FREE! 1000 Bray Chicks

Enter This Big Contest

It's here! Your chance to get your 1000 chicks for the cost of a couple of postage stamps! Try your hand at the 1935 Bray Chick Contest. 30 boxes totaling 1000 chicks are being given away absolutely FREE! 200 of the finest healthiest, scrappiest chicks you ever saw, go to the winner! And there are 10 more chicks waiting that have got to be given away. Your choice of breed.

You don't have to buy or sell anything to win. It won't take 15 minutes of your time—30 at the most! EVERYBODY wins a prize! You can't lose. Because every contestant who doesn't win one of the grand prizes, receives a "Credit Note" which in itself is a fair reward for your time because it entitles you to 10 extra chicks FREE with your 1000 order!

Don't delay! Get full information at once. Fill in the coupon and mail it to us today.

Write Chick Hatchery, 68 Clayburn Ave., St. Catharines, Ontario.
I am interested in your 1935 Chick Contest. Please send me complete information, and your printed entry form.
I keep _____ hens, and I have _____ brooder houses and _____ brooder stoves.

BEGIN TRY WEB

Begin try web, no matter how it be, Or fine, or coarse; thy life you made for these. Thou canst not charge the accident of birth; But thou canst make thy life a thing of earth. A daily drudgery at Mammon's shrine, Or thou canst make it as a peasant's divine. A plain of peace and love, and daily toil. Or thou canst the light shine clear, 'twixt through the mold Of this life's struggle. What, though no soaring song, Like the melodious lark, to these below; The robin's note is sweet at close of day. An essentially pipe from neighborhood sprays Of holy or of thorn. So it is given thee Of holy or of thorn. So it is given thee To sing, to work, to fade obscurely. Within a leaf of hedge-embowered grass. The violet hides her head; yet all Inhale the incense of the lovely yet-a-few That grows on earth, but, with the dew of the hour Of dawn, exhale to heaven her perfume of human life, for heaven is the type of human life, for heaven is the goal of human life, unknown to us. Truly and bravely on beyond the last Of worldly prizes or of blame. However it be.

Work on, thy life was made for work, and it for thee. Within thyself the motive power lies. Begin thy web, and God the thread supplies. —Old poem by Mrs. Tom Thwait.

Landy (jokingly): "I don't suppose you know what it means to be hungry, Mr. Felt?"
Boarder: "No, but I'm learning."

YOU CAN'T BE CARELESS WITH COLDS

A cold is no laughing matter. Coughs and colds are the most common ailments. They are the gateway to more serious diseases. Groves Bromo Quinine is the most effective remedy for colds and coughs. It is a natural product, and it is safe for all ages.

Groves
BROMO QUININE

Chivalry

By MADELINE KOHLER

DETECTIVE GEORGE MARTIN, off duty, had been sitting in a quiet little room in the neighborhood of the evening newsstand and his pockets bulged pleasantly as he strolled toward through the street.

The detective was a personable young man in the early thirties. Martin lived alone in a small and rather shabby apartment house in the West End. The building occupied a central court with a tiny fountain, and as he entered the paved square he glanced up at his own window on the fourth floor.

The subject suddenly then, with a slight exclamation, and returned to his room. He looked at the window and saw that the door behind him was ajar. He stepped into the room and saw that the door behind him was ajar. He stepped into the room and saw that the door behind him was ajar.

ACTON

Mr. Stuart Lewis, who has been visiting his father and sister, left Thursday last week for Calgary and Edmonton. He called on Thursday for Tokyo, Japan. After spending a month there he will take up permanent quarters at Mississauga.

Mr. C. H. Harrison has spent two days in Toronto this week on the occasion of the occupancy of the new factory building.

General sympathy is felt here for Clark H. M. Purser, in the death of the motor accident on Wednesday evening and the injuries he sustained on the turn of the road. Normal was blinded by the glaring lights of a vehicle he was passing. He ran close to the curb, and the car struck one of the big stones on the side of the road at this point, overturning the car. The driver went out of control and into the ditch, striking a telephone pole. Mr. Purser was thrown from the car to his head and chest injured. He is recovering as well as can be expected and is expected to take part in the final part of the V.M.O.A. membership drive. In the meantime local officers are endeavoring to carry on and obtain the objective and over-free press.

MILTON

Albert Mountain, a citizen of Milton for many years, died at his home on Main Street here Monday night, after a brief illness. Deceased, who was in his seventy-seventh year, was a member of St. Paul's United Church, and in politics was a Liberal. Surviving are his widow, four sons and four daughters: Sidney, of Milton; Harold, of Mount Forest; Everett, of Oshawa; John, at home; Mrs. Charles Matheson, of Milton; Mrs. George O'Connell, of Hamilton, and Misses Myrtle and Stella, at home.

Mrs. M. E. Gowan and son, Douglas, returned home on Tuesday from a two-month visit in California. Representatives from all parts of the county attended an informal banquet for the executive of the Milton Liberal Association in Milton on Wednesday evening of last week. Address were given by Edwin Strapp, president of the association; Hughes Cleaver, M.P., and Thomas A. Blacklock, M.P., and others.

Miss Margaret Anderson had the misfortune on Tuesday last to fall off a step ladder and break her right arm in two places. Her husband, George E. Elliott, barrister, who was a councillor in 1934, and Milton's worthy mayor since January 1st, last, has decided to retire at the end of his term next month—Champion.

ERIN

Miss Rhoda Fuller entertained some thirty of the young people of the village at a novel and very delightful party on Wednesday evening of last week at the home of Mrs. H. Bell. The guests arrived in costume and there was a dull moment. A treasure hunt was the high light of the evening. Jack Abbott's team being home the most treasures in the shortest time.

Messrs. A. J. Horton, D. B. Leitch, Geo. Sanders and Harry Sanders have returned from deer hunting at Bayville, Ontario. They brought back two nice deer.

Mr. Benjamin Mundell, who has been with his daughter at Vars, Ontario, returned home on Tuesday, and we are sorry to report is ill and confined to his room.

A pretty wedding was solemnized at the Fred Victor Mission, corner Queen and Jarvis, Toronto, on Friday, November 23rd, when Edwin Pearl Stein, of Toronto, daughter of Mrs. W. Blain and the late Wallace Stein, was united in marriage with Miss Phillip Morris, of Riverside Drive, New York City, son of E. and Mrs. Phillip Morris, of New York—L'Espresso.

Dubious
"I wish I was home in my father's fold and did not mind being here." "Indeed," his companion retorted. "You could stand on the roof of your father's home and see the view from down the chimney and open the front door."

Some Post
Frenchnan: "Ah, you climb the Masthead?" "That is a fool to be proud of."
Englishman: "Pardon me, sir, you mean 'Post'?"
Frenchnan: "So you climb it more than once, eh?"
—Millonites' Nights at the Arena To-morrow night and Friday night.

TO GIVE OUTLOOK IN 1936 FOR CANADA'S AGRICULTURE

The Agricultural Situation and Outlook, 1936, an annual report issued by the Department of Agriculture and Trade and Commerce of the Dominion Government in Ottawa, is now being prepared by the offices of these and other Departments. This publication will present in concise, readable form, an analysis of the factors which have influenced production and marketing of farm products in 1935 and those which are likely to affect the supply of and demand of these products in 1936. These problems are being considered from both the foreign and domestic viewpoints. Through such a service it is hoped that farmers will be able to make better plans for crop and live stock production and marketing during the new year. It is, of course, impossible to foresee all the changes which may occur in 1936, particularly in regard to foreign agricultural policies and conditions, but the review represents a careful analysis of available information in a manner which few individuals are likely to plan for. The report will be made available to the public by the year; extension workers will be able to apply it to the discussion of farmers' economic problems at public meetings or short courses in Agriculture, and in advising farmers individually regarding their own farm operations. Moreover it is understood that other provinces may follow the lead of Ontario and Saskatchewan in providing Outlook reports for consideration of special interest to their farmers which cannot be dealt with in a detailed manner in an analysis of the Outlook for Canadian Agriculture as a national industry.

The Agricultural Situation and Outlook for 1936 will be off the press early in January, 1936, and will be distributed by the Publicity and Extension Branch of the Dominion Department to which requests for copies should be addressed.

CHIVALRY

Like a flash Martin bounded across the street as a walk-up and there was an elevator. He took the dingy lift stairs two at a time.

In his apartment he found the girl who had been waiting for him. She did not seem to be in a hurry. She was sitting on the bed, reading a book. He stepped into the room and saw that the door behind him was ajar. He stepped into the room and saw that the door behind him was ajar.

ACTON

SCIENCE ends DANGER of WINTRY HOMES

New discovery cuts fuel bills 20 to 35% — makes homes easy to heat

FROM the Johns-Manville laboratory has come an amazing new insulation, a light, fluffy, wool-like substance that is actually blown from rock. It looks like cotton, but is a pure mineral, with all the characteristics of its stony origin—clean, fireproof, vermin-proof, permanent, odorless.

When installed in your attic floor or ceiling, it forms a heat-proof barrier more than 8 inches thick. Results are astounding. Coasty heat is kept inside the home, and you can depend on savings of from 20 to 35% on your fuel bills. Furthermore, in the summer, your home will be from 6 to 18 degrees cooler on the hottest days. Experts agree that only thick rock wool will protect homes against heat and cold in a truly scientific way.

Phone us today, and let us tell you how little it will cost to make your home really livable every day in the year. There is no obligation.

HUNDREDS OF USERS ARE ENTERTAINING BOOSTERS FOR NEW LOW PRICES now in effect — "It Pays to Insulate"
