**Coconut Cookies Appeal to Menfolks**

By Frances Lee Barton

If you are on the supper committee for the Christmas party at your church, you'll be trying to decide what your contribution to the feast will be. May we suggest several batches of these cookies? They're good substantial cookies and the menfolks will enjoy them immensely.

**Jumbo Coconut Cookies**

3 cups shredded coconut, cut; 1/2 cup heavy sour cream; 3/4 cups sifted cake flour; 2 teaspoons double-acting baking powder; 1/2 teaspoon salt; 1/2 cup butter or other shortening; 1 cup sugar; 1 egg, unbeaten.

Add 1/2 cup coconut to cream; let stand. Sift flour once, measure, add baking powder and salt, and sift again. Cream butter thoroughly, add sugar gradually, creaming until light and fluffy; then add egg and beat thoroughly. Add flour, alternately with cream mixture, stirring well after each addition. Chill. Roll 1/4 inch thick on slightly floured board. Cut with floured 3/4 inch cutter and place on ungreased baking sheet. Prinkle with remaining 1/2 cups coconut. Bake in hot oven (400° F.) 12 to 14 minutes. Makes 2 1/2 dozen cookies.

**KEEPING TREE FRESH**

If a Christmas tree is set in water when it first comes into the house and is kept in water while it is part of the Christmas decoration, it will remain fresh and green for at least a week longer. Water should be replaced as it evaporates. If the base of a Christmas tree is trimmed with a sharp knife just before it is mounted, the pores will be left open, allowing water to rise in the stem to the living cells which are still trying to provide the tree with food and moisture. Spruce and fir retain their needles longer than most other Christmas trees.

"Isn't the boiler factory next door a nuisance, Mrs. Olancy?"

"It's an aggravation, Mrs. McCarthy; my neighbors in the block might be having a family scrap and wed' never know it."
