Curtis Memorial Scholarship

(Beaumont)

The Georgetown Manle Leaf hockey team, which journeyed to Copper Cliff over the week end for the Ontario Midget N.H.L. flanks, returned home Monday, tired, and defeated in their efforts to bring back the much coveted Frank Calder Cup, presented by Frank Calder, president of the National Hockey League.

While the local lads were out-lucked rather badly in the third game of the play-offs, they gave a good account of themselves while in the North, and were only nosed out of the first game by a 10 - 9 score after two minutes of overtime play. In the 9 second game they came back stronger than ever to take their opponents by an 8 - 1 score. The long trip, the excitement of everything new and different, must have taken its toll, as the Maple Leafs suffered an 8 - 0 reverse in the grand flanlle on Monday night by the Copper Cliff Bruins.

"Delly" Beaumont was most cer-

tainly the favorite of the North, as the Sudbury press could not say enough about this boys fine playing. Beaumont scored 11 of his teams goals to be bestowed upon a student for in two games and set things up for extra-mural work. The announcement two others. # INSPECTOR'S REPORT

WORK DONE IN SCHOOL NOT EXCELLED BY ANY SCHOOL IN COUNTY

Following is the Inspector's report as presented at the last meeting of

Mr. P. B. Harrison, Georgetown, Ontario.

Dear Mr. Harrison: During the past week I made my second complete inspection of your school and I wish to submit a very

brief report. During my Pall visit the time at my disposal was short and I was quite 5.31 hurried. On this occasion I was able Penalties - Beaumont, McCarthy, to devote an average of almost one-(5 half day to each class-room. As result more teaching was observed and more testing was done. I now report with the utmost confidence 236 that your Borad is served by an out-10.08 standing group of teachers. There is 11.00 not a weak teacher on the whole staff and the work being done in school is not excelled by any school in this county. It is a real pleasure to visit each classroom and to observe the interest and enthusiasm of the

> The freshness of the paint and the good repair in which the building is kept bear witness to the interest which the Board is taking in the accommodation. The warmth and cleanliness of the school indicates an efficient- caretaker.

Attention might be directed to the advisability of extending the work in Home Economics and Manual Training. In a town the size of Georgetown it would seems advisable that the Public and High schools should co-operate in this respect.

In conclusion I might add that in future, owing to a change in . the policy of the Department, an inspec- as hockey has here in Canada. tion report will probably be submitted annually instead of semi-annually. I shall, however, be glad to meet with the Board at any time or otherwise co-operate in any respect possible maintain and still further improve the standard of work being done in the Georgetown Public School.

Yours sincerely, L. Skuce.

# HELD ANNUAL "AT HOME"

The annual "At Home" of the directors of the Halton Agricultural Society was held in the Oddfellows' Hall, Milton, on Wednesday evening last. The first part of the evening was taken up with progressive euchre. Prize winners were Mrs. Hill, Palermo: Ed. Cooper and E. E. Yates, Milton. The president took the chair and called on the secretary, E. M. Read-

head, who in a short speech, extended a hearty welcome to all the directors of the 1939 board. James Wilson, who has been a director of the society for 41 years, was

presented with a service diploma from the Fairs Association of Ontario, in recognition of his long and faithful service to the society. Victor Hall, county warden: W. From the town premier sport attraction. lot up to the big leagues, baseball has predominated and in all probability will remain the public favorite sucn

Its history, reads like an imaginorganizations, contract - breaking, pool - room manipulations; briberies and dishonest players have placed the game from time to time in a dire state of affairs. But since the new baseball era began back in 1921 the pastime has been operated and the basis of honesty and sportsmanship. In this year, two years following the last-known scandal. Kenesaw Mountain Landis, was appointed czar of all professional baseball organizations and players on North American continent, a position which the chief commissioner has held to this day. But this administration in that capacity has been an easy one. His chief objective is to smash the farm-chain system introduced by the Branch Rickey of the St. Louis Cardinals a years ago, a task which, in opinion, will never be accomplished. In fact, this system of developing players is here to stay along with the machine era and the present governmental welfare system.

The National League next will open their 64th consecutive year of operation, having been first oraginzed in 1876, with Boston and Chicago being the only charter members, who have retained their? league membership since its inception. It has weathered the storm in spite of stiff opposition from various other organizations who influenced; players to desert the National League through higher financial inducements. Racketeers and gamblers also tried to break up the league as ing the honest patrons away and when the National and American Leagues consented to compete in world's series in 1903, the former circuit was sailing on troubled waters. But in spite of the unlawful atted more determination to outlaw the

CRIME AMONG YOUNG PEOPLE ON INCREASE

States Inspector George Guthrie at Masonic Lodge in Oakville

Addressing Oakville Masonic Lodge last week, Inspector George Guthrie of the Toronto police department, stated: "Crime among young people is increasing at an appalling rate." urged the co-operation of the Masons in turning Canadian youth from its lawless ways.

"The sad thing is that crime today is increasing among our juveniles. declared Inspector Guthrie, a brother Mason. "In the last twenty years the average age of penitentiary inmates has decreased by ten years. If this keeps up, ten years from today the inmates of our institutions will the cihldren who are going to kindergarten today if we men won't something to stop it. We could wipe out crime in this province if every Mason took his place alongside an enforcement officer."

In the first part of his address, which was entitled "Canadian Citizenship and Masonry," Inspector Outhrie spoke of the tremendous natural dvantages enjoyed by Canada, and stressed the need for a sense of responsibility on the part of Canadian citizens, especially of their responsibility towards the younger generation

"The boys and girls are going to be the men and women of to-morrow." re declared. "I ask you what are we doing to train them, when you and I are gone, to take over the government

## SERVED CANADA FOR 300 YEARS

The Canadian flour and feed milling industry which has existed to meet the country's domestic needs for more than 300 years is one of the Dominion's oldest manufacturers but it is only within recent years that its progress has become spectacular. The demand created by the World War gave a great impetus to the trade. The 335 flour mills, many of them of the most modern type and highest efficiency, have a capacity far in excess of Canada's demands and during 1928 reached a productive capacity of 121,000 barrels per day. Since then, the industry has been affected by the difficulties besetting the grain trade and the decline in grain prices, but in spite of that Canada continues to be one of the world's leading exporters of wheat flour.
