HEALTH SELDOM COMES BY CHANCE TO PERSONS OVER THIRTY

Good health cannot be taken for granted any more than a good income can, for for people over thirty it is just as certain that they will have to plan to enjoy good health as it is to plan to enjoy a good income. And it is just as certain a matter of plain common sense to stick up to yourself.

In health, your shortcomings are, at first, likely to be those of a younger man. At such times, if you are not careful, they will become permanent. The best remedy is to keep up to date in the knowledge of the latest medical science. This is especially true for men over thirty. The "World's Best" is the best place to get the latest news on health. It is the only journal that gives you the latest news on health in a plain, practical way. It is the only journal that gives you the latest news on health in a plain, practical way. It is the only journal that gives you the latest news on health in a plain, practical way.

WAITING

I could say nice things about him; I could praise him if I would; I could tell about his kindness; he has always done good; I could boast him as he journeyed over the road of life today; But I let him pass in silence; And I've not a word to say; For I'm one of those now waiting the word of peace is said; Or a word of comfort uttered; Till the friend we love is dead.

I could speak of your dear brother; As a man it's good to know; And perhaps I'd like to hear it; As he journeyed, here below; I could tell the world about him; And his virtues all recall; But at present he is living; And it wouldn't do at all; To let the world know he's waiting; Till the spark of life is fled; I'd like my voice to praise him; I must know that he is dead.

I appreciate the kindness that he's shown to me; And it will not be forgotten; When I speak his eulogy; I'm waiting for the public And proclaim him friend of mine; But that isn't customary; I'm waiting for the world; Of my love for your brother; Who has often helped me here; I'm waiting for the day; Till I stand beside his bier.

RAILWAY PREPARE FOR 1935 CHRISTMAS TRADE

Anticipating a greater volume of Christmas business for this year than the previous year, the Canadian National and Canadian Pacific railways are preparing to handle the increased traffic of the festive season's mail and parcels. The steady increase in the popularity of the railways as a medium of conveying Christmas greetings and of bringing to the attention of the customer the displays of Christmas gifts is illustrated by the increased volume of mail and parcels handled during the season's rush. This range from the "hobby" interest, which is a hobby of the individual, down to the commercial, which is a hobby of the nation. The railways are prepared to handle the increased volume of mail and parcels, which is a hobby of the nation. The railways are prepared to handle the increased volume of mail and parcels, which is a hobby of the nation. The railways are prepared to handle the increased volume of mail and parcels, which is a hobby of the nation.

The Christian as Witness

International Uniform Sunday School Lesson, December 2, 1934

GOSPEL TEXT: "But ye shall receive power, after that the Holy Ghost is come upon you; and ye shall be witnesses unto me both in Jerusalem, and in all Judaea, and in Samaria, and unto the uttermost part of the earth." Acts 1:8.

LESSON PARAPHRASE: 1. The Christian.

Lord, speak to me that I may speak in living words of Thy love. As Thou hast taught me to bear witness to the world, so let me bear witness to Thy love. I believe in Thy love, and I believe in Thy love, and I believe in Thy love.

Why Haven't They Built?

Perhaps it will clear up the economic background of the building industry if one asks why building of houses has practically ceased in the past three or four years. The answer lies in the fact that the building industry has been unable to secure the necessary materials for building houses. The building industry has been unable to secure the necessary materials for building houses. The building industry has been unable to secure the necessary materials for building houses.
