NEW FIRE TRUCK FOR STREETSVILLE

Streetsyille's hand-drawn hose reel will be replaced in the near future by an up-to-date fire truck in spite of the comment of a portion of the taxpayers that the tax rate of 46 mills makes capital expenditure undesirable. The hose reel equipment has been in use since the installation of the village water system, and has proved

effective in dealing with small fires during the past few years, but councilors felt that the expansion of the village beyond the area served by the water mains made the expenditure of some \$2,500 for a motor-driven apparatus advisable.
