—During 1940 approximately nineteen million chicks were hatched in Canada, but many thousands of them died from white diarrhoea. You can prevent losses in your own flocks from this dread disease by putting Wampole's Hygeol in the drinking water. (Do not use metal containers). Hygeol quickly kills the germs that cause this disease and will give your chicks a fair start in life. Get a 35c or 80c bottle here today. — MacCormack's Drug Store.

Township of Esquesing TENDERS WANTED

SEALED tenders will be received by the undersigned up until 12 o'clock noon Monday, April 7th, 1941, for the supplying, crushing and delivering of approximately 8000 cubic yards of gravel at a flat rate to anywhere in the Township. A \$300 marked cheque required with each tender. Lowest or any tender not necessarily accepted. HARRY ROBERTSON, Road Superintendent.

DIED
McPHERSON—At her late residence, Inverholme, Norval, on Wednesday, March 19th, Charlotte Isabel, youngest daughter of the late Alexander and Jane Noble McPhereson.

IN MEMORIAM
HILL—In loving memory of Robert Hill, who passed away March 26th, 1940. Calm and peaceful he is sleeping sweetest rest that follows pain; And on earth no more we see him. We trust in God to meet again. —Nan and Bill.

—While blood testing, selective breeding and other methods have been developed, white diarrhoea is still prevalent in baby chicks. In many cases the chick is carrying the germs when hatched, therefore treatment should start at once by putting a little Wampole's Hygeol in the first drinking water—but do not use a metal container. The first three days are the most important, so get a 35c or 80c bottle of Hygeol here today. — MacCormack's Drug Store.

THE WEATHER

If we are to believe the calendar, last week was the last of winter and the opening of spring, for officially spring begins with the vernal equinox on the 21st of March.

And the weather for the week was quite in keeping with the tradition. Following the western blizzard which tied up traffic in the northern and western parts of the province, and caused the loss of so many lives in the far west, winter's dying kick here was no worse than two or three inches of snow driven by a fifty mile an hour gale for a couple of days and a drop to zero for one night. With the advent of spring we got five full days of sunshine and gradually rising temperatures till it became as balmy as spring and brought back those true harbingers of spring—the gang sparrows and the robin.

All we lack now to convince us that spring has really come is a few more days of such weather to take away the last of the snow and ice, and the arrival of the small boy with his pocket full of marbles.

Following are the local records for the week:

Date	H. and L. Temp.	Precipitation
Mon., Mar. 17	13	6 Snow 1"
Tues., Mar. 18	20	0 Snow 1"
Wed., Mar. 19	24	11
Thurs., Mar. 20	28	11
Fri., Mar. 21	28	14
Sat., Mar. 22	39	18
Sun., Mar. 23	41	18
Mon., Mar. 24	44	24
