### LOST 10 LBS. IN TWO MONTHS

NOT TOO OLD TO REDUCE BY 10. Here is a letter which proves that there is no necessity to tolerate excessive fatness, even at the age of 50. "I was becoming too fat after reaching 50, and had attacks of rheumatism and indigestion. I took ordinary salts and other medicines, but they did not do any permanent good. Then I commenced taking Kruschen. I soon began to feel different—brighter, stronger, had more energy, no rheumatism, and to my surprise, after two months I lost 10 lbs. in weight, although I was eating much more, as digestion had nearly left me."—W. H. O.
