons for thinking that young people who smoke cigarettes are spending their money foolishly. Tobacco is one thing that can do no good to any one, no matter what the cost, consequently it must be harmful to the smoker. Indeed, the only justifier of the business are the plunger and the tobaccoist. Money is very scarce now and no one can afford to burn it. When you touch a match to a cigarette, the smoke which is so harmful to the lungs, it is so much money that is being wasted. It is a question as to why they smoke? Is it really a pleasure from that little parcel of tobacco wrapped in paper. Tobacco is a great deal of money. No one can afford to burn it. Rheumatism for 12 Years

Here is a letter that goes to prove that even rheumatism of long standing can be relieved by the right treatment:

"I have been a sufferer from rheumatism for some 12 to 14 years now and have foolishly taken no steps to get it. My particular form of rheumatism seemed to take the use out of my hands and legs. The latter would suddenly give way and let me down unless a chair or table were handy. At all times, I determined to give Rheumatism a trial—and now I feel a regular being. I can scarcely believe that at this time I am happy along with a stick.—Mrs. M. L. C."

News and Information For the Busy Farmer

Choosing the Site of a Farm Well

The situation of the farm well is often the factor which determines whether the family will have pure and wholesome water to drink or water that is unsanitary, producing disease. It is desirable to locate the well 150 feet from any polluting source such as the barn, manure fields or garden, 50 feet from any ditch, road, stable or horse manure, and 50 feet from any polluting source such as the barn, manure fields or garden, 50 feet from any ditch, road, stable or horse manure, and 50 feet from any polluting source such as the barn, manure fields or garden, 50 feet from any ditch, road, stable or horse manure.

Good Soils in the Ottawa Valley are Capable of Producing Fine Crops of Alfalfa

Good soils in the Ottawa Valley are capable of producing fine crops of alfalfa. Experiments over a period of years on the Dominion Experiment Station show that alfalfa and mixture which contain alfalfa have given much larger yields than when the alfalfa was not included. The seeding value has also been considerably increased by the inclusion of 2 or 4 pounds of alfalfa seeds in the timothy, red clover, and bluegrass mixtures. The alfalfa seeds in the timothy, red clover, and bluegrass mixtures are Ontario Variegated and Canadian green strains.

Combating Oat Root Rot

Oat root rot is a very serious problem in Eastern Ontario. Experiments have shown that ploughing as early in the summer as the crop can be removed, cultivating the land during the fall, and applying lime before the ground freezes constitute a very satisfactory method of control. If this procedure can be followed the next year by a cultivated crop or a another crop practically complete eradication will be secured. It is surprising and disheartening sometimes to find that oat grass will persist after considerable work has been done on the land. However, when right methods are followed, and ploughed as early as possible, the application of commercial fertilizers with a combination of fertilizers and grain drills has proved very effective in controlling many weeds.

Buy Fast-Growing Chicks

Chicks hatched in late May and June, have got to be extra-vigorous and extra fast-growing, if the pullets are going to give you many high-priced eggs in November and December. If you buy slow-growing chicks at this time of year, you can't hope for much fall economy. Bray Foundation Grade pullets from our earlier hatches weigh up to 3 1/2 lbs each at 14 weeks old. That kind of growth gives you fully-matured layers at 5 months old.

Write us for full particulars and our reduced prices, or call on the manager of the Bray Hatchery in your district.
