DOCTOR HEMBERS APPECTED BY LEGISLATION As the law stands at present, no member of the Legislature can do business with the government and recalve money in return. Eleven mambers of the Ontario House, who are medical doctors; are thus barred from of Welfare for medical attention given to patients in their practices who are on relief. There is a possibility that the situation will be remedied by covering the aituation. In this way those on relief would be at liberty to employ the services of their own physician even though he happened to be a law-maker as well

LENT Now are the days of humblest prayer When consciences to God lie bare. And mercy most delights to spare;

Now is the season, wisely long, Of tadder thought and graver song. When alling souls grow well and atrong: Ot hearken when we cry.

Oh hearken when we cry.

The featt of penance ! Oh, so bright, Like sunrise after stormy night ! On hearken when we cry.

On happy time of blessed tears, Of surer hopes, of chastening fears. Undoing all our evil years. Oh hearken when we cry.

Chastles us with Thy fear; Vet, Pather, in the multitude of Thy compassions, hear !
