INSPECTOR DENYES LAST REPORT

AS PRESENTED AT THE MEETING OF THE PUBLIC SCHOOL BOARD ON MAY 11th

Milton, Ont., April 23rd, 1938.
The Chairman and Members,
Public School Board,
Georgetown, Ontario.

Ladies and Gentlemen:—
In my last official report to you on the supervision of your school I desire to express appreciation on my behalf and on that of the Department of Education of the co-operation you have given in the administration of the educational affairs of your municipality. The past twenty-five years have been many changes in your educational set up. The most important material change was in the erection of the two-roomed addition, making possible the provision of an auditorium and stage which have added very materially to the possibilities in the school for mass training in more than one subject, to say nothing of the added value for school entertainment and social events. This is a very valuable asset and can be duplicated in a very few schools of the size in the Province.

You have been fortunate in maintaining a permanency in the personnel of your staff much beyond the average of the size. In no small degree the success of the school is attributable to this fact. In the person of Miss Ryan you have had for years the leadership of a principal who has added to her school-room efficiency the judgment and sense of fair play which have served to make the organization run smoothly, and to preserve that confidence between staff and pupils which makes for sustained effort and final success. It would be a personal pleasure to me to pay tribute individually to the other teachers on the staff. The only addition to the staff this year, Miss June Frank, in charge of Grade VII, is proving to be very competent in both instruction and management and special assistance in the subject of music. The other teachers have long service to their credit and are a group of whom any town might well be proud. Their wholesome moral influence combined with that of the principal cannot be reflected in the future history of the town. It is in parting with such teachers with whom friendly association has meant so much, that I find my chief regret in laying down the responsibilities of office.

I do not propose at this time to offer any remarks on the problems of education generally. At some length in my last report I called your attention to some of these and if you are sufficiently interested I suggest that you refer again to that report.

I have repeatedly pointed out to you the lack in your school programme that you have allowed to continue, in the absence of the curriculum of the two subjects, Household Science and Manual Training. I do not propose in this final report to traverse the arguments I have presented before. The value of these two subjects is amply shown in the fact that the Minister of Education has made them compulsory in the Secondary Schools. Surely if pupils there are to receive the fullest benefit from them the beginning should be made in the Elementary School. I simply suggest again that you give serious consideration to the introduction of these two practical subjects into your school programme. The most profitable way in which this may be done, as I have pointed out before, is in co-operation with the Acton and Milton Boards.

The enrollment of the school at present is 308. It may be interesting to the Board to know that five years ago it was 205 with seven rooms.

The new Course of Study for Grades I - VI, has been received by the teachers with general favour. This Course shows wide divergence from the former prescription of work, not so much in content, but rather in organization and method. The new Course is based more specifically on the immediate needs and capacities of the child at different stages and is intended to place chief emphasis upon the activities of the child rather than the instructional function of the teacher. The flexibility of the curriculum has already made possible such an adaptation to the needs of individual pupils as to show that the new Course will be of much more general profit than a Course that was less elastic in its requirements. I shall be very pleased to receive from you any criticism, favourable or unfavourable, that you desire to offer of the Course as far as you have become acquainted with it in your school. I may add that one of the most pleasant memories of this term was the hour's programme put on in the auditorium by Miss Scott's class in connection with the new Social Studies Course in Grade III, at which I was privileged to be present along with the Grades I, II, IV, and V, as invited guests.

In conclusion I bespeak for my successor in office your support and co-operation. I venture to suggest that you invite him to meet you personally occasionally. In such close conference and exchange of ideas you may find mutual benefit in the administration of the affairs of your school. As for myself I lay down my responsibility with a sense of having sought, at least, to be of some assistance to your teachers and to present to you the needs of the school, and suggest ways in which you might best serve its highest interests. You have my very best wishes for ever increasing success and prosperity.

Faithfully yours,
J. M. DENYES.

GLEN WILLIAMS

After being in failing health for some time, the death occurred at her home, Leslie St., Oshawa, of Mrs. Jaa. Thurman. A very well known resident here for many years, Mrs. Thurman was born in Georgetown and moved to Toronto some years ago, later going to Oshawa. Besides her husband she is survived by two daughters, Mrs. Yeomans, Oshawa, and Mrs. Tyrell, Toronto. Interment took place in Union Cemetery, Oshawa.

NORVAL RIFLE CLUB

The club members are busy these days preparing the range for the rifle meet which takes place on Friday and Saturday, June 3rd and 4th. The range is situated on the Credit River flats, about 200 yards south of No. 7 Highway on the Brown property. Sixteen targets are being erected, eight at 50 yards and eight at 100 yards. The firing point is 60 feet in length and will accommodate sixteen marksmen at one time. Tents will be erected to protect the marksmen in case of inclement weather and for the comfort of the competitors when not shooting.

The registered club scores on Monday night are as follows: P. Johnson 100, E. McKinney 100, H. Nurse 90, R. W. Hall 90, W. Wilson 90, M. Atkinson 90, Dr. Stevenson 90, W. Robinson 90, P. Hustler 90, W. Lisk 90, W. G. Browne 90, C. Meredith 90, C. Cantelon 90, P. Stark 90.

BRIDGE CLUB NEWS

Monday evening at the Men's Bridge Club produced a new set of winners. Messrs. Geo. Brown and L. Humberstone, who were second last week, climbed the ladder to finish first on the night's play. Second high scorers were Messrs. Wm. Young and Jim Mills, while third place went to Messrs. R. Frust and P. Spires.

Considerable satisfaction has been expressed in the rapidly improving tenor of play being made by the various pairs. While it was voted that no meeting be held on Monday next, owing to the proximity of Victoria Day, play will be resumed on the two following Mondays at least.

Congratulations were showered on six members, who on Friday last journeyed to Hillsburg, to emerge with a complete victory. The team enjoyed a considerable point total advantage, each pair finishing the round on the plus side. The win had a tinge of revenge to it as on two occasions before our club was formed, Hillsburg had taken teams from Georgetown into camp in good style.
