—The streets and roads in some parts of the town and district are in bad shape, due to the winter frosts. The new pavements on the 9th Line and King St. have broken through, as have the pavements in the Hornby district. At Stewarttown the approaches at the top of both hills on entering the village are badly in need of repair after the spring breakup.

"IN OUR MAIL BAG"

Plumbrake Farm,
R.R. 4 Georgetown
April 7th, 1941.

To the Editor:

The editorial in last week's issue approved the refusal of a grant of three hundred dollars to the Halton Federation of Agriculture from the Halton County Council on the grounds that to use public funds to promote the interests of a particular group was indefensible. This is taking a narrow view surely, since the farmers constitute thirty-five per cent of our population and receive for the most valuable and greatest quantity of goods produced (at great cost and toll) by any one group only thirteen decimal six per cent of the national income which represented an annual income of four hundred and seventy-four dollars per farmer during the ten years between 1927 and 1937, so the farmers would only be claiming a small part of their own wealth, instead of seeking financial help.

To infer that Mr. Cleave, a farmer, must consequently be interested in anything which is working for the benefit of his chosen business is unhappily false reasoning. If such were the case, the farmers, indeed all men would expect even more of Mr. Cleave—and his fellow farmers—but wishful thinking has fettered us too long. With profound regret we learned that Mr. Cleave—and the editor viewed the situation with an "unbiased judgement." May their enlightened influence leave the whole.

Yet, perhaps it is well that the farmers bear the expense of their own national organization. It will afford them intense personal satisfaction and spare many considerable anxieties. A self-supporting course will earn the gratitude of all to whom it "is a mystery why we have not organized hitherto to secure a square deal from big business." Fortunately we have a deeper purpose than merely securing square deals from big business. Our purpose is to effect an efficient productive and distributive program. Surely an organization conceived in

selfishness and antagonism could not hope to be but more stupid than organized big business, which is filled with self-righteousness despite an obvious inability to fulfill—or even recognize its purpose of providing the material needs of men—just men, rich men, poor men, beggarly thieves!

To farmers, who have been slow to claim their own, a decent standard of living and happiness; who trust persistently in fairy godmothers to solve their social and economic problems rather than an intelligently organized plan may I say your lack of understanding and initiative has not only circumscribed your growing virtues, but your crimes continued. Arise and realize your stature as men, free and intelligent capable of transacting your own business satisfactorily for the mutual benefit of the consumers and yourselves.

For the benefit of the farmers and newspaper editors, may I say that the farmers have organized and operate a goodly number of business successfully, using a business amounting to many millions of dollars annually and serving over half of Canada's 28,000 Canadian farmers. There are the Mutual Fire Insurance Companies, the Canadian Co-operative Wool Growers, the Milk Producers Association, the U.F.O. Co. to mention but a few.

May I express the hope that the farmers—and other groups who are not free from degrading conditions—may meet in study groups to discuss free from prejudice and opinion to study and analyze life as it is revealed by our nobler experience. From these study groups may spring an enlightened free people. We are not free today.

Sincerely,
WELT REID.
