Inspector's Report of Public School

The following annual report of Inspector J. M. Bryson as presented to the Board of Public Schools, will be read with interest by citizens generally.

Milton, May 26th, 1935
Public School Board,
Georgetown, Ontario.

Let me begin by saying that I have pleasure in presenting a brief report on the supervision of your schools. It is a pleasure to be able to state a source of gratification to report high standards of progress and proficiency in the schools of your district. It is a pleasure to be able to report the continued guidance of a very capable principal, nothing is lacking in the case of your school for it stands comparatively high in this very important feature of school training, but simply to stress the fact that we begin to subordinate all other subjects to the training in English. At present the curriculum is a combination of instruction receive less than their due, a curriculum which is not remedied in the near future.

The success of the recent County Fair has been a source of pride to all who have to do with our schools, an event in which your school has taken a prominent part. The success of the fair has been a source of pride to all who have to do with our schools, an event in which your school has taken a prominent part. The success of the fair has been a source of pride to all who have to do with our schools, an event in which your school has taken a prominent part.

He Felt Miserable After Meals

Acute Indigestion Relieved by Kruschen

The treatment which put this man right must surely be worth trying in every case of indigestion. Read what he says:—

"Two years ago I suffered very acute indigestion. Loss of appetite, and a most severe pain in my back. Food soured in my stomach. I felt miserable after every meal and had no desire or appetite for them. A friend advised me to try Kruschen salts. I did so and I am most happy to testify that after a short time I felt the greatest relief. I continued with Kruschen salts for some time and quite better and a new man. I feel as light-hearted as I did twenty years ago."

What Kruschen did for him it will do for everybody else who suffers from indigestion. It did the trick. It is that "little daily dose" of Kruschen first stimulates the flow of gastric juice, and then it cleanses and ensures a complete, regular and unailing elimination of all waste matter every day.
