REVIEW YOUR WILL

Prom time to time the results of the fallure to make a Will or to revise an existing Will come very forcibly to our attention. Changing conditions can materially alter circumstances, and while a Will made years ago was satisfactory then, it may be an entirely different matter now.

We strongly recommend that you review your Will at intervals. It is a practice which many follow and the soundness is beyond question.

We would be glad to have you consult us in confidence with regard to your Will or your Estate.

THE PRINTER'S PRAYER

Pritners have a language all their own to describe the work which goes into preparing the printed form which finally appears for you to read. Using such a language, a printer, Wilfred A. Peterson, has drafted a petition which ranks with those put forth by eminent givines, for what it may lack in phraseology, it sets forth in plain words the desires and ambitions and hopes of all men. Printing terms are capitalized

Ascribed "To the Great Printer, who PRINTS in all the COLORS of the rainbow and whose TYPE PACES are stars and clouds, autumn leaves and sunbeams, snow flakes and flowers, this is my prayer:

SHEEP INDUSTRY GIVEN IMPETU

Many agricultural products have been affected by the war, either adversely, or in a beneficial way. Among these is wool. The production of army uniforms, socks, greatcoats, blankets and other items for the fighting forces necessitating the use of large quantities of wool and woollen goods has given a decided impetus to the sheep

industry. Not only have sheep raisers been recelving a fair demand for wool but lamb and mutton from their flocks has been selling at good prices compared with values ruling in the Autumn periods of recent years prior to

the outbreak of war. The interest in the sheep industry and the confidence shared by those engaged ir lamb feeding was exemplifled at the feeder shows and sales recently held at Moose Jaw and Saskatoon. Excellent prices were obtained by Western exhibitors at these shows. and a fairly heavy movement of breeding ewes and feeder lambs is expected from the sheep ranches of the Prairie Provinces to feedlots in Ontarto and Quebec during the remainder of the Fall season.
