FOOD and BELLIES were distributed to veterans and their dependents through the Poppy Day Fund Committee of the Legion. The year started with a separate treasury, which during the year was united with the Central Relief treasury and all accounts paid by one treasurer.

These observations are not constructive opinions but solely personal. When our Committee was first formed in 1931 everyone felt that it was a new but only temporary situation and that in a few months it would change and everybody would get back to work. Instead of that it has grown steadily worse and we are entering the year 1934-35 with a higher monthly relief expenditure than in any previous year.
