TO THE JUNK PILE!

An inspected care sould be counted on to stay safe for a reasonable perlod of time: an inspected driver may develop unstable qualities half an hour after he passes his examinations. Yet the authorities concentrate on inspecting drivers, and let dangerous old "crocks" go their way. The result? Driving on a Toronto street a few weeks ago, with only a beginners' license, and at the wheel of a decrepit sixteen-year-old car practically without brakes and com-pletely without insurance, a motor-ist struck down and injured a little girl. The motorist had been drink-ing, but the worst feature of all, perhans, was the fact that he had been allowed to take the road with a car he had been able to buy for \$7, conalderably less than the price of a pair of license plates. The mechanical condition of such a car can be nothing abort of menseing, and the sooner authorities in all provinces are empowered to order them off the highways, the sooner the traffic toll will decrease.
