**SPEAK TO MY HEART THROUGH GARDENS**  
Speak to my heart through gardens, till I see  
The shame of selfishness rendered judgment  
Turn from the selfishness that could forget  
A lifetime were too short to pay my debt.  
Beholding how, from bud to petal-fall  
Proud popples flame with joy at giving all.  
Out of the grace of gardens, make me wise  
To learn as larkspur mirrors mist-blue skies,  
Heir in my place, Thy holy ground I, too,  
May lift a life that as a mirror true  
Reflects the beauty of that blessed  
Who in a garden prayed, "Thy will be done."  
Teach me in dewy silences to know  
On the path that brush the loveliest  
roses grow,  
That when the shears of sorrow shall be laid  
Against my life, serene and unafraid,  
A sturdier faith shall flower there  
And be  
A richer crimson in my love for Thee.  
—Molly Anderson Haley

**T.B. TESTING OF CATTLE**  
The success or failure of our cattle business will be directly proportional to our ability to maintain and develop our present export market—Great Britain and the United States," declared L. E. O'Neill, director of the Live Stock Branch, Ontario Department of Agriculture, in discussing the cattle situation in Ontario.  
"With the efforts we are making to improve the health status of Ontario cattle and eradicate bovine tuberculosis, it is evident that within a short period of time, the whole Province of Ontario will be restricted area," continued Mr. O'Neill. "Would it not be good business for Western cattle to put their cattle on a status so that they can freely supply without hindrance the feeder market in Ontario and the feeder market in United States where the cattle are all tested?"  
Mr. O'Neill pointed out that Great Britain was fully conscious of the terrific toll being taken on the British cattle. The British Government was spending the tremendous sum of three million dollars a year to stamp out bovine tuberculosis in Old Country cattle. It was expected 40 per cent would react to the test.  
"Therefore is it not reasonable to suppose that in this cleanup there will be an enlarged market for Canadian dairy cows," asked Mr. O'Neill. "And we should be in a position to supply this market when it develops. This means that we will have to clean house ourselves."  
"Our other big market is United States. With practically all the States already tested for T.B., and with the state and federal regulations becoming more stringent, we must keep pace with the country that takes our greatest surplus of cattle."  
Discussing the progress of T.B. testing in Ontario, Mr. O'Neill stated the following 15 counties and four districts had been tested and were now T.B. free areas: Carleton, Dundas, Grenville, Leeds, Prince Edward, Durham, Northumberland, Ontario, York, Peel, Halton, Manitowlin Island, Kenora, Thunder Bay and Timiskaming.  
Counties where farmers have signed up for cattle tests and are now awaiting action by Federal government veterinarians, are Lanark, Peterborough, Victoria, Simcoe, Grey, Lincoln, and Rainy River. Lennox and Addington have filed a petition for all territory south of Highway No. 7, which takes in most of the cattle district.  
In addition, the townships of Mara and Rama in Ontario county, which were not tested when the balance of that county was gazetted, have now filed a petition asking their cattle tested when work is being done in Victoria county.  
Counties where work is actively progressing and where the value of T.B. testing for the entire area is being explained to all the farmers, include, Oxford, Hastings, Wentworth, Welland, Haldimand, Norfolk, Elgin, Middlesex, Brant, Waterloo, Dufferin, Bruce and Essex.  
Two counties where work will be started in the near future are Frontenac and Perth. There has been no activity as yet outside a few educational meetings in the counties of Wellington, Huron, Lambton, Kent and Renfrew.  
We want the best and it is only fair that we should try also to furnish the best.

**Don't Desert Desserts**  
By Betty Barclay  
Spring is here. It's time to watch those calories again. Smaller portions of heavy foods are in order. But don't desert desserts. The children will never forgive you—and "Dad" will take sides with them instead of you. He has a "sweet-tooth," you know. Merely change from heavy desserts to something like a light rennet-custard, that requires no eggs, no baking and no boiling. Something like one of the following:  
**Vanilla Bennet-Custard**  
1 package vanilla rennet powder  
1 pint milk  
1 cup whipping cream  
1/4 cup sugar  
Sliced maraschino cherries  
Make rennet-custard according to directions on package. Chill in refrigerator. When ready to serve, whip the cream, adding sugar and mixing well. Squeeze through a pastry tube and decorate top of each dessert. Garnish with sliced cherries.  
**Golden Glow Bennet-Custard**  
1 rennet tablet  
1/2 tablespoon cold water  
1 pint milk  
7 tablespoons sugar  
1 teaspoon vanilla  
1-2 cup apricot pulp  
6 sliced or canned apricots  
1 egg white  
With scissors cut the 6 stewed or canned apricots into strips and divide among dessert dishes. Make rennet-custard according to directions in package and pour over the apricots before it has set. Let stand until firm—about 10 minutes. Chill in refrigerator. When ready to serve, beat egg white until stiff. Add 4 tablespoons of the sugar and apricot pulp. Beat thoroughly together. Put apricot whip on top of each dish of rennet-custard and decorate with bits of apricot.  
**Lemon Pulp in Salads**  
Lemon pulp may be used in salads calling for such ingredients as fish, eggs, lettuce and so on to replace chopped pickle. So used, it furnishes a delightful variation of flavor.  
Cut the lemon in small pieces, using a sharp knife or scissors. Remove all the membrane possible, save juice and use with chopped pulp.  
Use 1/4 cup lemon pulp and juice to 1 cup shredded lettuce or cabbage.  
Brazil nuts sliced, chopped, crushed, or whole add greater palate appeal to old recipes as well as new. To relieve menu monotony try adding a handful of fresh Brazil nuts to mashed sweet potatoes, shape into cutlets and fry in deep fat, or serve first Spring strawberries and whipped cream in a meringue torte topped with Brazil nuts.  
The tested recipes follow:  
**Sweet Potato Cutlets**  
4 to 5 sweet potatoes  
1/2 cup butter  
Salt, pepper, nutmeg  
1 1/2 cups crushed Brazil nuts  
Macaroni sticks  
Scrub potatoes and boil in salted water until tender. Peel. Put through ricer and beat in butter, seasonings and half a cup of Brazil nuts. Form into cutlet shapes and roll in nuts. Put three-inch stick of macaroni in each cutlet and fry in deep fat, 365 degrees F., until brown on both sides. The cutlets may be baked in a hot oven 450 degrees F. instead of fried if they are dotted with butter.  
**Strawberry Brazil Torte**  
6 egg whites  
1/2 teaspoon cream of tartar  
1 cup granulated sugar  
1/2 teaspoon vanilla  
1/2 cup chopped or sliced Brazil nuts  
1 1/2 cups cream, whipped and sweetened to taste  
1 pint strawberries  
Whole Brazil nuts  
Beat egg whites until foamy, add cream of tartar and beat until egg whites are stiff. Fold in strawberries in sugar, one-quarter of a cup at a time. Beat in vanilla. With a tablespoon arrange in form of ring on ungreased baking sheet. Sprinkle with nuts and bake fifty to sixty minutes in a slow oven, 375 degrees F., cool, loosen with spatula and remove carefully to serving dish. Fill centre with sweetened whipped cream mixed with sliced strawberries. Garnish with whole unshelled berries and whole Brazil nuts.

**FORGET-ME-NOTS**  
Valuable Tips for the Would-Be Gardener  
Plant peas at two week intervals. A small vegetable garden can be made to yield twice the ordinary amount if you give a proper feeding program.  
Tomatoes will take up less room in the garden if trained to stakes or a fence.  
Heavenly Blue morning glory will cover an unsightly fence or building in a few weeks time.  
Plan for another crop in the rows vacated by radishes, spinach and peas. Spading should be done with vertical cuts so as to go as deep as possible.  
Start head lettuce indoors in a seed-box for best results.  
For a hot situation, where you want a low-growing flower, try the portulaca.  
Most flowers for least effect can be had from petunias and zinnias.  
Train your beans to a pole or to a fence for maximum yield.  
A more orderly garden will result if you start flowers in seedboxes outdoors. Plants can then be transplanted just where you want them.  
Plant gladiolus bulbs at intervals for long season of bloom, or plant different sizes of bulbs—the big ones will bloom first.  
The tubular or angel's trumpet is an easily grown annual with a pleasant fragrance.  
Try a few new vegetables this year such as kale or endive. Okra and salady are two fine seasons.

Janet—"Oh, Proffy, what do you think of me now that you've kissed me?"  
Professor—"You'll pass."

**1,000 MILLIONS IS EQUAL TO BILLION**

How much is a billion? According to standard dictionaries it may be a thousand millions or a million millions. That depends on the usage of the country in which one lives. In the United Kingdom and Germany, it is a million dollars; in France and the United States, a thousand millions. Canada follows the American usage, and although there is no official ruling on that point, in this country a billion is a thousand million.  
The Dominion department of finance uses the 1,000,000,000 figure for a billion, because such usage is "universal on this continent," said Dr. W. C. Clark, the deputy minister. For the same reason the Dominion Bureau of Statistics does likewise.  
"The 1,000,000,000 is used by Parliament, and by everybody throughout the country," said Dr. R. H. Coats, Dominion statistician. "Definition of a billion is not a statistical matter, and we are not authorities. But the office practice is to use the thousand millions as indicating a billion. Whether that is right or wrong I can't say. In statistical work we use ordinary nomenclature."  
In any case symbols representing a million millions are of no value to us—we never contemplate reaching that figure. Their only use would be in astronomy, certainly not in reference to ordinary human affairs.

**NOTICE TO CREDITORS**

In the matter of the Estate of CHRISTINA MARSHALL, late of the Village of Limehouse, in the County of Halton, Widow, Deceased.  
NOTICE IS HEREBY GIVEN that all persons having any claims or demands against the late Christina Marshall, who died on or about the 24th day of March, 1938, at the Town of Georgetown, in the County of Halton, and Province of Ontario, are required to send by post prepaid or to deliver to the undersigned Solicitors herein for William G. Marshall and Hazel Marshall, the Executors of the last Will and Testament of Christina Marshall, Widow, Deceased, their names and addresses and full particulars in writing of their claims and statements of their accounts and the nature of the securities, if any, held by them.  
AND TAKE NOTICE that after the 5th day of May, 1938, the said William G. Marshall and Hazel Marshall will proceed to distribute the assets of the said deceased among the persons entitled thereto, having regard only to the claims of which they shall then have had notice, and that the said William G. Marshall and Hazel Marshall will not be liable for the said assets or any part thereof to any person of whose claim they shall not then have received notice.  
DATED at Georgetown, Ontario, this 13th day of April, A.D. 1938.  
DALE & BENNETT,  
Solicitors for the said William G. Marshall and Hazel Marshall.

**LIVE WHILE YOU LIVE**

"There was a time," claims the Trenton Courier-Advocate, "when a man thought it wise to build up an estate for those who came after him. But not now. And the government tax-collectors are seeing to that. To-day a man with ten or fifteen thousand dollars at his command would not think of retiring because he knows enough interest on his money, no matter how wisely invested it was, to keep the roof over his head. Five and six per cent interest is practically a thing of the past and mortgages are a drug on the market."  
"And what's a man to do. About all he can do is to put away sufficient for his dependents that they may live without financial worry and to spend the rest as fast as he can get it. In other words, live while you live for you'll be a long time dead, for if you leave a big estate government investigators will swoop down on your wife and family and when they get through with their snooping the family will be lucky if there's enough left to buy a head stone with the simple word, "Father," on it."  
The middle-aged man has something to worry about in this connection. After years of striving and saving and doing without he finds himself in a rather unenviable position; a trip to another world staring him in the face; and the worry that what he has left his folk may not be in their keeping very long.

**NOTICE TO CREDITORS**

In the matter of the Estate of DAVID ABNER BOYD, late of the Township of Esquimaux, in the County of Halton, Farmer, Deceased.  
NOTICE IS HEREBY GIVEN that all persons having any claims or demands against the late David Abner Boyd, who died on or about the 26th day of June, 1937, at the Township of Esquimaux, in the County of Halton and Province of Ontario, are required to send by post prepaid or to deliver to the undersigned Solicitors for Sarah Boyd, the Administratrix of the Estate of David Abner Boyd, farmer, deceased, their names and addresses and full particulars in writing of their claims and statements of their accounts and the nature of the securities, if any, held by them.  
AND TAKE NOTICE that after the 5th day of May, 1938, the said Sarah Boyd will proceed to distribute the assets of the said deceased among the persons entitled thereto, having regard only to the claims of which she shall then have had notice, and that the said Sarah Boyd will not be liable for the said assets or any part thereof to any person of whose claim she shall not then have received notice.  
DATED at Georgetown, Ontario, this 13th day of April, A.D. 1938.  
DALE & BENNETT,  
Solicitors for the said Sarah Boyd.

**EXCHANGE TOURS FOR SCHOOL BOYS**

The Scottish Secondary Schools Travel Trust, which last year sent Scottish boys on a trip to Canada, has made arrangements for two tours of Canada for Scottish schoolboys for this summer. In the 20 days to be spent in this country, the boys will visit Quebec, Montreal, Ottawa, Toronto, Niagara Falls, and other centres. This summer, for the first time, several groups of Canadian school-boys, between the ages of 12 and 18, will sail for Scotland, join a Scottish travel group, and tour the British Isles, and the continent. The Trust outfits students at bare cost, refunding at the end of the trip any unused money.  
The Canadian boys will go in groups of 25, under the supervision of a teacher.  
Lady Godiva was some gambler—she put everything she had on a horse.
