Regularity!

TO MERCHANDISERS:--

"You sweep out, you trim the windows, you dust off the counters, you make up new price cards, you unpack and arrange new stock, you plan your merchandise showings, you do these and a hundred other necessdry jobs REGULARLY in the normal conduct of your business.

"But how about the biggest job of all-contacting the people and telling them repeatedly that you are in business and have the goods they need. Do you do that REGULARLY) Do you figure you are going to get your share of the available business if you don't tell folks about your merchandise or your service at REGULAR intervals instead of doing the job spasmodically or not at all?

"By all known tests, experience and thousands of records, the acknowledged best-of-all medium for REGULARITY is advertising in the local newspaper. A newspaper going REGULARLY into the homes of your possible customers, not only in your city but the surrounding territory as well, makes it easy enough for anyone to see how your local newspaper offer you the finest kind of a vehicle for carrying your business message REGULARLY to the people.

"And don't think these folks won't miss your REGULARITY of advertising. They look for their newspaper REGULARLY, READ IT REGULARLY study is advertising 'yours, if it's there) REGULARLY.

"And what's more, you'll find they are buying fairly REGULARLY, too, if you'll just check up, especfally with the advertisers who do use space REGULAR-

In great cities large crowds sack the great white way. Usually there the great white way. Usually there is nothing of great significance to see, but people are seeking to escape from themselves. Electric signs, notes, comic resis are attractive because they halp people to forget themselves. Yet these hours are not nearly so memorishes as when the heart is touched to nother living through bereavement or solitary dedication of sail to God some midnight hour. genore and a reducation of activity.

The deep eignifiance of Elijah's expartience on Mount Moreb was that he heard God's voice. It is customary to think that this was an inner voice because none of us have ever heard a divine voice external to ourselves. Yet all can understand something of what is meant by the still small voice of conacience and God within the soul. This experience of Elijah as he listened to God should not be exceptioned. It may be made a daily practice of those who seek to live a heligious life. It is a positive relaxation after some glaring spectacle or noisy parade to go alone and listen to the spirit of God, and discover that Christ's promise was not vain that the Moly Spirit, the spirit of truth, will be sent to the spirit of truth, will be sent to those who listen. When killsh came out of his cave, in the calm after the dorm, he was impressed with the sternal things. He discovered that the eternal things. He discovered that the human spirit and God's Spirit have greater aignificance for thought and action than the mightiest powers of external nature. Astronomers can tell us almost unbelievable take about the extent of the physical universe, but this has not as much personal aignifiance for us as the impulses of love, the sense of forgiveness, the insights into truth that God's Spirit between to us he forgiveness, and and the sense of the sen
