DIED

JONES—At Oswestry, England, on April 11th, 1939, Elizabeth, beloved wife of the late David Jones, aged 70 years. Mother of Mrs. E. E. Young, Georgetown.

IN MEMORIAM

NORTON—In loving memory of our dear daughter and sister, Mildred, who passed away April 7th, 1937. God knew that she was suffering. That the hills were hard to climb; For He closed her weary eyelids And whispered, peace be thine. Lovingly remembered by Mother, Dad, Brothers and Sisters.

ERIN

William Duncan, who is employed on the farm of Frank McCulloch, suffered leg injuries when he was trapped under a load of circular wood which slid off the sleigh on which he and Clifford McCulloch were riding. McCulloch, who was driving the team jumped clear, but Duncan was pinned beneath the load of wood. McCulloch worked for quite a time to free his companion, but finally had to summon help; the young man was removed to the McCulloch home where treatment was administered and he is convalescing.

Mr. Archibald Saunders quietly celebrated his 87th birthday on Wednesday, April 5th. Mr. Saunders is enjoying fairly good health and is about daily.

Mr. Earl Jackson has leased Mr. Fred Bingham's farm, on the sixth line, and has taken possession.

Mr. Ben Salmon has leased Mrs. Nodwell's farm on the second line, Erin, and has taken possession.

Mrs. E. Hurren is undergoing treatment in Peel Memorial Hospital, for injuries sustained in a motor accident last fall.

Term 'Purge' is Traced Back to the Year 1649

The term "purge" dates back, to be precise, to the year 1649, and to an event in the Cromwellian revolution, which was destined to be far more closely connected with the foundations of our own country than any continental European event was, according to an editorial in the Washington Star.

In 1648 the Parliamentary troop occupied London, and King Charles I was placed under restraint. The house of commons was the only authority which could act, and its membership included many avowed royalists or royalist sympathizers. Hence the dominant faction, representing the will of the country as against the pretensions of the crown, decided to take steps to insure harmonious action. On December 6 Col. Thomas Pride was ordered to place his regiment in front of the house. He himself took post at the door, with a list of the objectionable members in his hand. One by one, about a hundred members were forcibly excluded. This proceeding, which came to be known as "Pride's Purge," having been completed, the Rump, or sitting part of the parliament, laid charges against Charles for treason, adopted a resolution asserting its sole right to govern the kingdom, without concurrence of the crown or the lords; and appointed a trial court. By sentence of this court Charles was put to death on the scaffold in Whitehall on January 30, 1649.

Stinging Nettle Weeds Among the Most Useful

Stinging nettles are among the most unpopular and, be it known, the most useful of weeds. From time immemorial, observes a writer in London Tit-Bits magazine, the fiber has been used to make cordage, coarse cloth, and even paper. Young nettle-tops, thoroughly boiled, make a tasty vegetable, and the juice of the leaves cures blood-spitting and other kinds of hemorrhage. Chopped nettleleaves mixed with their food makes fowls lay in the off season, and imparts a gloss to the coats of cattle and horses.

Boiled leaves of dandelion make an excellent substitute for spinach. Bleached, they form an agreeable ingredient in a salad. The root has valuable tonic properties, and is particularly good in liver trouble. Many country-folk consider this the finest medicine in the world. They mash the roots in a mortar, and mix with one-third their measure of spirits of wine.

Camomile, another composite plant, is very common on waste ground. The flower-heads provide the familiar camomile tea. Besides being a pleasant drink, this is a fine thing for indigestion. Coltsfoot is another relative of the dandelion, and an excellent cure for coughs. The leaves are either made into a tea, or dried and smoked in a pipe.

'Mississippi Bubble' Great Scheme

The "Mississippi bubble" was a vast speculative scheme, projected by John Law, a Scottish financier, who fled London after conviction of murder following the death of an opponent in a duel. Under the patronage of the duke of Orleans, regent of France, he put into operation a plan whereby he promised to liquidate the national debt and increase the importance of France in colonial America. The project was launched with the establishment of a bank in 1716. The success of this encouraged him to found the Louisiana company, or Mississippi company, as it commonly was called. He became controller of French colonial trade. Given the right of farming the revenues, the company took over the state debt and public confidence became so great that wild speculation followed. Shares rose to 20 times their value. Inevitably the enterprise failed and thousands in France were impoverished. Law fled from France in 1720 and finally died in poverty in Venice.

Use of the Long 's'

The long "s," which resembled the "f," was generally used for all but the final "s" from the earliest days of printing in the Fifteenth century to the end of the Eighteenth century, about the year 1800. John Bell of London, publisher of the "British Theater," printed in 1775, is claimed to have been the first to discard the long "s" and Benjamin Franklin wrote in 1788 that the "round 's' begins to be the mode, and in nice printing the long 's' is rejected entirely." Oswald's History of Printing reproduces a proclamation of Governor Carbone of the Mississippi territory in 1804, in three languages. The French and Spanish versions have the long "s," while the English version has only the small "s."

Naming Walla Walla, Wash.

Walla Walla is the second oldest city in Washington, some fur traders having settled at Vancouver before Lewis & Clark first viewed the district. Dr. Marcus Whitman and his wife were Protestant missionaries who located about 6 miles from the present site of Walla Walla in 1836, and their daughter, Alice Clarissa Whitman, was the first American white child born west of the Rocky mountains. There is a saying that the early settlers "liked the place so well they named it twice" because Walla Walla is an Indian expression meaning "many waters."
