

THE ABUNDANCE MAY OVERWHELM US

It is a common belief that the year 1944 will be a year of abundance for the United States. This is a reasonable belief, for the United States has a vast territory, rich in natural resources, and a highly developed industry. The year 1944 will be a year of abundance for the United States, for the United States has a vast territory, rich in natural resources, and a highly developed industry.

OUR WEEKLY POEM

OUR WEEKLY POEM

I always like the morning time,
For early sunrise seems
To bring such peace and gentleness,
And calmness of mind.

IT'S NOT TRUE

On the eve of a very dark day, I was sitting in my room, and I was thinking of the future. I was thinking of the future, and I was thinking of the future. I was thinking of the future, and I was thinking of the future. I was thinking of the future, and I was thinking of the future.

DEDICATION

This week we received an invitation to the annual reunion of the University of Western Ontario. As we glanced at this invitation, we saw on the first item:

BE STRONG

We are not here to play, to dream to drift,
We have hard work to do, and leads to life.
Bum not the struggle, face it, "My God's gift."
Be strong.

ABOUT A BATTLE

It matters not how deep the wounds,
How hard the battle goes, the day
How long.

The year 1944 will be a year of abundance for the United States, for the United States has a vast territory, rich in natural resources, and a highly developed industry. The year 1944 will be a year of abundance for the United States, for the United States has a vast territory, rich in natural resources, and a highly developed industry.
