#### BUPPORT HOME MERCHANTS

(Leamington Post and News) One of the most essential factors in the life of any small community is a hearty spirit of co-operation among its citizens. It is vitally important that home industries, merchants and business men receive local support & the town is to make progress. During recent years every community such as Leamington has become infested with representatives of large business firms who canvass from door to door in an effort to draw trade away from local merchants. When dealing with such individuals it would be well for all citizens to keep the following facts in ...

1. The merchants and business men who faithfully serve this community are among the largest taxpayers, and without them this town would sink into oblivion. 2. Local industries mean employment

for many of our citizens who, in turn, are enabled to pay taxes, rent and other financial obligations. 3. Our business men and merchants,

unlike their out-of-town competitors. are vitally interested in the maintenance of public services to all worthy local enterprises.

4. They maintain established business locations in this town, and are eager to offer you service-not merely Keeping these facts constantly be

fore us, let us all give our ready support to local tradesmen, merchants, and business men in preference to outof-town salesmen, that our town may continue to prosper and our citizensfind ready employment at home.

Neighbor: "And he's only eight

months old?" . Father: "Well, he doesn't say all of it yet, but he's got as far as 'baa, baa'.'
