World's Greatest Plague Being Overcome

Not so many years ago, consumption was the world's greatest scourge. It is being overcome by the use of the active means which have been discovered in the prevention and cure.
 The obstructive of the lungs and the sanitation expert have all combined and the cure is now a simple matter. It is largely through their efforts that the human race is being saved from this great scourge.
 The obstructive of the lungs is not operated for the well-to-do but are maintained solely for the poor. It is a disease which is incurable and are without means to pay for the treatment and cure.
 It requires a great deal of money to operate the obstructive of the lungs. Many thousands of dollars will be needed to operate the obstructive of the lungs. It is a disease which is incurable and are without means to pay for the treatment and cure.
