VARMENS BEING ROBBED

We take the following from the Bracebridge Casette of October 11th "Fremiers, Pinance Ministers, Minluters of Trade and Commerce, Minluters of Justice as well as Small Fry in the political life in Canada blather about revival of business, detection of crime, deep waterways, reciprocity and lots of other poppycock. Magistrates and judges mets out punish ment for petty theft. They turn the world upside down to eatth and punish kidnappers who do not even get away with any loot. All this goes on while the most barefaced tobberies are carried on openly. The Dominion supports a Minister of Agriculture; so dore Ontario. is their business? One would naturally suppose the business of Ministers of Agriculture would be to make the Covernments, of which they are important parts, see that agriculture gets fair play. Hitay in the rut long enough, and you will find it elmost impossible to have a new idea or to exercise the brain power.

How can you avoid getting in a rut? Here is the fellow who works at a machine all day. Maybe all he has to do is to move his foot up and down or to push a lever and then keep his eye on the machine. There is a rut which cannot be avoided. That may be true as far as his job is concerned, but outside of that he can find plenty of ways of avoiding the rut. For instance, suppose he has formed the fabit of taking the right-hand side of the street in walking to work. Let him try the left some morning. Or if he always crosses the street at a certain corner, let f.im try a new one. If he hange his hat on the same

there. Most of them are continued on some inside page. Never mind ! When he reaches the end of the article on that first page, he reads another and so on. When he has finished with the first page, he turns to the last page and reads right back toward the front. Unless the front page article is of unusual interest so that he wants to read it all then, he walts until he comes to that continuation on the inside page and then reads it. What would happen if that fellow should change his order of reading sometime? The chances are that it would be a good change for him to make. He is in a dangerous

PALE, PEPLESS GIRL BECAME PRETTY -AND WASN'T SHE PLEASED!

It all happened in 30 days! In November the girl was pale, run-down and lacked vitality. Weight subnormal; only 01% the Her blood, when tested, was found to be low in red corpuscion and lower still in haemoglobin, the red substance in the red corpuscion. She was given a 30-day treatment. And what a happy change took

the gained nine pounds and her complexion glowed with rosy health. Her face rounded out and she became positively pretty. The treatment—as shown by a second blood test—had greatly increased the red corpuscies and harmoglobin in her blood, consequently she felt and looked radiantly well. The preparation that worked these wonders was Dr. Williams' Pink Pilis. This famous old remedy restores health in a most constructive way. We know that the blood carries nourishment and vitality to every part of the body. But unless the blood has a sufficient number of red corpuscies and red colouring substance called hasmoglobin, it cannot carry on its vital work. It is here that Dr. Williams Pink Pills produce constructive benefits. This remedy increases, in most cases, both the red corpuscies and the hasmoglobin. Blood tests

Good looks and good health are too precious to neglect or experiment with.
