WENT TO BED

WITH BOOTS ON

There has always been considerable controversy as to who built the first sleeping car. Records would seem to show that the first efforts were the adaptation of a day coach to sleeping car purposes in 1636 on the Cumberland Valley Railroad of Pennsylvania. The first "Pulknan" is said to have made its appearance in 1869. In the first make-shift sleeping cars, passengers went to bed fully clothed and reclined on rough mattresses with their own blankets or shawls drawn them. In referring to the inaugural trip of the first "Pullman", the conductor J. L. Barries said "there was no crowd and the our, lighted by candies, moved away in soleme grandeur. if such it might be called. I remember the first night I had to request the passengers to take their boots off before they got into their berths. They wanted to keep them on seemed afraid to take them off."

In Canada, the Grand Trunk Rellway, now part of the Canadian Nathis soul pleading men and women to ional System, gave early attention to be reconciled to God. GOLDEN TEXT: "Our Father who art in heaven. Hallowed be thy name." Matthew 6: 9. LESSON PASSAGE: Exodus 20:

Matthew 5: 33-37; 12: 33-37. O teach me Lord, that I may teach The precious things Thou dost impart: .. And wing my words, that they may

· reach . The hidden depths of many a heart. -Frances Ridley Havergal. What About Swearing?

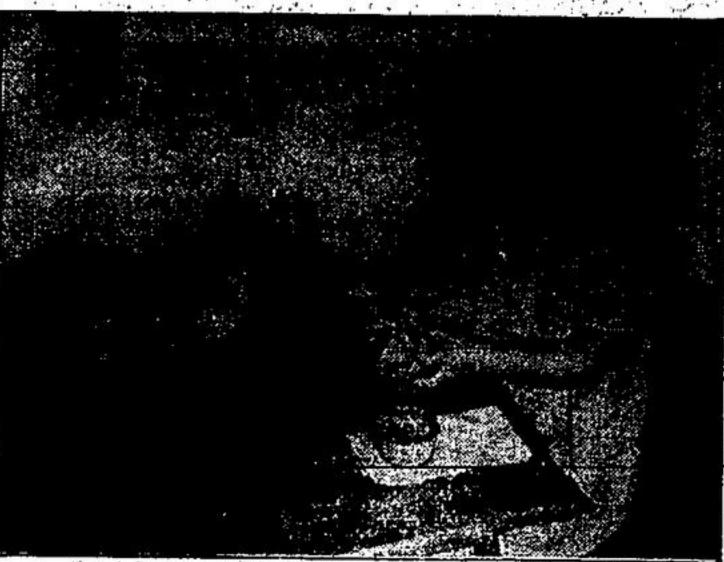

Is swearing as bad as it has been pictured? Is it not merely a matter of words, a paltry question of miking vibrations in the air? . Is it serious enough to have a whole command. ment out of ten devoted to it? Certainly swearing is not a glorious sin; it is only a mean little vice, selfish and inconsiderate in making others listen to what they do not wish to hear. Yet the bad words are an indication of foul moods. So what we have to deal with is doubt, resentment, self-centeredness, of which the swearing is an expression. A workman said to his mate, about some triffe, "I'll be damned." A passerby stopped and said. "Do you really? want to be damned? Do you know what it means to be damned? you really putting your own life under a curse? Have you actually and finally decided to desire the worst possible?" Of course the swearing man had never thought of it in that ways It was an empty thoughtless habit that he had acquired from the environment in which he had lived. And that is one of the worst things that can be said about swearing. It is thoughtless, not a purposeful thing, the result of balanced thinking. For lack of thought and lack of vocabulary men and women repeat ancient oaths that have long lost originality.

Taking an Oath, 33-37 A minister appeared in a witness box to give evidence before a magistrate who knew him well. The magistrate declined to swear the minister saying that he knew the minister would tell the truth. Does not the fact that we usually require evidence to be taken on oath indicate that we unconsciously admit that there is a great deal of lying in daily life? The third commandment forbids perjury as well as profanity. Our motive for telling the truth should not be fear words of matchless emotion and beaustrong oaths will not have much ef- man spake like this man. fect if in our family and community we are known as people whose word cannot be trusted. Where we have established confidence in our truthfulness, there will be small demand

for sworn testimony, An Indicator of Character, 33-35 Swearing creates a bad first impression. Later acquaintances may reveal A city paper thinks we are rapidly good qualities but these are handiapproaching the "push button" age, capped by the uncouth practice of when almost any need can be sarts- cursing. In the war many men who fled by merely pushing a button. As swore proved to be heroes. They were we think back to our boyhood days, not heroes because they swore nor we are rather of the opinion that we did they swear because they were have trailed a long distance toward heroes: it was in spite of their prothe push button age already. > Every Idle Word, 36 When do we speak idle words? Certainly swear words repeated habitually without thought or feeling are .. words. Flattery spoken for selfish ends and consciously deceiving, is another form of idle words. Talking for the sake of talking and to hear ourselves talk is all too common. Who dare affirm that there are no 'dle words in daily newspapers black ink used chiefly to cover white paper? When the radio is turned off in disgust it is sometimes because the announcer is only chattering, without pith or point. In church even, the pulpit may occasionally suffer, if not from idle words, at least from words less than maximum in passionate conviction. In justice to human tongues let us mention also instances of purposeful words, a mother teaching her child to be courteous and truthful, a scientist in a leboratory showing students the laws of God, a patriot pleading with his countrymen for national unity and service, a friend sharing deep spiritual convictions with other friends, a journalist in a leading editorial rebuking wickedness in high places, a preacher pounting out
