

# ESQUESING Fall Fair — at — Georgetown WEDNESDAY AND THURSDAY September 27 and 28

## SPECIAL PRIZES

### HORSES

1 Single High Stepper, by T. A. Blakelock, M.P.P.	5 00	3 00
2 Single Turnout (road) 1st prize by L. E. Fleck	5 00	3 00
3 Farmer's Turnout (single) by Hughes Cleaver, M.P.	5 00	3 00
4 Best Lady Driver, by Alliance Paper Mill	5 00	3 00
5 Best Sellyway Horse in harness	3 00	2 00
6 Best General Purpose Horse, on rein by Richardson's Hardware	3 00	2 00
7 Best Agricultural Horse on rein, 1st by Massey Harris \$5.00 in goods; 2nd by Alex. Hume \$2.00 in goods	5 00	2 00
8 Best Heavy Team on the grounds, including Heavy Draft, Agricultural and General Purpose, 1st prize prize by Frost Steel Wire Fence Co., 12 ft. gate valued at \$9.00; 2nd prize Don. 5; third prize, Don. 12.	5 00	3 00
9 Best Mare in Foal to Wm. Brennan's horse, to be deducted off 1940 fee	5 00	4 00

### CATTLE

1 Best Jersey Female	3 00	2 00
2 Best Registered Shorthorn Female	3 00	2 00
3 Best Holstein Female	3 00	2 00
4 Best Ayrshire Female	3 00	2 00
5 Best group of Dairy Cows, consisting of one mature cow, 1 two-year-old heifer, and one yearling heifer, to be sired by a purebred bull; special by the T. Eaton Co., Toronto, a silver dish, Don. 20 valued at	7 00	
6 Best Calf shown by boy or girl, a member of a calf club, open to Halton and Peel counties, entry fee 25 cents. Holstein class, two-sevenths of prize money donated by Holstein-Friesian Association, 1st \$5.00, 2nd \$4.00, 3rd \$3.00, 4th \$2.00, 5th \$1.00, 6th \$1.00, 7th \$1.00, 8th \$1.00; Jersey and Gurnsey class, 1st \$4.00, 2nd \$3.00, 3rd \$2.00, 4th \$1.00, 5th \$1.00, 6th \$1.00, 7th \$1.00, 8th \$1.00; Beef Breed class, 1st \$4.00, 2nd \$3.00, 3rd \$2.00, 4th \$1.00, 5th \$1.00, 6th \$1.00, 7th \$1.00, 8th \$1.00		
7 Best Registered Holstein Heifer, born since January 15th, 1939. Exhibitor to be a boy or girl under 15 years and resident of Halton County. Showmanship 50%, by T. L. Leslie	3 00	2 00
8 Best Beef Animal, 2 years and under, by Goodrich Co., 5 gal. tractor oil, value	6 00	
9 Best Dairy Calf (male or female)	Don. 30	

### SHEEP

1 Best Pen of Fine Wool Sheep (not less than 4) 1 male and 3 females, 1st by J. Beaumont; Don. 9	5 00	2 00
2 Best Pen of Four Market Lambs, by Reeve N. A. Robinson, open to Halton County only	4 00	3 00

### MISCELLANEOUS — Goods

Dressed fowl to be placed in hall by 10.30 a.m. second day of Fair, Sept. 28. Dressed chicken must not weigh less than 5 1/2 lbs.		
x 1 Best pair Dressed Ducks, by McBean & Co.	4 00	
x 2 Best 5 lbs. Butter in 1 lb. prints, by H. C. McGuire	3 00	
3 Best 2 Apple Pies, by Apple Products Co. (Don. 13)	2 50	
4 Best 2 Pies, 1 apple, 1 lemon, by St. Lawrence Starch Co., Ltd. (Don. 22A)	60	
5 Best 2 Loaves Home-made Bread, by St. Lawrence Starch Co., Ltd. (Don. 22B)	60	
6 Best display of Grain in sheaf, not less than two sheaves; sheaves to be not less than 6 inches in diameter; 1st prize by Carroll's good value \$3.00, 2nd by St. Lawrence Starch Co., Ltd. (Don. 22C)	3 00	60
7 Best Lunch suitable for working man on display; 1st by Christie Brown Co., Ltd. (Don. 16) goods value \$2.00; 2nd by St. Lawrence Starch Co., Ltd. (Don. 22D) goods value 60c	2 00	60
8 Best display of Flowers, grown from Rennie Seeds (Don. 19) goods value	1 00	
9 Best collection of Vegetables, 1st by D. Brill & Co. (Don. 2), 2nd by Erwin & Goldham (Don. 4)	2 50	2 00
x10 Best and largest dozen Fresh Eggs, one year's subscription Canadian Champion, Milton	2 00	
by J. M. Moore		
x11 Best loaf Home-made Bread, Georgetown Herald one year	1 50	
x12 Best and neatest 1 lb. Butter, Georgetown Herald one year	1 50	
x13 Largest 1/2 dozen Fresh Eggs, Georgetown Herald one year	1 50	
x14 Best bushel Table Turnips, Georgetown Herald one year	1 50	

### MISCELLANEOUS — Cash

x15 Best pair Dressed Chickens, by A. E. Farnell	4 00	
x16 Best pair Dressed Chickens, by R. Carter, Norral	4 00	
x17 Best Dressed Chicken, by F. H. Harrison	2 00	
x18 Best dressed chicken, by F. C. Thompson	2 00	
x19 Best pair Dressed Chickens, by Harry Robertson	4 00	
x20 Best Chocolate Cake, by Mrs. Harry Robertson	1 00	
x21 Best pair Dressed Chickens, by D. Salter	4 00	
x22 Best pair Dressed Chickens, by W. H. Long	3 00	
x23 Best Dressed Young Goose, not less than 12 lbs. by J. M. Moore	4 00	
x24 Best pair Dressed Chickens by Georgetown Creamery	3 00	
x25 Best pair Dressed Ducks, by Speight's Garage	3 00	
x26 Best Dressed Chicken, by W. G. Marshall	2 00	
27 Best hand bound Sheaf, to be bound day of Fair, 1st prize by M. Williamson, cash \$3.00; 2nd, Don. 20	3 00	
x28 Best round Home-made Loaf of Bread, not less than 12" in diameter, by W. C. Anthony	1 50	

### FLOWER SPECIALS

x22 Best arranged bouquet of flowers by Brown's Bakery, Georgetown	2 00	1 00
x23 Specials by Georgetown Horticultural Society:		
(1) Members of Horticultural Society who win the most prizes in flowers at 1939 Fair, 1st, cash \$3.00; 2nd, cash \$2.00; 3rd, membership in Society.		
(2) Prizes given to children for the best bouquet of flowers from own garden, 1st, \$1.00; 2nd, 75c; 3rd, 50c; 4th, 25c.		
x Donor gets article		

## Canada Reports Eskimos Are Moving Northward

Canada's eastern Arctic Eskimos are moving northward, according to statistics compiled by the department of mines and resources at Ottawa, which reveal that approximately 100 natives have migrated north from Southern Baffin Island during the past five years.

The opening of a trading post at Dundas Harbour on Devon Island by the Hudson's Bay company marked the first group movement of the Eskimos to the northern Arctic. Attracted by the possibilities of better hunting, 11 families of Eskimos from Baffin Island volunteered to settle on Devon Island and hunt in part of the Arctic island preserve created for them by the government in 1928. The transfer of these natives was completed in 1934 when the eastern Arctic patrol made its annual cruise aboard the Nascope. After a two years' trial the trading post on Devon Island was closed and at their own request arrangements were made to return the Eskimos to Baffin Island.

In September, 1938, the 11 families—58 homesick men, women and children—with 183 dogs, boats, kayaks, tents and other belongings were moved to Arctic Bay on Baffin Island, from which point they were to be returned to their homes in Dorset, Pangnirtung and Pond Inlet. However, large herds of seals sighted during the voyage down Admiralty Inlet made the Eskimos forget their loneliness and they asked to be left at Arctic Bay where a plentiful supply of game was evident.

Success crowned the efforts of the natives to establish themselves in the vicinity of Arctic Bay, with the result that during the winter the wireless operator at Arctic Bay sent a message on behalf of two of the Eskimos inviting their relatives at Cape Dorset and Lake Harbour on Hudson Strait, more than 600 miles to the south, to come north to better hunting grounds. These invitations were accepted and four more families were taken to Arctic Bay by the Eastern Arctic patrol in 1937.

## Steel Used for Sports Today and Three Days Ago

Steel or iron have been favored for sports equipment since ancient times when Greek athletes hurled the javelin in their games, and then down through the Middle Ages when armored knights tested their skill in tournaments.

Today steel is more prominent than ever in sports and games, and every year millions of pounds of steel are bought in the form of sport and recreation equipment. When many modern sports were developed, wood and leather were used widely, but the trend is now toward steel where speed, strength and safety are important.

Golf, a game in which little steel was once used, in 1938 absorbed about 1,069,000 pounds in the manufacture of new golf clubs, exclusive of other uses on the golf courses.

Of the total for golf clubs, 175,000 pounds of steel were used for the shafts of wood-headed clubs, while 894,000 pounds were used for the shafts and heads of irons. On the golf courses, indeterminate amounts of steel were used for pins to mark the steel cups, and for watering equipment, pails, mowers and other machinery for upkeep.

Emperor Norton One of the most picturesque figures of American history was Emperor Norton I. Norton the First came to San Francisco in 1849 and declared himself emperor of the United States and Mexico. He went about in a faded blue uniform and plumed hat and issued his own money and "Imperial bonds of the Empire." "It is counterfeit," cried the bankers. The emperor laughed. "How can a government make counterfeit money?" he asked. He had them. And although he was considered insane when he demanded the construction of a bridge between San Francisco and Oakland, today sane engineers have completed that structure. He attracted to himself an enormous following including newspaper editors, and when he died, he was given a magnificent funeral.

Cherry Named for Chinaman Oregon's famous Bing cherry, developed by Seth Lewelling of Milwaukie, was named in honor of his Chinese servant, Bing, a stalwart Manchu from northern China. When the new cherry matured the question of a name was discussed. Bing had worked on the row where the new cherry was growing. "That was Bing's row," said Lewelling. "Bing's a big man, and the cherry is big, so Bing shall be its name." After 30 years' service in the Lewelling nursery Bing returned to China to visit his family, and while there the Oriental exclusion act went into effect, preventing him from returning to America.

Canadian Shoes Every Canadian buys more than two pairs of shoes a year according to calculations made by government statisticians. In 1937 the consumption was 2.32 pairs for every man, woman and child in the dominion or a total of 34,690,831 pairs. Of this number, Canadian factories supplied approximately 24,000,000 at the same time manufacturing 358,308 pairs for export purposes.

## WHEN "AGE" MUST BE SERVED

Recent reports from the United States indicating that a more "national mind" is prevailing in that country, owing to the change in age groups of the population, are interesting from the Canadian standpoint because of similar conditions here.

The statement made a few weeks ago by the Health League of Canada, that had the 1929 infant mortality prevailed in 1938, there would have been 6,545 more deaths than there were in Canada last year.

The Canadian average of 63 deaths of children under one year of age, per 1,000 live births, was a reduction from 82 in 1928. A later bulletin from the Health League gave the final figure for Ontario as only 69.5.

In both Canada and the United States the birth rate has been declining and medical men see no immediate prospect of an upturn.

While the two factors—a decreasing birthrate and decreasing infant mortality—would seem to offset one another, there are other factors reported by the American Medical Association that affects national life in both countries.

Due to new victories in the fight against disease and the possibility of reducing fatal accidents in the future, the proportion of people in upper age will increase. The medical association says:

"The control of the communicable diseases has been the most important factor in increasing average longevity. In fact, except for tuberculosis and pneumonia, all the other infectious diseases have been eliminated as factors of importance so far as the death rate is concerned."

The report points out: "At present 260 of every 1,000 persons living in the United States are 40 years old or over, and it is estimated that 38 per cent of the population will be between 40 and 65 years old by 1960."

This is what prompts the finding that industrial adjustment to this development constitutes a problem—indicating the approach of a time when age, and not youth, must be served. "Older men and women" it says "will enjoy increased employment in industry—and will assume more important places in social and political activities. The viewpoint of more mature thought and judgment, they conclude, should have a stabilizing effect on national life."

Province of Quebec Eastern Townships and Ottawa Valley—Cutting of grain is general. Indications point to a good yield of high quality. Pastures are holding up well. Roots are progressing favourably and give good promise. Fodder corn has made excellent progress and the average yield of sugar beets is in excess of last year and of good quality. Early apples were plentiful and an average crop of the later varieties is anticipated. Lower St. Lawrence and Lake St. John District—Cutting of grain has commenced and a satisfactory yield of good quality is indicated. Pastures are in very good condition. Potatoes and other roots are doing well and the outlook for good crops is promising. Blueberries and other small fruits are plentiful.

Province of Ontario Harvesting has progressed rapidly under favourable weather conditions and yields of the main staple crops are satisfactory. Fall wheat is of good quality and yielded well, spring grains are average crops. A satisfactory crop of hay has been stored. Buckwheat is making good growth and cutting of a heavy stand of corn has commenced. Crop will be above average in most districts. Canning corn has suffered damage from pests which will reduce the available yield. Tomatoes are plentiful. Reports indicate the tobacco are average crops. A satisfactory crop of hay has been stored. Buckwheat dicated. Tomatoes are a good crop under way earlier than usual. Peaches and grapes are abundant, late apples are well sized and a good yield of high quality is in prospect. Beans have suffered some damage from rust, but an average yield is anticipated. Except in Southwestern sections, where rain is needed, pastures are in good condition. The harvesting of a tobacco crop of average weight and quality is about one-half completed and is around ten days later than usual.

## FREE SITE FOR FIRE HALL OFFERED

Trafalgar Township Councillor W. H. Mordey has offered to present to the township a piece of land and enough stone for a foundation for a fire hall to house the new machine and equipment, which the council has just purchased. The land is on the Mordey road about two miles west of Oakville. The council had intended placing the new hall east of Oakville, but decided to consider Mr. Mordey's offer. A 420-gallon pumper and equipment, costing \$5090, has been decided upon. The lower of two tenders received, the chassis and motor was purchased from the C. G. C. Co. Ltd., and the pumper from Woodstock. The pumper will be equipped with 1,000 feet of two and a half inch hose, a 14 foot roof ladder and a 35 foot extension ladder, both of aluminum. No arrangements have yet been made for the formation of a fire brigade to man the new machine, or for an alarm system. It is practically in the centre of the township and thickly populated, so there would be no difficulty in securing a brigade.

## GETTING BACK AT THE SELLING RACKET

Some time ago a well-known physician received three neckties from an eastern mail order house in the following letter:

"Dear Doctor—We are taking the liberty of sending you three exceptionally fine ties. Because these ties have the approval of thousands of discriminating dressers, we know you will like them. Please accept them."

The doctor replied as follows: "I am taking the liberty of sending you \$2.00 worth of extra fine pills. These pills have helped thousands and I am sure you will appreciate my thoughtfulness in sending them. Please accept them in payment for the ties which you sent me recently."

The Toronto Better Business Bureau points out that you can eliminate the "Unordered Merchandise" racket by refusing to pay for, or return the merchandise which you have received.

## NOVELTIES FOR FALL

Fashions for the Autumn Fall of Unusual Character

Black evening dresses with pink backs, coats with green collars of silver fox and swaggy coats seamed down the middle with the left half in plain material and the right half in plaid stand out among novelties in the Paris' show of new winter fashions.

Coats were also divided crosswise with brown seakins on top and black seakins on the bottom. A new astrakhan fur abated from brown to black. Sealskin handings topped wide box pleats on wool swing coats.

Rippled fur collars in clown style were featured by Alix for afternoon coats. She showed short coats of pleated fur and voluminous plaid swaggy fur or fabric hoods. Redingotes were wrap-waisted and many had draped cape tops or cape sleeves.

Day dresses fitted skin-tight except for draped fulness concentrated in front or back. Sleeves were long and plain necks either severely high or V-shaped. Dresses repeated coat collars in taupe brown, leaf greens, clover purple, faded wine-reds, grey and black. Much silk jersey was used for day and evening.

Evening materials included metal, satin and velvet brocades, plain velvet taffetas and moire. A dinner dress of black jersey had a bodice back in pink jersey. Tight brocade or bright velvet bodices topped full-gathered evening skirts in contrasting jersey or velvet.

## A FEW REASONS

There can never be a safe rule for fitting or recommending glasses. The human eye has so many variations that every case is a distinct one. It requires training and skill to recognize and prescribe. We specialize in Eye Examination and good Glasses. Consult—

O. T. WALKER, R.O.

## THE McRAE TYPE

Timmins Daily Press tells the story of Kenneth McRae who at 18 is heading westward for a vacation. The holiday is being financed by his savings of \$450 amassed during the last few years from paper route pocket money.

By working just a little harder than his fellows and by carefully saving his earnings he has accumulated more money than many people save in a life time. He is already reaping a reward in a trip which will afford him both pleasure and profit.

No country is more suitable than Canada to breed the McRae type of boy. No country offers them a better chance for success. We should be overruled with them.

If we were, there would be less talk of "relief" and the "dole" and "jobless youth."—Financial Post.

## SAFETY FIRST

When Adam, so the records state, With clothing quite inadequate, Refused to leave the garden gate— Now that was Safety First.

When Noah heard that there would be a terrible catastrophe, He built an Ark to sail to sea— Now that was Safety First.

When Solomon, the great and wise, Had wives he used to idolize, He locked them up like bees in hives; Now that was Safety First.

When Arthur and his gallant knights Got ready for their bloody fights, They clothed themselves in metal tights— Now that was Safety First.

—Eric R.R. Magazine

## GOOD AVERAGE YIELDS OF CROPS OVER ENTIRE DOMINION

(Continued from Page 1)

greater than that of last year. While coarse grains are light, no shortage of feed is expected. Pastures are in good condition.

## Province of Quebec

Eastern Townships and Ottawa Valley—Cutting of grain is general. Indications point to a good yield of high quality. Pastures are holding up well. Roots are progressing favourably and give good promise. Fodder corn has made excellent progress and the average yield of sugar beets is in excess of last year and of good quality. Early apples were plentiful and an average crop of the later varieties is anticipated. Lower St. Lawrence and Lake St. John District—Cutting of grain has commenced and a satisfactory yield of good quality is indicated. Pastures are in very good condition. Potatoes and other roots are doing well and the outlook for good crops is promising. Blueberries and other small fruits are plentiful.

## Province of Ontario

Harvesting has progressed rapidly under favourable weather conditions and yields of the main staple crops are satisfactory. Fall wheat is of good quality and yielded well, spring grains are average crops. A satisfactory crop of hay has been stored. Buckwheat is making good growth and cutting of a heavy stand of corn has commenced. Crop will be above average in most districts. Canning corn has suffered damage from pests which will reduce the available yield. Tomatoes are plentiful. Reports indicate the tobacco are average crops. A satisfactory crop of hay has been stored. Buckwheat dicated. Tomatoes are a good crop under way earlier than usual. Peaches and grapes are abundant, late apples are well sized and a good yield of high quality is in prospect. Beans have suffered some damage from rust, but an average yield is anticipated. Except in Southwestern sections, where rain is needed, pastures are in good condition. The harvesting of a tobacco crop of average weight and quality is about one-half completed and is around ten days later than usual.

## FORMER HALTON COUNTY WOMAN DIED AT SEAFORTH

In the passing of Mrs. Alex. Park on August 24th, at her home on Jarvis Street, the residents of Seaforth and surrounding community lost a highly esteemed and loving friend. The deceased, whose maiden name was Annie Jane Wren, was the daughter of the late David Wren and Janet McKerracher. She was born in Hilbert Township and at the age of seven months moved with her parents to Halton County, residing there and in Acton for several years. On January 11th, 1872, she was united in marriage to Alexander Park, moving to Seaforth in December, 1876, where they resided since. Mr. Park predeceased her on July, 1938. Mrs. Park had been an invalid for the past seven years as the result of a stroke, her condition becoming critical several weeks ago. During all these years she has been tenderly cared for by her twin sister, Mrs. MacTavish, and the sympathy of the community is extended to her at this time; also to another sister, Mrs. Eyre, of Tuckersmith Township; a brother, Mr. David Wren, of Outlook, Seaforth, and other relatives. Although confined to her home for years, Mrs. Park still retained her interest in the work of First Presbyterian Church. She was a faithful member of the W.M.S., Ladies' Aid and other organizations.

A private funeral service was held from her late home on Saturday, August 26th, conducted by her minister, Rev. Hugh Jack. The pallbearers were Messrs. Charles Eyre, Campbell Eyre, Lindsay Eyre, David Wren Eyre, Lawson D. Wren and Rev. J. A. McDermaid.

Mrs. John McDermid of Georgetown attended the funeral—Seaforth Express.

## Importation into Belgium of all fresh and dried vegetables and all fresh fruit, including apples, peaches, and pears, has been subject to the granting of import licenses since August 1, 1939.
