 —Ever remembered by his Family.

Action Rural Hockey League

The Georgetown Pirates, champions of the league last season, after losing their first two starts this winter are finally clicking again, and are serving notice to the other teams that they are going to take some stopping to keep them from again coming out on top with the Rumple Cup.

The league this winter is comprised of seven teams, namely — Acton Lorne Rifles, Norval, Hornby, Milton, Huttonville, Rockwood and Georgetown Pirates.

Competition is much stronger this winter, and there has been plenty of exciting games so far.

Following is a brief resume of the Georgetown Pirates' games:

In their first two games Acton defeated Georgetown by a 3 - 1 score and Norval defeated them by the same score 3 - 1. Since those two games the Pirates have forged right ahead and in their last five games have won four and tied one. They have defeated Huttonville 4 - 2, Rockwood 5 - 2, Acton 4 - 2, Milton 5 - 4, and have tied Hornby 4 - 4.

The Pirates this year have: "Bill" Collier, in goal; "Perc" Blackburn, who is still going strong; George Chaplin, "Chuck" Davies, C. Bradley, W. Bradley, "Bill" Korzak, Bob Harris, Alf. Sykes, Dick Beaumont, "Art" Hills, Frank Lorusso.

Following is the standing, not including the games on Tues., Feb. 6th.

	P	W	L	T	Pts.
Norval	7	5	1	1	11
Georgetown	7	4	2	1	9
Hornby	7	3	2	3	9

Milton	6	2	3	1	5
Huttonville	7	2	5	0	4
Rockwood	6	1	5	0	2

HOCKEY

Georgetown Juniors Too Much for Group Leaders

BOLTON EDGED BY 7-6 SCORE LAST WEEK

Last Thursday was a red letter day for the Georgetown Junior C Hockey team when they took the group leaders Bolton, into camp with a 7-6 score.

It was a hectic affair, with the winners scoring the first goal and carrying on an offensive that bewildered the unbeaten Bolton team. For three periods they kept up the pace and edged the Bolton team 7-6 when the final summing up was made.

The game had all the thrills of a championship game, as "both" teams were out to win in no uncertain terms. The local team looked better on the same than did the vanquished and made their dreams come true by defeating this highly rated team.

Kemshead and Runham scored for Georgetown in the first period, while Jones netted two for the visitors. In the second frame Kemshead and Schertzel counted for the winners, while Jones added another for Bolton.

The third period turned out to be an nightmare, when the Bolton coach leaned over the boards and grabbed Eddie Binsell. The latter retaliated, and from then on the lights were out. A melee ensued with the fans taking part, and the Bolton coach ushered out of the arena when he hit Mrs. Binsell (who was behind the player's bench) in the face. When order was finally restored Binsell was given a twelve-minute penalty and the game proceeded. Louth scored twice and Schertzel once, while Bolton added three by Calhoun, Seamon and Jones.

It is games like this the fans crave to see, and no doubt if we meet Bolton in the finals, it will require the walls of the arena to be expanded.

Orangeville Make It Tough for Intermediates

SINGLE GOAL STOOD BETWEEN VICTORY AND DEFEAT

Up in the Dufferin County town last Friday evening the local Intermediate squad were content to eke out a 1-0 win over the never-say-die Orangevillians. The Orangeville team staged a comeback after their defeat here, that almost cost Georgetown a chance for the play-off berth, but they managed to stay off the aggressors and guard a single goal for almost the entire third period.

No score was the count in the first and second periods for either team, but in the first few moments of the third frame Ken Richardson banged in what was found later to be the winning goal.

It was a fast, clean, hockey game, with both teams out to win, and the better team coming through.

Intermediates Lost at Milton on Monday

DEFEATED 4 - 3 IN HECTIC GAME

Georgetown Intermediates put on a whirlwind finish to the game at Milton on Monday night, but failed to defeat 4 - 3 on the night's play. The game was a hectic affair, exceptionally rough and exciting. Milton were strong in the first two periods, but the locals reversed the play in the third stanza and gave the homesters some anxious moments. The newly coached squad of Miltonites looked a much improved team, but it is possible Georgetown will dispose of them in the play-offs, when and if they come.

NEW FORD TRACTOR IS DISPLAYED HERE

Canadian farmers will have an opportunity to examine the new Ford Tractor with Ferguson and line implements today. This revolutionary new power farming machine has been shown across Canada in all dealers' show-rooms and is displayed here by A. E. Cripps, local Ford dealer.

The tractor and its implements give farmers the greatest advance in power farming equipment in many years. Designed to make farming easier, it also increases production and lowers operating costs, said Mr. Cripps.

Describing the new tractor, Mr. Cripps pointed out that it combines light weight with great strength of construction and power. It weighs approximately 2,000 pounds and handles two 14-inch ploughs in average soils. Compact and versatile, it provides power for all types of farm work such as ploughing, tillage, row-crop cultivation, belt work and the operation of combines and other machines from a power take-off.

"It is necessary to see this tractor in action to understand just what it will mean to Canadian farmers. The unique coupling of the implements creates the necessary traction. The hydraulic mechanism is controlled by a handy lever which is used to raise or lower the implements and to keep them in the soil at a predetermined depth while working," said Mr. Cripps.

"The tractor and implements have been thoroughly tested in practical farm work during the past year. Remarkable results have been achieved with an average fuel consumption of only one gallon of gasoline an hour while ploughing and doing other heavy work," said Mr. Cripps.

Public demonstrations will be arranged on district farms as soon as the weather permits. In the meantime farmers are invited to see the tractor and implements in the show-rooms.

BALLINAFAD

Mrs. J. P. Kirkwood attended the executive meeting of the Halton W.M.S. of the United Church at Milton last Tuesday.

Miss Edith Warne will represent our W.P.S. at the winter school being held in Milton this week.

The Young People's Union held a social meeting in the hall Thursday evening. An enjoyable hour was spent singing some new hymns from the Hymnary and listening to the story of their origin. A social time was then enjoyed by all playing Chinese checkers. Miss Florence Steen conducted an interesting quiz contest. Lunch was served at the close of the meeting.

The sympathy of the community is extended to Miss Annie Shortill and Mr. F. W. Shortill in the loss of their brother-in-law, Mr. Albert Walters, who passed away suddenly at his home in New Orleans, U.S.A.

We again wish to extend sympathy to Mr. Clayton Beswick and friends and relatives of the late Mr. E. B. Beswick who passed away last Friday at his home in Acton.

LIONS HEAR ABOUT THE SHOE INDUSTRY

(Continued from Page 1)

covered in Italy, possibly the stock of an ancient shoe-store. Methods of ornamentation used today are not greatly different.

In the 14th and 15th centuries there were Guilds of Shoe-makers, who guarded the secrets of their craft. Probably the well-system of making shoes originated in the Guilds. The well is the perfection of shoe-making, as it leaves no tacks nor roughness on the inside of the shoe. A shoe with a high red heel was made by the Venetian Guild, and was a badge of nobility.

There is an excellent exhibit of shoes in the Ontario Museum, the speaker said, and one might find the time well-spent in examining it.

There was no essential change in methods until about a hundred years ago. All work was done by hand. The obstacle to a sewing-machine was the impossibility of making a practical machine-needle. The upper eye, as in the hand-needle, would not work, and it was not until Elias Howe, in 1846, saw in a dream a needle with its eye in the foot, that a sewing-machine was invented. A sole sewing-machine was invented by Blake in 1856. The rotary-system came into being, whereby a manufacturer rents the machines, instead of buying them.

In 1880 the Goodyear sewing and well machine came into being. It is used largely now, especially for good shoes, and such shoes as one now used in the army.

New England is the cradle of the shoe industry, and its development of the craft, was hurried by the Civil War, where so many shoes were required quickly, and so many of its craftsmen were in the ranks. The Canadian industry followed the United States in its development.

In the 27 factories in Canada, about twenty-four million pairs of shoes are made in a year, and the imports about balance the exports. Our export trade is largely with Britain and British possessions.

In regard to the particular firm which the speaker represented, he said that his father had founded the business in Grimsby in 1838, and had moved it to Georgetown in 1845. The original output was largely the high boot for farmers. Then the demand on the company was for prospectors' and miners' boots. Lately a line of boots for skiers and golfers had been added.

No lecture on shoes, said Mr. Day-foot, would be complete without reference to the footwear of the aborigines of the country. When the French and British settlers arrived, they

found the North American Indian living in the stone age, as far as implements and weapons were concerned. But he had developed skill in tanning skins, and had evolved footwear which was perfect for his requirements, that is, the moccasins. The Eskimo had also developed a boot called the "mukluk" made of sealskin, with the hair inside, quite waterproof, made by the women, which is quite perfect for his own needs. The savage teaches us a lesson, by his ability to provide himself with what he needs, and that with the handicap of possessing very poor implements for the purpose.

A cordial vote of thanks to Mr. Dayfoot was moved by W. V. Grant, seconded by E. McWhirter, and carried with enthusiastic applause by the Club.

The meeting then adjourned, with the singing of the National Anthem.
