Profit," that we have given to our top grade of chicks this year, isn't just a "catch word," It means exactly what it says. Our "Xirs-Profit" chicks do make you more

These chicks ALL come from eggs that run from 25 ounces per dosen up to 30 ounces and 13 ounces per dosen. And we know, from observation, and from trap-nest records kept at Ottawa, that these bigger-thanaverage eggs come mostly from bigger-framed, deeper - bodied birds. The chicks inherit the extra vigor and growthiness of their mothers. They hatch better, live better, and grow faster. They give you earlier broilers, bigger cockerels in the Fall, bigger-bodied, stronger pullets at laying time, and a larger average egg-aise through the Pall and Winter.

We have a good "standard" grade of chicks, too, that are outstanding value at today's price. Hatched from "standard sized" eggs — 23 to 25 ounces per dozen. Backed by Bray methods of breader selection methods of breeder selection. blood-testing and incubating. Also a few started chicks and 3-weeks-old Leghorn pullets that will give you the advantage of earlier hatching. Come in.
