### THIS AND THAT IN SPORT.

By G. Mac McGillivray  
**Clarke Forced to Set New Record to Beat Crichton**

#### BILL COLLIER FOURTH IN SIX MILE EVENT

Dave Crichton of Georgetown, running under the West End 'Y' colors, forced Art Clarke, Canada's ace miller, to set up a new record in order to win the Ontario track championship for the distance on Saturday last at the Beaches Olympic oval, Toronto. His time was 16 9-10 seconds, eclipsing his own former record by 9-10 seconds. While Clarke won the race, Dave Crichton was only a scant second behind. Clarke put all he had into the race and led the field from the second lap. Crichton kept close until the sprint when he dropped back some eight yards, but the other runners of the field were nowhere with the leaders. Crichton led Clarke to a previous occasion, and has every hope of doing it again in the near future.

While Clarke holds the native Canadian record for the mile, Crichton is conceded to be the best miller to wear the colors of the University of Toronto.

In the six mile event, in a class with some of Canada's outstanding runners, Bill Collier of Georgetown, ran fourth to "Booty" Rankine, Preston; W. Fedorick, Joseph, and B. Morrison, Achilles. Collier made a fine showing also, and Georgetown is proud of their track stars.

#### WHAT OTHER PAPERS SAY ABOUT CRICHTON

In referring to Art Clarke of the Achilles Club, and Dave Crichton of Georgetown, the Toronto Star had the following to say: "Ontario is fortunate in possessing these two sterling athletes who are the best that Canada has probably ever had to offer and who have proven their ability in international competition in creditable fashion. Clarke in the past few years has justifiably attained a reputation as the best miller that Canada has ever produced. Last year he set up a new Canadian (native) record and this spring in Australia turned in the fastest mile ever run by a Canadian at home or abroad.

"Crichton, a relatively new runner, has in turn proven himself to be of equally great promise. Intercollegiate record-holder and best miller to ever wear the colors of University of Toronto, Crichton is providing opposition unparalleled. Running for West End 'Y' during the summer time he may easily be relied upon to carry their colors to great heights. Within the last month he has lowered the existing Canadian record for the mile and a half distance by seven seconds. Still quite recently he ran second to Bill Fritz, British Empire and Olympic point winner, in the fastest half mile run in Canada this year."

The Globe and Mail said: "Dave Crichton, intercollegiate mile record holder, will test his strength against Art Clarke, Canadian champ and record holder of the Achilles club. Art has lost but one mile to a Canadian, and strangely enough that Canadian was Dave Crichton. The Crichton boy is going places and recently lowered the Canadian record for the mile and a half."

#### SOME DISADVANTAGES OF SUNSHINE

A sunburn may be prevented by the previous application to the skin of a solution of Epsom Salts or by similar use of a tannic acid solution, two teaspoonsful to a glassful of warm water. Even strong tea may be used in an emergency.

Excessive or hard work in the hot sun may cause prostration. In severe cases the victim may have cramps in his legs. The profuse sweating involves not only loss of water from the system, but it occasions a loss of salt that seems to upset the chemistry of the body. Under such circumstances very little dilute salt water is quite palatable and, oddly enough quenches thirst better than plain water.

Heat stroke, popularly called sunstroke, is due to exposure to heat under conditions of high humidity which prevent the normal heat loss from the body. The body's normal heat-regulating mechanism has failed. This condition may begin with headache, dizziness, thirst or nausea; oftener there is a sudden loss of consciousness with a rapid rise of body temperature as high as 107 or 110 degrees F. Heat stroke should be avoided if at all possible because the victim of heat stroke, if thereby rendered sensitive to future heat exposure even as low as 80 degrees F.

High external temperatures complicated by stagnant or moist air, which fails to assist the cooling of the body surface by evaporation, are causative of heat stroke. Under such conditions bodily exertion must be limited. The wearing of light, well ventilated headgear gives a degree of protection.

If actual heat stroke has occurred or appears about to occur, the person should at once be removed to the coolest available spot. The bare body should be wrapped in a sheet in cold water and cooling by evaporation should be aided by fanning so as to gain a moving current of air. The temperature should be taken frequently and artificial aids to heat loss discontinued when the temperature has fallen to 102 degrees F. Plenty of fluids should be given by mouth. Many of these cases are most serious and in all cases should be under the supervision of a doctor.

Sunburn, heat prostration and heat stroke are some of the disadvantages of sunshine. These may be avoided. After all, they do not counter-balance the good that, in a variety of directions, come from the rays of the sun.

### COUNTY COUNCIL

Halton county council met in Milton on Tuesday, July 19th. The principal business was the passing of a by-law to levy a rate for the expenses of the county of Halton for the current year. According to this by-law, the sum of \$206,065.13 is required for that purpose. The by-law called for a rate of 3 6-10 mills on the dollar for general purposes and also special rates as named in the by-law. There shall also be levied and collected against those municipalities forming part of the county which are not included in any high school district or continuation school and which comprise the townships of Equesting, Nassagaweya, Nelson and Trafalgar, the sum of \$40,132.23, which sum shall be levied and borne by the said municipalities, the total rate being as follows: Acton, \$9,948.22; Burlington, \$12,728.22; Georgetown, \$7,423.22; Milton, \$7,584.54; Oakville, \$16,043.20; Equesting, \$34,723.10; Nassagaweya, \$13,955.03; Nelson, \$40,941.28; Trafalgar, \$26,542.35, making a total of \$206,065.13.

Last year the total estimate for expenses was \$22,232.38. The reduction this year is due to the rate for education and also the general rate, which was four mills last year.

At the afternoon session reports of the standing committees were read prior to their discussion in committee of the whole with Mr. Davis in the chair.

Mr. Allen, chairman of the county buildings committee, stated that expenditures on county buildings would be considerably heavier than usual, as it was absolutely necessary that a new boiler for the heating system be installed and also necessary repairs and improvements be made to the registry office, which had been urgently needed for some time. Mr. Allen regretted the way the county buildings had been neglected. The present boiler, for instance, had been in use for twenty-nine years. "Necessary improvements save money in the long run," said Mr. Allen. "Last year storm windows were put on the registry office and the fuel bill was reduced by half. If the present buildings were insulated it would mean another big saving in the cost of heating the buildings."

The chairman of the agriculture committee, Mr. Gordon reported that as a committee they had been able to do very little along reforestation lines but he understood that several private enterprises were already on foot. Mr. Hall suggested that the government might be asked to reforest waste land and also suggested that landowners be encouraged to fence their property for forest protection. He cited the case of a farmer who owned three bush lots. Two of them were fenced and thick with young trees, while the third was unfenced and cattle had completely destroyed young growth. Mr. Hall also thought that legislation should be enacted to prohibit owners from cutting trees less than six inches.

Mr. Gordon thought that as long as farmers irrigated and drained the marshes there was bound to be a water shortage.

Moved by Mr. Robinson, seconded by Mr. Wilson, that the treasurer be instructed to make the following reports, representing the amount paid in the 1937 rates by each of these municipalities for rebates made in 1937 on costs of county pupils attending the various continuation and high schools in the county, and that these payments shall be accepted by these municipalities as a final settlement of these rebates: Acton, \$983.48; Burlington, \$1471.46; Georgetown, \$851.35; Milton, \$787.97; Oakville, \$1865.44, making a total of \$5659.70.

Moved by Mr. Irving, seconded by Mr. Byers, that the following accounts as passed be paid by the treasurer: Finance, \$400.10; railways and agriculture, \$158.76; county buildings, \$204.98; hospital accounts, \$723.90; printing, \$277.71; total \$1765.41.

Moved by Mr. Hall, seconded by Mr. Kerna, that the committee on county buildings consider the tenders for new boiler and have the same installed and other necessary repairs made.—Carried.

Moved by Mr. Irving, seconded by Mr. Byers, that leave be granted to introduce a by-law to levy a rate for the expenses of the county of Halton for the current financial year, and that the same be now read a first time.—Carried.

Following the necessary resolutions, by-law as above, No. 718, was given three readings and passed.

Following the adjournment of the meeting, a number of the members left for their annual fishing trip.

—The agricultural show at the Canadian National Exhibition has no equal in the world. Every new mechanical and chemical development to aid the farmer is there on display as well as the products of farm and field in abundance. It is a far cry from the few pounds prize money offered for the cultivation of hemp in the year 1789 to the huge prize list of today.

### CHURCH NEWS

**SCRIPTURE TEXTS**  
"But I will sacrifice unto thee with the voice of thanksgiving; I will pay that that I have vowed: Salvation is of the Lord." Jona 3: 9.

**St. George's Church**  
Rev. W. G. O. Thompson, Rector.  
Seventh Sunday after Trinity: Holy Communion, 8:00 a. m. Sunday School, 10:00 a. m. Matins, 11:00 a. m. Evensong, 7:00 p. m.  
Picnic on Saturday morning at ten o'clock, to Stanley Park, Erin.

**St. Alban's Church, Glen Williams**  
Seventh Sunday after Trinity. Matins, 9:30 a. m. Sunday School, 10:30 a. m.

Rev. F. C. Overend, P. A., Minister.  
The Sunday School will meet at 10:00 a. m. Union services of the congregations of Knox Presbyterian and the United Church will be held at 11:00 a. m. and 7 p. m.

**Baptist Church**  
Rev. E. G. Baxter, Minister. 10:00 a. m. Service for worship and Sunday school session. Subject: "Samson: Strength and Weakness." 7:00 p. m. Evening gospel service. Subject: "God's Question to Jerusalem; What Will Thou Do?" A welcome to all.

#### RECEIVES MAIL JUST ONE YEAR LATE

While William Preston of Georgetown was holidaying in Port Carling, Muskoka, last summer, he sent a post card to his mother here. The post card, however was not delivered until this week. Again holidaying in Port Carling, the post card came to his absence, and his mother thinking he had sent it on this trip, thanked him for the card on his return. Much to her surprise William said he had sent the card last year, and remarks on the back proved his story. House-cleaning in the Port Carling post office must only take place once a year—during the tourist season.

"You want a job as herring packer? Have you had any experience?"  
"Yes, I've been a street car conductor."
